You have grain to thresh. Get one of the several Case Threshers to do your work. Less Grain in the Stack and cleaner grain in the sacks. That's Case Threshing... If you can not get Case service in your community then we will be pleased to show you the little Case Community Thresher. And if you have a Thresher and no power a Case Kerosene Tractor will do the trick. Belt pulleys are regular equipment on Case Tractors and are driven direct. No gears. You get all the power on the belt. We can help you with your threshing problem. See us.

AMERICAN CLUB TO BE BUILT IN ARGENTINA

Buenos Aires, July 9.—The American Club here of nearly 300 members is trying to lease or buy a home in order to fulfill a long felt want for an American social center in the Argentine capital. There are a number of English clubs to which some Americans belong, but there is no place where Americans can get together and "talk freely" as one of the promoters put it. The board of governors point out that if it is to be a real American club it must be "the best," which means a good deal in this city of fashionable clubs, among them a luxurious German club. The organization has a "nest egg" of \$20,000 to begin with. It is proposed to admit women to privileges and make the club a center of all American patriotic activities. The American Club at present holds a weekly luncheon at a hotel when the members listen to addresses by prominent visitors or Argentines.

CHINESE UNIONS ARE SEEKING ALLIANCE

Shanghai, July 9.—China's embryonic labor unions are seeking an alliance with the national student body. These labor unions are still in a nebulous state. The first of them came into being in Shanghai a few months ago in a loosely welded organization of coolies back from war work in France. Then were formed the "Wharf Coolies" association, the electricians union, the China labor union, the China industrial workers' union, the national union of laborers and several others. Organizers of these unions attempted to hold the first Labor day celebration in China on May 1, but when they undertook to parade in the native quarter they encountered two companies of Chinese troops and a machine gun detachment, ordered out by General Ho Fungting, acting defense commissioner, who forbade any form of demonstration.
