FARM ANIMALS

VERMIN ON HOGS EXPENSIVE

One Cent Per Pound Is Added to Cost of Producing Pork by Presence of Insects.

(Spared by the United States Department of Agriculture.)

Lice add a cent a pound to the cost of producing pork. This has been found in tests just completed at the experiment farm of the United States department of agriculture at Beltsville, Md. Twenty-four lousy hogs were secured and divided into two lots as nearly equal as to quality of animals as possible. The two lots were managed and fed the same way with the exception that one lot was treated to prevent lice. The animals were weighed at regular intervals and at the end of the fattening period it was found that the hogs infested with

lice cost a cent a pound more to fatten than those which were free of the troublesome pest. The officials who had charge of this experiment give an interesting side light in connection with securing the lousy animals. They communicated with some of the department's field men, asking them to locate lousy hogs. It was some time before a reply was received to this surprising order. After the lousy hogs were purchased the owner learned why, and he immediately built a dipping vat and began to treat the animals to prevent lice.

COUNTY BREED DIRECTORIES

Catalogues Are Valuable in Identifying Owners and Effective in Promoting Sales.

(Prepared by the United States Department of Agriculture.)

Indexing counties as to dominant breed of live stock maintained, through the use of county breed directories, has won great favor in Iowa, where several years ago Linn county inaugurated this work. Such catalogues are

GOD ALONE KNOWS WHAT SHE SUFFERED!

Goldendale, Wash.:—"I wish to tell in my own way about Dr. Pierce's medicines. In the year 1902, in January, I was taken sick with vomiting. Nothing would stay on my stomach at all, not even a drink of water and God alone knows what I suffered, and along in June or July my kidneys bothered me. I got so weak I could hardly walk around the house,

but had to go as my three children were small then. Finally I got Dr. Pierce's Golden Medical Discovery and took two bottles and today I have no stomach trouble whatever. Whenever I feel bad I go and get the Pleasant Pellets or some of Dr. Pierce's medicines and it always helps me soon."—Mrs. G. M. PEFFERS, Route 3.

"After suffering pain, feeling nervous, dizzy, weak and dragged down by weaknesses of my sex—my eyes sunken, black circles and pale cheeks—I was restored to health by the Favorite Prescription of Dr. Pierce." So write many women. Changed too in looks, for after taking Dr. Pierce's Favorite Prescription the skin becomes clear, the eyes brighter, the cheeks plump.

Druggists sell it in tablets or liquid. It's a woman's best temperance tonic, made from wild roots.

"CURED OF BAD BLOOD, STOMACH, KIDNEY AND NERVOUS TROUBLES"

Seattle, Wash.:—"I was in a general run-down condition. Had bad blood, stomach trouble, kidney trouble and suffered from nervousness. I took three bottles of Dr. Pierce's Golden Medical Discovery and a few bottles of Dr. Pierce's Favorite Prescription and was completely cured and have never been sick a day since."—Mrs. MARY HASKINS, 907 27th Ave.

Attention! Important!

We have no Ford cars in stock.

We are expecting some soon but as there are many more buyers than we can supply we can make delivery only to those who sign orders and make a deposit of \$25.00. These orders will be filled in rotation according to date taken. If you want a car the sooner you let us have your order the sooner you will get it. There is a shortage in all makes of cars, and the situation will be worse as the season advances. The public will soon find that this will be a year of ordering in advance for almost anything they want. You may not be obliged to wait long for a Ford if you order now but the order system is the only way in which the cars can be fairly distributed. The Ford Motor Company insists on a strict enforcement of this rule from this time.

different breeds and are effective in promoting sales and in attracting prospective purchasers to the locality. They constitute a relatively permanent form of advertising, as ordinarily they are kept for future reference by those who receive them. The directories are best issued under the authority of a county live stock breeders association or the local farm bureau. Ordinarily the expenses of these booklets are raised by the sale of advertising space to breeders. Practically any rural printing office can put out creditable productions of this class.

COMMUNITY BREEDING PLANS

Farmers in Certain Section Agree to Stick to One Breed and Use Purebred Sires.

Community breeding simply means that the farmers in a certain community agree to do two things: First, to breed but one breed of cattle, sheep or hogs.

Second: They agree to use none but purebred sires, these sires being owned either individually or collectively. Everyone is absolutely free to do as he pleases just so long as he sticks to one class of stock and uses a purebred sire. These plans can best be carried out if the farmers are organized in a body and get together at stated periods.

LIVE STOCK NOTES

Mutton lambs are sure sale at good prices.

Use the best boar that you can secure.

Keep the fall pigs growing all through the winter.

Parasitical diseases of sheep are hard to fight and overcome.

Weak lambs should be nursed and given extra care and a little extra milk.

Arrange to have the sows farrow early. The early pigs have the advantage of a better market.
