AN IMPORTANT LETTER

BISHOP, CALIF.—"About five years ago I suffered severely. I consulted a local doctor and he said I would have to undergo an operation. When I said "No," he advised a course of treatments. I happened to think of Dr. Pierce's Medical Adviser, and in it I found my case thoroughly described. I sat right down and wrote to Dr. Pierce. I then tried Dr. Pierce's Favorite Prescription—took one bottle—also one bottle of 'Golden Medical Discovery,' and used the 'Lotion Tablets' and I have not been troubled since. I have had two fine healthy boys since then, and work hard. At that time I was not able to do my own work. I have used the 'Pleasant Pellets' for the liver and bowels for about 20 years, wouldn't be without them."—MRS. S. G. ALBRIGHT, R. F. D. No. 1.

Write to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., if you want free confidential medical advice, or send 50 cents for the "Medical Adviser."

HARDING HITS KEYNOTE

(Continued from page 2.)

Justly complained-of, and aim to place the American farm where it ought to be—highly ranked in American activities and fully sharing the highest good fortunes of American life.

Becomingly associated with this subject are the policies of irrigation and reclamation, so essential to agricultural expansion, and the continued development of the great and wonderful West. It is our purpose to continue and enlarge federal aid and not in sectional partiality, but for the good of all America.

Budget System Favored.

I believe the budget system will effect a necessary, helpful reformation, and reveal business methods to government business. I believe federal departments should be made more business-like and send back to productive effort thousands of federal employees, who are either duplicating work or not essential at all.

I believe in the protective tariff policy and know we will be calling for its saving Americanism again.

I believe in a great merchant marine. I would have this republic the leading maritime nation of the world. I believe in a navy ample to protect it and able to assure us dependable defense. I believe in a small army, but the best in the world, with a mindfulness for preparedness which will avoid the unaffordable cost of our previous neglect. I believe in our eminence in trade abroad, which the government should aid in expanding, both in revealing markets and speeding cargoes. I believe in establishing standards for immigration, which are concerned with the future citizenship of the republic, not with mere manpower in industry. I believe that every man who dons the garb of American citizenship and walks in the light of American opportunity, must become American in heart and soul.

I believe in holding fast to every forward step in unshackling child labor and elevating conditions of woman's employment. I believe the federal government should stamp out lynching and remove the stain from the face of America. I believe the federal government should give its effective aid in solving the problem of ample and becoming housing of its citizenship.

Government Should Protect Bonds.

I believe this government should make its liberty and victory bonds worth all that its patriotic citizens paid in purchasing them. I believe the tax burden imposed for war emergency must be revised to the needs of peace and in the interest of equity in distribution of the burden.

I believe the negro citizens of America should be guaranteed the enjoyment of all their rights, that they have earned the full measure of citizenship bestowed, that their sacrifices in blood on the battlefields of the republic have entitled them to all of freedom and opportunity, all of sympathy and aid that the American spirit of fairness and justice demands. I believe there is an easy and open path to righteous relationship with Mexico. It has seemed to me that our undeveloped and uncertain and infirm policy has made us a culpable party to the governmental misfortunes in that land. Our relations ought to be both friendly and sympathetic. We would like to acclaim a stable government there and offer a neighborly hand in pointing out the way to greater progress. I believe in law enforcement. If elected I mean to be a constitutional president and it is impossible to ignore the constitution, unthinkable to evade the law, when our every committal is to orderly government.

The four million defenders on land and sea were worthy of the best traditions of a people never warlike in peace and never pacifist in war. They commanded our pride. They have our gratitude which must have genuine expression. It is not only a duty, it is a privilege to see that the sacrifices made shall be requited and that those still suffering from casualties and disabilities shall be abundantly aided and restored to the highest capabilities of citizenship and its enjoyment.

American Womanhood Praised.

The womanhood of America, always its glory, its inspiration and the potent uplifting force in its social and spiritual development, is about to be enfranchised. Insofar as congress can go the fact is already accomplished. My party edict, by my recorded vote, by personal conviction, I am committed to this measure of justice. It is my earnest hope, my sincere desire, that the one needed state vote be quickly recorded in the affirmation of the right of equal suffrage and that the vote of every citizen shall be cast and counted on the approaching election.

And to the great number of noble women who have opposed in conviction this tremendous change in the ancient relation of the sexes as applied to government I venture to plead that they will accept the full responsibility of enlarged citizenship and give to the best in the republic their suffrage and support. This is not only a fortunate people but a very common sense people with vision high but their feet on the earth, with belief in themselves and faith in God, without enemies threaten from without or menace from within, there is some indefinable voice saying "Have confidence in the republic."
