### Change of Government and Other Demands of Russia Not to Be Met Is Ally Ruling

Paris, July 30.—Limitations which England and France would put upon the soviet demands of Poland in arranging an armistice, are set forth in a notification dispatched to the Warsaw government, it was learned today. Poland requested the views of England and France on possible armistice terms and they notified the Poles that they will not permit the acceptance of the possible soviet armistice demands involving the disarmament of Poland, a change in the Polish system of government, the acceptance by Poland of a boundary line less favorable than that provisionally drawn by Premier Lloyd George and to use Poland in any sense as a bridgehead between Germany and Russia.

## FORD WRECKED WHEN STRUCK BY DODGE CAR

The Ford automobile, belonging to G. H. Montgomery of Waldo, is a complete wreck today, as a result of a collision last night at the intersection of Sixth and H streets. The Ford, which was occupied by Mr. Montgomery, Miss Julia Able and Mrs. Ballard, was going east along H street and a Dodge driven by D. B. Smallwood, of San Francisco, was going south along Sixth. It is not known exactly how the accident happened but apparently both cars were traveling at a fair rate of speed for the Ford was completely disabled. Miss Able was knocked unconscious for several minutes. There was only one bystander who witnessed the accident and as he was not available at the hearing this morning, it was carried over until 5 this afternoon.

According to the testimony of Mr. Smallwood, he was driving slowly down Sixth street looking for auto camp signs. He says that he was not going over 10 miles an hour at the time of the accident. As he approached the intersection, he states that he saw the other car coming from the west and at once put on his brakes. He also declares that the Ford was going about 20 miles an hour.

A large number of people heard the crash and collected at the scene. As far as can be learned, however, only one witness to the accident can be found. His testimony at the hearing this afternoon may have some bearing on the result of the proceedings in the police court.

## KANSAS FARMERS GET CARS FOR THEIR CROP

Topeka, Kans., July 30.—An increase in the number of cars made available for the shipment of wheat to market is affording some relief to Kansas farmers in the problem of marketing their grain, according to state officials and bankers interested in the wheat movement.

Although there are not yet enough cars to move all the wheat, and many cars promised by the interstate commerce commission have not arrived, and railroad officials are unable to give any definite assurance as to when they will arrive, the car shortage is not so desperate now as it has been in past years.

Officials of the state board of agriculture estimate that there are still stored on Kansas farms 22,000,000 bushels of last year's wheat crop, and an additional 8,000,000 bushels of last year's wheat in Kansas elevators. A perceptible movement of this "hold over crop" is now reported by the state board of agriculture.

There remains, however, the vastly greater problem of moving this year's wheat crop, variously estimated at 110,000,000 to 135,000,000 bushels to the great milling and export centers.

Bankers are vitally concerned in the wheat movement problem. According to J. R. Anspaugh, secretary of the Kansas State Bankers' Association, bankers have \$65,000,000 tied up in loans on crops which await marketing. Many of these loans are long overdue, and the prospects are that the amount involved in crop loans will easily reach \$100,000,000 with the ripening of the present wheat crop.

Some relief has been obtained, Mr. Anspaugh said, from the recent announcement of the Federal Reserve board that it favored extension of crop loans, and the fact that Federal Reserve banks had been authorized to accept wheat paper from member banks or from other banks through correspondents.

Railroad officials have warned farmers of their inability to move the new wheat crop promptly and urged them to make arrangements to hold it on farms properly stacked or in bins.

Governor Ben W. Olcott will extend a welcome to the legionnaires, Major W. S. Gilbert being scheduled to deliver the invocation. One of the features of the gathering will be a parade of regular army troops, allowing the men who fought in France to look on as spectators this time.

### One of Escaped Prisoners Given Food at House—Searchers Aided by Indian Trailers

## GRANDSON OF SLAVE OWNER SEES "MAMMY"

Los Angeles, Cal., July 30.—Anne Prater, colored, officially recorded by the census-taker here as 115 years old, has just received a visit from E. M. McCown, of Darlington, S. C., grandson of "Marse George" McCown whose "mammy" she was in the days of slavery.

The woman said "When the stars fell" which was in 1833, "Marse George" told her to remember she was 29 years old.

"I count from then," she said. "Marse George promised me my freedom on my next birthday, but was drowned before it came."

Since the Associated Press carried the original story about her last January, the old woman has been the subject of many newspaper articles. Mr. McCown read the original story and came to Los Angeles to see his grand father's servant.

