Got His Receipt.

Humorous incidents in connection with the war are not yet exhausted, and Ian Hay gives this one in his latest book, "The Last Million." In connection with the capture of a village from the Germans. A detachment of infantry arrived at the village only to find that a tank had beaten them by four minutes in the race to the market square. The usual young officer was in charge, and when the major came along he handed the village over to his superior officer, and then shyly asked for something to show. "Just to show, sir, that we were here first." The major thought he could fix that, and solemnly wrote out a receipt: "Received from the officer commanding British tank Bing Boy one village, in poor condition."

Right Spirit.

"Mr. Grabcohn spent thousands of dollars on his daughter's education. She attended some of the most expensive schools in America and in Europe. She was taught to sing to paint to play various musical instruments and to speak three or four languages." "Fine." "But let me tell you how shamefully she repaid her father's tender care. She came back home and married his chauffeur!" "Splendid! A girl with her wealth and accomplishments might have married a broken-down duke."—Birmingham Age-Herald.

Mother Kills Self and Three Babies.

After cutting the throats of her three babies, Mrs. N. F. Soderberg of Madison, Minn., ended her life in the same manner. The children were all under five years of age.

Killed Father-in-Law to Keep Husband.

Declaring that her father-in-law tried to separate her from her husband, Mrs. Maggie Gardenshire shot and killed her relative at Chattanooga, Tenn.

GOD ALONE KNOWS WHAT SHE SUFFERED!

Goldendale, Wash.—"I wish to tell in my own way about Dr. Pierce's medicines. In the year 1902, in January, I was taken sick with vomiting. Nothing would stay on my stomach at all, not even a drink of water and God alone knows what I suffered, and along in June or July my kidneys bothered me. I got so weak I could hardly walk around the house, but had to go as my three children were small then. Finally I got Dr. Pierce's Golden Medical Discovery and took two bottles and today I have no stomach trouble whatever. Whenever I feel bad I go and get the Pleasant Pellets or some of Dr. Pierce's medicines and it always helps me soon."—Mrs. G. M. PEFFERS, Route 3.

"After suffering pain, feeling nervous, dizzy, weak and dragged down by weakness of my sex—my eyes sunken, black circles and pale cheeks—I was restored to health by the Favorite Prescription of Dr. Pierce." So write many women. Changed too in looks, for after taking Dr. Pierce's Favorite Prescription the skin becomes clear, the eyes brighter, the cheeks plump.

Druggists sell it in tablets or liquid. It's a woman's best temperance tonic, made from wild roots.

"CURED OF BAD - BLOOD, STOMACH, KIDNEY AND NERVOUS TROUBLES"

Seattle, Wash.—"I was in a general run-down condition. Had bad blood, stomach trouble, kidney trouble and suffered from nervousness. I took three bottles of Dr. Pierce's Golden Medical Discovery and a few bottles of Dr. Pierce's Favorite Prescription and was completely cured and have never been sick a day since."—Mrs. MARY HASKINS, 907 27th Ave.

VICTIMS RESCUED

Kidney, liver, bladder and uric acid troubles are most dangerous because of their insidious attacks. Heed the first warning they give that they need attention by taking

GOLD MEDAL HARLEM OIL CAPSULES

The world's standard remedy for these disorders, will often ward off these diseases and strengthen the body against further attacks. Three sizes, all druggists. Look for the name Gold Medal on every box and accept no imitation.

HAS STIRRED UP ANTIQUARIES

Englishman Believes He Has Discovered the Site of Edward the Confessor's Palace.

In Windsor's great park the discovery has been made of what appears to be the site of Edward the Confessor's palace. The discoverer, Capt. Vaughan Williams, had his attention drawn to two mounds where rabbits had been burrowing, and here he unearthed some tiles like Norman bricks. He next came upon flints, sandstone and tiles, and he is continuing the search. In the days of Queen Victoria a tower with walls 12 feet thick was pulled down which was said by archeologists to have been built by Edward the Confessor. The secretary of the Berkshire Archeological society in connection with Captain Williams' find, states that there was before the foundation of Windsor castle a palace in Windsor forest where many notable events happened. This palace had a tower as a means of defense. In a Harleian MS. an illumination occurs which represents a palace where a lady is seen giving alms and earning for herself the title of "loaf-giver." The manor of Old Windsor belonged to the Saxon kings, and Edward the Confessor certainly held court there. Edward being prevented by his nobles from going to Rome caused Westminster to be built with the money which he would have spent on his journey. He then gave Old Windsor to the monks, but the gift was revoked by William the Conqueror, who found Windsor convenient for his hunts in the forests.

