

The New Demands of Peace—

Before us is a period of business revival and prodigious activity—also of keen competition. The organization which enabled the banks of the nation to finance the war will insure the solution of the problems of peace financing. This bank is a member of that organization.

WEDNESDAY—ELSIE FERGUSON IN "COUNTERFEIT"

Fishing Is Good—

Fishing took a leap upward yesterday and today Joe Wharton is having trouble keeping up with the demand for flies and leaders. A number of fishermen were out yesterday and brought back stories of good catches of steelheads and smaller trout. Most of the steelheads caught were large. Some took a spinner while others were fooled by a fly. It is reported that a large number are in the river.

Have Warden at Mouth—

Deputy Fish Warden F. A. McDaniel of Oak Grove, Clackamas county, arrived here last week to attend to law enforcement on the river, acting under instructions from the state fish commission. Mr. McDaniel has been a warden in the game department for some time and has the reputation of being a fair and fearless official. He has expressed a desire to work in harmony with local fishermen, but expects strict observance of the "dead line" law. He will be here until the first of November and says it is reported that the commission has under consideration a plan whereby a warden is to be stationed here the entire year. This course should have been adopted long ago and most local people hope to see it put in effect, as it would do away with a good portion of the annual squabbling.—Gold Beach Reprinter.