## THOMPSON TO TEACH IN MEDFORD SCHOOLS

Farm training is to be introduced into the Medford schools according to an account in the Medford Mail-Tribune. The new department of the school will be in charge of C. D. Thompson, of this city, who was formerly county agent for Josephine county. Medford is one of about 16 other places in the state where this vocational education will be undertaken. The financial support for the school is gained through federal, state and local aid.

Following is what the Medford paper has to say about Mr. Thompson: "Mr. Thompson is not unknown to many of our people, especially among the farmers as he served as county agricultural agent of Josephine county for some years and has otherwise been active in agricultural affairs. He is a native son of Oregon, a graduate of O. A. C. and also of Michigan agricultural college and has had large experience in high school work and as county superintendent of Hood River county. He is considered by State Supervisor J. A. Churchill as one of the best qualified men for the work to be undertaken here. Under the proposed plan Mr. Thompson is employed on full time and his assistance will be available in all community enterprises connected with farming. He will enter on his duties August 1st and remove his family here as soon as arrangements for a house can be made."

## BLOOD BROTHER WILL WAIT FOR VENGEANCE

Paris, July 30.—Vengeance for the assassination of Essad Pasha, head of the Albanian delegation here, is being quietly awaited by a "blood brother" of the Balkan leader, according to a circumstantial story by a French writer, published by the Excelsior.

This man, now rich and influential in France, the story goes, was one of several poor young men who 30 years ago met Essad Pasha, then known as the "Black Dagger of Abdul Hamid" in Constantinople, when he crowded into a card game and insisted upon playing with them. Fearing Essad Pasha, they protested they were too poor to play with him but he insisted, emphasizing it by placing his revolver on the table as a threat.

"To meet this, the 'blood brother' put down his dagger, poisoned, he said. Essad Pasha showed his surprise, then his pleasure.

"Young man," he exclaimed, "this is the first time anyone has dared defy me. Men like you are rare."

Essad Pasha took his own dagger, opened a vein in his wrist and sucked a few drops of blood from the other and they became "blood brothers," according to Albanian customs, sworn to avenge each other's deaths. "I am ready," this "brother," now, is quoted as saying, "to keep my oath, but I have confidence that French courts will make it unnecessary for me to interfere."

Rustum Aveni, arrested on the spot for shooting down Essad Pasha as the later was entering his automobile in the downtown district recently, is awaiting trial. He was a student who posed as the avenger of Albanian wrongs.

## MEXICAN TRADE HAS LARGE PROPORTIONS

Nogales, Ariz., July 30.—The total value of exports and imports passing through the Mexican border ports of Arizona in the fiscal year ending June 30 was \$37,733,532. Exports were \$13,616,772; imports \$25,116,760. The figures were announced by H. E. Berner, deputy customs collector at the Port of Nogales. More than one half of the total business of the Arizona district was handled through the office here, he said.

Collections for the year on customs at this port as duties were \$201,399.17.

Commission men in both Nogales, Ariz., and Nogales, Sonora, said the total business of the port would have been much greater had not the strike on the Southern Pacific de Mexico railway lines occurred at a time when vast crop movements were under way from the Mexican West Coast into the United States. This strike was settled by the then governor of Sonora, de la Huerta, now president of Mexico.

The Oregon revolution followed soon after the strike and further hindered crop movements. Mexican and American commission men assert that because of these two interruptions untold quantities of tomatoes, cabbage and other vegetables rotted on the ground.

It is expected that members of the council will be received by King Alfonso at his summer palace. The British representative, Secretary Balfour, in a talk with newspapermen, declared for an economic blockade, stating that if it were applied to a nation which defied the league he believed that the nation would not be able to resist for long.

## PRESS CONGRESS IS ONCE MORE PUT OFF

Sydney, Australia, July 30.—After several previous postponements the Press Congress of the World, which is to be held here, has once more been postponed. Instead of taking place next October it will be held next Easter.

The change was due to the recent change in government in this state (New South Wales). Originally it was a nationalist government, under Premier W. A. Holman, which invited the press of the world to this city. Now a labor government under Premier John Storey is in control. The labor government is, however, carrying out the arrangements made by the preceding government and Mr. Storey has placed over the Congress the Minister of Education, Mr. Mutch.

Incidentally, it is believed that the postponement will increase attendance from the United States, because the congress will not coincide in time with the height of the American presidential campaign. Incidentally, also, it is hoped that by next Easter steamer fares all over the world will have been somewhat reduced.