CITY MAY HAVE BIG FUTURE

Dakar, in South Africa, Promises to Develop into Something Like Another Liverpool.

The city of Dakar in South Africa, less than half a century ago in a really primitive condition, with naked children running around the streets and mothers working with babies strapped upon their backs, has suddenly come into prominence as the prospective "Liverpool" of Africa. In the keen competition that is expected between America and Europe for trade in South Africa, Dakar, it is believed, will have an important role to play.

The French are today making extensive improvements at Dakar. They have spent much money in enlarging the dry docks and seeking the harbor deeper as well as increasing the facilities for transferring cargo from boat to train. The Dakar of today is a thriving town of about 25,000 people, with wide well-laid-out streets, a large technical school, hospitals and workshops. There are, however, a great majority of natives, being in fact, only about 2,500 Frenchmen.

These natives have been said by some to have formerly been the masters of the Mediterranean. They are wonderful fighters and it was only with great difficulty that in 1802, Gen. Faldherbe, the French governor, was able to overcome them. Thus he paved the way for the founding of Dakar. We may know a great deal more about it later.

Navy's Great Airship Hangar.

The navy is purchasing its first rigid airship in England at a cost of \$2,500,000. To house it a huge hangar is to be erected at Lakehurst, N. J., which will be 800 feet long, 265 feet wide, and will have a clear inside height of 174 feet, while the total height from the ground to the peak of the roof will be over 230 feet. The steel framework will be over 8,000 tons. Two elevators and several stairways will lead to the roof. The many shops necessary for the maintenance of the airships will be built in between the great arched trusses that support the roof. Three railroad tracks will run the entire length of the building. The hangar will be large enough to hold one ship of 10,000,000 cubic feet capacity, and a smaller one at each side, or two 5,000,000 cubic feet ships side by side.—Scientific American.

Loggers Use Electricity.

A lumber company cutting timber from one of the national forests has installed over a mile of electric transmission line through the woods to supply an electric logging engine with power. It is planned ultimately to use electricity for the entire camp. Current is developed at the mill. Since many forest fires start from logging equipment and camps, the government foresters regard the introduction of electrical equipment with much favor.

Portable Electric Grinder.

A portable electric grinder for the machine shop, designed to be moved over the work, has the motor of one-eighth to one-half horsepower placed above the work out of the operator's way. The spindle is bored with a five-sixteenth-inch hole to receive an adjustable shaft for interior grinding, and the use of interchangeable grinding wheels adapts the little machine to a wide range of work.

Practical Economy.

"Wife ever get an economical streak?" "She does. Only this summer she figured out she could save \$5 in one week by doing her own housework." "How did it work out?" "She got a cook book. I got dyspepsia and the doctor got the \$3."—Boston Transcript.

Pulling Together

At a county fair a flamboyant sign advertised: "The Strangest Sight in the World!" Those who paid a dime to see the marvel found in the tent ten farmers pulling together on a rope. . . It is different today. Now thousands of farmers, organized as the American Farm Bureau Federation, are pulling together. And they'll get what they want, says

The COUNTRY GENTLEMAN

Folks who think the farmer is going to keep on being the national goat, feeding the world and taking its kicks in pay, have another think coming to them.

Pulling together, the nation's farmers can control their markets—can prove that they are not to blame for the high cost of living, that they are not profiteers. Standing shoulder to shoulder with the farmers of the whole nation is THE COUNTRY GENTLEMAN. Weekly it tells of the struggles and successes of farmers everywhere—and of the practical methods of those who are making money. If you are interested in farming and the farmers' movement, you should subscribe at once. It will cost you only \$1 a year for 52 big, helpful weekly issues.

Let me send in your order today!
