A curious consonant change in the Dakota Sioux language took place when the Lakota Sioux branched from the remainder of the tribe and substituted the letter L for the letter D throughout the language. Otherwise the languages are similar.

FINDING LIQUOR IN THE ASH PILE AT NEW YORK

This shows a member of the United States custom service searching for liquor in the ash pile of a ship approaching New York harbor. The smuggling of wines, whiskey and rum has become so ingenious that officials are making an especially diligent search of all vessels and passengers. When the contraband liquor is found it is dumped into the bay. In this picture the nose of a wine bottle is just peeking into the face of the man who is about to heave it overboard.

ANNEXES ARCTIC ISLANDS.

Russia Takes Possession of Territory of Little Value.

Ambassador Baklanoff of Russia has notified the state department that Russia has annexed a series of islands and "broadland" off her north Asiatic coast by right of discovery. The most easterly point of land is more than a hundred miles west of Alaska. This new territory, it is said, is not of great value.

The land was discovered by Commander Mihltski, an aid to the czar and chief of the hydrographic expedition of 1913 and 1914. He found the first island in latitude 75 degrees 45 minutes north. This has been named Mihltskian I. after its discoverer. The broadland is called Emperor Nicholas II. land. Another island is called Czar svitch Alexis land.

George Peabody, founder of Peabody's institute, was offered the title of baron by Queen Victoria, but declined it.

POURITCH WILL FILL NEW POST IN RUSSIA

Doctor Bojidar Pouritch, secretary of the legation of Serbs, Croats and Slovenes, who has been appointed charge d'affaires of the legion in Omsk, Russia.

WORKER GETS \$10.50

Result of Interfering in Fight Between Dog and Wolf.

Attracted by what at first appeared to be an ordinary dog fight, Dick Catlett, twenty-eight years old, driver for the Wolf Transfer company of Minneapolis, found one of the belligerents to be a large timber wolf.

The wolf looked like a winner in the fight and Catlett, who was on his way to work, entered the fray with a bedpost he found at the corner of Seventh and Lyndale avenues North.

Thus reinforced, the dog won the battle, and Catlett, claiming the trophy, reported at the office of County Treasurer Henry Hanke and drew \$7.50 in bounty by way of swelling his day's wages.

"What are you going to do with that wolf?" asked Miss Margaret Kelly, assistant in the treasurer's office, as Catlett was leaving.

"Don't know; guess I'll throw it away," was the answer.

"I'll give you \$3 for it," said Miss Kelly promptly. "I want to have the skin for a scarf."

"You're on," said Catlett, and the deal was made.

Big Fund Will Aid French Families.

Twelve thousand French families have applied for the grant of \$5,000 from the great fund established by Theodore Cognecq, the French millionaire, to assist families possessing one or more children. Ninety grants are to be made yearly from the fund of \$10,000,000.

WHEN A WOMAN

feels all run-down, weak or dizzy—when she feels tired before the day is begun—she should turn to the right womanly tonic.

Advised Daughters in Young Men's League, Oregon:

"In my younger days I was greatly troubled with gas on my stomach; it gave me lots of trouble. I began using Dr. Pierce's medicine and received such relief that I can recommend it to others.

"I have raised a large family and am a great grandmother and have always insisted on my daughters-in-law using Dr. Pierce's Favorite Prescription during expectancy."—Mrs. B. F. SEELY, 6411 94th St., North

Pacific-Coast Folks Testify

Redding, Calif.—"Dr. Pierce's Favorite Prescription is perfectly wonderful. I owe everything to this medicine.

When I was passing through middle life I had hemorrhages, also suffered severe pain and had terrible headaches. I suffered everything. Finally, I decided to take the 'Favorite Prescription'; it stopped the headaches, the pains and the hemorrhages. I never had any more trouble. It really is great."—Mrs. R. B. RALPH, 60 Tellurium St.

Most Common Elements. Of the 15 elements commonly occurring in plants and animals, three—oxygen, carbon and hydrogen—constitute at least 95 per cent of most plants, but phosphorus, potassium, nitrogen, calcium, iron, magnesium and sulphur are regarded as essential. The five others commonly present are silicon, aluminum, sodium, chlorine and manganese. Fluorine is now known among the other elements sometimes found, and two French horticulturists, A. Gautier and P. Clausmann, have been experimenting to learn its effect on plant growth. Using amorphous calcium fluoride, they increased the yield of wheat, oats, carrot, broad bean, cabbage, pea, poppy, potato and hemp. No effect was apparent on barley, rye, bean, buckwheat and mustard and beet root. Turnip and onion were unfavorably affected.
