First Semester at H. S. Close—

Students at the high school received their report cards this afternoon with the grades for the first semester, just completed. Work has been of a general good standing through the semester, several students receiving final grades of "A" in three, four and even five subjects, and not having to take any examinations. There was the usual grist of "flunks," however, for those who like the movies better than their text books. The second semester, continuing for 18 weeks, will commence Monday, and end with the close of school on May 15th. A sub-freshman class of 17 has just been admitted from Central school, to begin high school work with the new semester.

Prefers Oregon to California—

Wm. Auslund returned this morning from a trip to the San Joaquin valley where he went recently with the expectation of locating. He made the trip down the coast to Eureka and San Francisco and traveled extensively over the central California section, but has returned and will remain in Josephine county. Mr. Auslund states that it is very dry in the San Joaquin valley and that although it commenced to rain on Thursday when he left, the rain on account of its lateness would not be of benefit to the crops.

Demented Man Put in Jail—

The police last night picked up a man who was evidently deranged and placed him in the county jail to await an investigation into his condition. The unfortunate man stated that his name was O. J. Holland, and that he came in from the north, though that was about all the information that could be obtained from him. He went into a restaurant for a meal, and when without funds to pay wrote out an order on the universe, as near as could be determined from its reading. His oft repeated assertion that "I am it," showed his mental attitude toward himself.

This would increase the length of the road about 600 yards and many of the farmers have entered protest to the change.
