

Announcing— the Addition of a Trust Department to Our Regular Banking Facilities—

A RECENT act of Congress permits National Banks when authorized by the Federal Reserve Board to establish Trust Departments to carry on such business as would ordinarily be conducted by a Trust Company.

We have installed a staff of specially trained men and are ready now to serve any of your needs in this important department. Let us explain to you in person our facilities.

This bank has been authorized to act as trustee, executor, administrator, registrar of stocks and bonds, guardian of estates, assignee, receiver, committee of estates of lunatics or in any other fiduciary capacity in which state banks, trust companies, or other corporations which come into competition with national banks are permitted to act under the laws of this State.

Of Southern Oregon

PERSONAL AND LOCAL

E. L. Churchill was a business visitor Wednesday, at Medford.

Hemstitching and pecking, 10c and 12c per yard. Nellie Neas, 011f

J. B. Nellist left today for Crescent City where he will spend several days on business.

J. L. Calvert left this morning for Bray where he will spend a few days looking after business.

"Pathe" Phonograph. Sabin has it.

Miss Ruth L. Corbett has returned from a visit at Corvallis and Portland, where she spent a week.

Mrs. Alice Bacon, county school superintendent, is spending the day at Merlin, visiting the school there.

T. Y. Dean left last night for Portland to attend the grand lodge of the Odd Fellows.

Mrs. O. D. McCallister, who has been visiting here with her mother, Mrs. J. P. Martin, returned this morning to her home at Roseburg.

Rolled barley and oats, \$2.50 per sack, at the Josephine County Flouring Mill. 79

A. B. Culy returned to his home at Roseburg this morning after a visit with his brother, C. N. Culy, of the Applegate valley.

Rolled barley and oats, \$2.50 per sack, at the Josephine County Flouring Mill. 79

Mrs. W. H. Jensen and two sons, of Oakland, Calif., are visiting in the city with Mrs. Jensen's father and her sister, Mrs. W. W. Walker.

Mrs. P. A. DeGenault returned this morning from Eau Claire and St. Paul, Wis., where she has been visiting for the past four weeks. She stopped at Seattle on her way home.

Alex Nibley passed through this morning on his way to Medford. He says that sugar beets are now bringing \$25 a ton and that the price of the beets will keep up with advances in the price of sugar.

The Oregon theater management personally endorses "23 1/2 Hours Leave" as the comedy hit of the season. 78

Mrs. W. I. Hawley and Mrs. A. E. Kelly left this morning for Portland after a visit at Provolt with their mother, Mrs. W. R. Adkins, who has been in very ill health. She is reported to be much improved at present.

James McFarland passed through here this morning on his way to Medford. Mr. McFarland has been attending O. A. C. but has finished his year there. He says that school will be out there June 11. He was accompanied by P. C. Carter of Medford. Mr. McFarland says also, that Ted Cramer is now on the O. A. C. campus.

Plumb-Line's Course.

A plumb-line does not always point to the center of the earth, only approximately. The plumb-line if extended so far, would pierce the earth's center if the earth were a perfect sphere composed of matter of equal density throughout. But the earth is irregular, both in shape and in the density of its materials. The plumb-line, if continued, would ordinarily pass through the earth's center of gravity, rather than through its mathematical center. But even this may be modified by conditions on or near the surface. Close to a mountain the plumb-line is drawn a little out of the perpendicular by the gravitational attraction exerted by the mountain in a one-sided direction. The moon in some positions might affect the perpendicularity as it affects the tides.

Birth of a Second.

Each new second is heralded by a flash of light and the ring of a bell in the factory of an electrical firm in Providence—not to remind the workers that the dire day of doom approaches, but to help them in their work. Often men must count seconds accurately for certain operations while they watch their work closely. This concentrating on two things at one time is very difficult. It is simplified by the new second-announcer. As the pendulum of the clock swings to the right it touches a wire, thus making a contact that causes the light to flash and the bell to ring.—Popular Science Monthly.

Must Sign Now—

Any orchardist that intends to market his crop through the Oregon growers association, must sign up with the association before June 1. This pertains to the 1920 crop only.

Dance at Holland—

Don't miss the dance at Holland, May 22nd. 78

Men Wanted—

For road work, \$5 and up for 8 hours. Bring blankets. Schell & Calvert. 82

Rip Saw—

Jigg saw, buzz saw, bang! I learned my trade with a darn good gang. Can I paint? Well I should smile! I can paint and decorate your house in any old style. Wycoff, 707 South Fifth street. 78tf

GET PUBLICITY ON CALENDAR

That Form of Advertising is the Most Popular With the Merchants of China.

It has been known for a long time what a relative task it was to go visiting in China—that is, if you happened to be a lofty dignitary and must therefore carry along a card of uncomfortable dimensions. Advertising, it seems, shows a corresponding divergence not only from occidental methods, but from those of nearby Japan. There are thousands upon thousands of newspapers in China, but they are not very firmly established, and when they do not soon disappear altogether they are almost sure to change name frequently, as has been known to happen with certain American products. Newspapers of the republic have an average daily circulation of 3,000, which is larger than it looks, since the papers are carefully passed from hand to hand. There is, then, to be sure, newspaper advertising as well as posters. But the most popular form of publicity for merchants is—the calendar! Nowhere is that humble domestic article more important than in China. Advertisements here placed are looked upon every day. And after all, when you look at the calendars that begin to arrive about this time of the year, isn't it possible to imagine that China is not so far from the West as it might be?—Christian Science Monitor.

TO OPERATE AIRSHIP FLEET

Ambitious Plans Credited to English Company Well Within the Realm of Possibility.

A company has been formed in England for the purpose of operating a fleet of airships to various parts of the world. The syndicate desires to acquire ground near Southport, where it proposes to erect a tower 120 to 150 feet high to which airships may be moored, and an elevator will take the passengers up the tower and into the gondolas of the ships. The syndicate intends to have a fleet of non-rigid airships in commission next spring; the smaller will carry 32 passengers and crew and the larger 40 passengers and crew. The company also anticipates running some of the larger rigid airships now in course of construction. These will have a carrying capacity of 150 passengers and be able to travel to any part of the globe. It is proposed to use the smaller non-rigid airships to feed the larger ones and meet them at the principal centers. The cost per mile is put at about half the cost of a taxicab fare today, approximately about 18 cents per mile.—Scientific American.

'RESERVE YOUR EGGS WITH.

SILICATE OF SODA

(Water Glass)

Eggs are cheaper now than they have been for many a day. And right now is the time to lay in a stock of them. Silicate of Soda covers them like glass and is therefore a sure preservative. Full and simple directions with each package.

Had Invitation to Fly—

The insistent telegram which Acting Governor Ben Olcott received just before the banquet served in the courthouse in Grants Pass Thursday evening called him northward was an invitation to make an airplane flight. Olcott had escorted the auto caravan to Grants Pass expecting to

contique southward with it, but the colonel of the air squadron had gone to Eugene during the day, and wired Olcott from Eugene that there was a ship ready to take him from Eugene to Salem Friday morning. Hence the executive's hasty leave-taking from the banquet board. He would rather fly than eat.
