 Rain in west and rain or snow in east portion. Warmer tonight in east portion. Increasing southerly winds.

NEW COUNTY AGENT
 It is announced from the office of the state leader of county agents that Roy E. Miller has been selected for the appointment as agricultural agent for Josephine county, and the new man is expected to be on the job by the 19th of the present month.

Mr. Miller comes to Josephine county with the very highest of recommendations as to his ability in his chosen field of work. He is a graduate of the Oregon Agricultural College, having completed his work at that institution in 1915, having specialized in horticulture. He then went to the University of Chicago, and took a master's degree there. His special investigations were along the lines of botany and bacteriology. While at O. A. C. Mr. Miller was an honor student, and went to Chicago on a scholarship. Since taking his master's degree in Chicago, Mr. Miller has been with the Idaho Technical Institute at Pocatello, as director of agriculture, where he had a general farm under his direction, the farm being under irrigation, and specializing in the production of both large and small fruits, certified seeds and livestock.

Mr. Miller is a married man, aged 32 years, and his wife was the home demonstration agent in the state of Idaho.

COUNCIL CONSIDERS AUTO PARK

man, the committee from the Chamber of Commerce that is investigating the matter of a site and the permanent establishment of an auto camping park for tourists, appeared before the city council last night in the interests of the park. They stated that they had investigated a number of available sites, though they were unanimous in the belief that the present site, adjoining Riverside park, was best suited for the purpose. The stumbling block in the matter was the rather exorbitant price demanded by its owner, \$2250 for the tract. Suggestion was made that the tract could be condemned for city purposes, and payment made in line with the values of other properties, but this course was considered only as a last resort at best, and did not find ready favor. To further investigate sites, and that the city might cooperate with the other interests in the question, a committee from the council, composed of Councilmen Cramer, Nutting and Herman, was named.

It was urged by all the speakers in the discussion that a permanent site be immediately obtained, and a camping ground that would be unequalled on the coast be established. The value of the camp to the community was recognized, and as soon as the matter of permanency is settled, adequate equipment and conveniences will be provided. How to finance the park was discussed, members of the council preferring some other method than the further increase of taxes. This matter will also be considered by the committees from the council and the Chamber of Commerce, and a plan for the financing evolved.

EXPORT TRADE FROM ENGLAND IS GROWING

Sunderland, Eng., Feb. 6.—An optimistic statement regarding the trend of affairs in this country was made by Winston Churchill, secretary of state for war, in a speech here. Mr. Churchill said:

"Our export trade is growing month by month in value and in volume. Orders are flowing into almost all the great industries, not only from the home market, but from overseas.

"Our expenditure is diminishing rapidly. The expenditure of the departments which I control will be less by the enormous sum of £400,000,000 at the end of the year than it was at the end of last year. The revenue also shows steady expansion.

"We are on the high road to recovery from the injuries and the retardation of the war and to consolidation of the great position won by the prowess of our soldiers in the field. But there is one condition. We must all work together during the period of reconstruction."

NEW RECORD SET FOR HARBOR LUMBER SHIPMENT

Aberdeen, Wash., Feb. 6.—Lumber shipments from the Grays Harbor section amounted to approximately 812,000,000 feet during 1919, according to figures compiled by railroad and shipping men here. A total of 21,000 carloads, or approximately 525,000,000 feet, broke all previous records for this section, railroad men said. Water shipments equalled approximately 287,000,000 feet, it was estimated.

THOUGHT HE WAS WORTH MORE THAN HIS HIRE

Belpre, Ohio, Feb. 6.—Because of the low salary, F. P. Murphy, newly elected mayor of this village, has declined to serve as chief executive. The position pays \$110 a year. The town marshal receives \$300.
