Pin Your Faith to Experience —in Selecting a Truck

Performance records covering 21 years of experience are back of every MACK truck built today.

You would not choose as the tailor for your suit a man who had not had years of experience, nor would you have a carpenter build you a house unless first you satisfied yourself of his ability.

Therefore, in selecting a motor truck, pick first of all a high-grade, manufactured product built by men who know the requirements and how to produce a truck that will meet them.

The MACK truck will meet any and all haulage conditions you may be disposed to suggest and meet them in a way that will cause you to admit they were done right.

Put a MACK to the TEST.
