The reason? Every woman that uses a Thor is so thoroughly satisfied that she just can't keep it to herself.

The powerful wringer with its quick-acting safety release, the wonderful statog, that prevents burning out the motor, puts the Thor in a class by itself.

Being direct shaft drive to all moving parts relieves you of the annoyance of slipping belts and broken chains. Entirely self-cleanable, nothing to lift or take apart to clean. Either stationary or swinging wringer.
