Unmolested Heroes.

Among the heroes of the war is the man who uncomplainingly goes without the things to which he has been accustomed in order that he may quietly do his bit. Only a comparatively few of them ever get into the limelight, but in the scheme of patriotism they share honors with those who wear the uniforms and shoulder the muskets.—Berkshire Eagle.

For Indigestion

Constipation, Sick Headache, Biliousness, Bloating, Sour Stomach, Gas on the Stomach, Bad Breath—you will find nothing better than that wholesome physic—

FOLEY CATHARTIC TABLETS

WOMEN EXCEED MEN IN JAPANESE FACTORIES

850,000 Japanese Women Work at Average Daily Wage of Ten to Twenty Cents for a Twelve Hour Day.

There are more women in industry in Japan than there are men, according to a statement recently made by the War Work Council of the Young Women's Christian Association.

The world war has brought 850,000 women and girls into the daily grind of industry according to this statement; 30,000 of them little girls under fifteen years of age who work twelve hours a day at a wage of ten to twenty cents a day, that the women may have silk dresses and munitions.

In Tokyo alone, a city of two and one-half million people, there are 100,000 women employed in sixty-two industries and businesses varying from work as telephone operators, clerks, stenographers and bookkeepers to work in silk and other sorts of factories and domestic work.

Each year thousands of these women go back to their homes in the country, broken in health and victims of tuberculosis because of the poor conditions under which they work and live. They are housed in dormitories in the factory compound. These dormitories are frequently unsanitary. The girls work long hours, have no recreation and on finishing their long day go immediately to bed, oftentimes a bed which a girl who works at night has been sleeping in all day.

As part of its world service for women, the Young Women's Christian Association plans to build dormitories in manufacturing towns where girls may live cheaply under healthful physical and social conditions, to send out secretaries who can introduce recreation into the factory compound and direct games and social life.

This is done with the co-operation of the factories' managers and proprietors. One of the most influential of these is Mrs. Suzuki, the most prominent woman manufacturer in Japan, who is owner and manager of a firm which exported \$11,000,000 worth of bean oil to America last year.

Recently Mrs. Suzuki decided to employ one thousand women in her offices. She could not find enough well trained ones so she established a permanent school where Japanese girls may be trained to enter the business world. The greatest danger ahead of Japan, she says, is in its growing materialism, and Japan's greatest need, the development of her women.

\$70,000 for Families of Blimp Victims.
Heirs of 11 victims of the dirigible balloon which fell in the business district of Chicago will receive \$70,000 from the owners of the airship. Two death claims remain to be settled.

OFFICERS SEEK MORE OF WAR

Britishers Seek Military Service in Other Lands.

RUSSIA MOST ATTRACTIVE

Soldiers of Fortune Are Joining With Russians, Poles and Czechoslovaks—Demand in Russia is for Those with Technical Knowledge Who Can Serve as Instructors—Poland Also in Field for Instructors.

Hundreds of British ex-officers are seeking new fields in which to fight. British soldiers of fortune promise to be as common on the continent as they were in the days of the Thirty Years' war.

Russia at present holds out the greatest attractions for the adventurers. After north Russia come Estonia, Poland and Czechoslovakia. All foreign governments engaged in small wars or in licking their armies into shape are offering posts to demobilized British officers.

On the books of the Russian embassy are the names of more than 100 officers who have volunteered to serve. The demand is for those with technical knowledge who can act as instructors. At the moment the only front to which the Russian government is sending officers is to north Russia, so recently evacuated by British forces.

Shipping facilities are surrounded with difficulties, but they are being obtained. On that northern front, before the British left, the bolsheviks sought to lure British officers to their service. A pamphlet was issued offering them large salaries.

Russian authorities are still considering the matter of pay. As the matter is arranged at present British officers, excepting in case of flying officers, will receive the Russian pay of their rank, which in most cases is hardly more than \$50 a month. The Estonian government has engaged several officers to conduct aerial operations and their pay is even higher than that in the British air forces.

The drawback is that the adventurer is paid in the currency of the country for which he fights and it may or may not be redeemable in future years. North Russian government rubles, until the British forces left, were guaranteed by Great Britain. The currency of Gen. Yudenitch and of the southern armies in Russia was hardly in the same category, but chances of redeeming their money are not deterring the seekers after war.

Poland in Field.
Poland is newly arrived in the field of competition for foreign officers and positions as instructors are being offered to demobilized British officers. The monthly pay is at the rate of 800 marks for a captain and 600 marks for a lieutenant. Thirty days leave in England a year and assurance of medical care and assistance are included in the conditions. The Polish war office has opened a special department at Warsaw to deal with the affairs of foreign officers.

A visit to the Czechoslovak legation in London reveals that twenty ex-officers of the British army have applied to Prague for service in the Czech army. The trouble with all foreign governments at this moment is their lack of ready funds, but that is an old story. Soldiers of fortune were continuously impecunious. South America may provide a better field for the adventurers. Mexican armies have had and still have many British officers fighting for them.

REDS USE FALSE PASSES

Mystery of How They Get to Copenhagen Solved.

The secret police service of Copenhagen has solved a mystery which for several months had puzzled both the police and the government. Some time ago it was discovered that lots of people were crossing the Schleswig border on passports not issued by the German authorities. They came to Copenhagen, where they were supported by the Danish bolsheviks.

The police, on investigating the matter further, discovered that all the refugees were prominent German Spartacist leaders, who tried to hide in Copenhagen. It was also detected that the Danish bolsheviks had formed a secret bureau for making out false passports and had supplied all their German Spartacist friends with them to return. The Danish bolshevik organization got great sums of money from the Spartacists.

Nearly 200 Freight Cars Built Daily.
Only 19,000 of the 100,000 freight cars ordered by the railroad administration remain to be built. Director General Hines has announced. From October 18 to 25 an average of 193 new cars were placed in service daily.

Rats Do Big Damage in Britain.
Rats do a yearly damage in the United Kingdom of Great Britain of \$200,000,000, or nearly \$5 a head of the population, according to generally accepted figures.
