### C. L. HOBART CO.

Inseparable from the good times of summer—**SWIMMING**—at the beach or in the pool! Those pleasant hours of golden summer days will be memorable if your suit carries the label of

# Jantzen

Knit Wear

These famous swimming suits are made right—allowing perfect freedom of action. They look so well because the Jantzen elastic stitch makes them fit perfectly and permanently.

They are pure wool, fit snugly and dry out quickly on the body.

Men, women, children—you will find your exact size and the smartest new color combinations in "Jantzens" at the good shops of your city.

**Diamonds Light in Dark.**  
Many diamonds which have been exposed to sunshine give out light on being placed in a dark room. When placed in a vacuum and exposed to a high-tension current of electricity diamonds phosphoresce or shine, with different colors. Most South African diamonds, under these circumstances, exhibit a bluish light; while diamonds from other parts of the world shine with such colors as bright blue, apricot, pale blue, red, yellowish green, orange and pale green. In a lecture delivered in London, Professor Crookes stated that one beautiful green diamond in his collection, when phosphorescing in a good vacuum, gave almost as much light as a candle. The light was pale green, almost white.

**Improved Aluminum.**  
A curious new form of aluminum has been attracting attention in France. When the pure metal is heated in a vacuum, 97 per cent of it is slowly volatilized in 73 hours at about 1,100 degrees Centigrade; and the whole is volatilized in 30 hours at 1,200 degrees centigrade. A small portion always proves less volatile than the rest. Quite often a kind of fractional distillation yields an aluminum residue that has increased affinity for oxygen, and within a month this is completely changed into a bulky grayish-white mixture of alumina and aluminum. One suggestion is that impurities of iron or silicon impart this peculiarity. But analysis shows only four per cent of iron and five per cent of silicon, and the form of metal so readily oxidized proves, therefore, to be purer than the aluminum used for kitchen utensils and various other purposes with no tendency to become oxidized. It is concluded that the easily oxidized metal is an allotropic form of aluminum.

#### Prepared for Tourists.

Tourists flocking to the war zone are finding novel hotel arrangements and conditions more comfortable than expected in view of the fact that hardly a hotel was left habitable when the Germans retreated eighteen months ago. The latest innovation of French tourist agencies is a hotel opened in Arras, where a series of ordinary railroad coaches are arranged in a square with a tent roof over the center, forming reception and dining rooms. The Arras train hotels have eighty rooms, each coach providing four compartments large enough to accommodate the most fastidious customers. Bungalow hotels are being erected, especially in the Argonne, where the shell-torn trees are being razed to provide timber for Canadian style cottages.

#### Forgotten Distances.

Americans who have forgotten the geography lessons of their school days will be surprised by statements made in an article on Chinese trade published in Shipping. Manila, it says, which is an American insular possession, is closer to China than is Tokio, the capital of Japan. The Alaskan coast is within 50 miles of Siberia. Therefore, the article concludes, it would seem that America should be more interested in Asiatic than in European trade.—From the Outlook.

**CHICHESTER'S PILLS**  
Ladies! Ask your Druggist for Chichester's Diamond Brand Pills in Red and Gold metallic boxes, sealed with Blue Ribbon. Take no other. Buy of your Druggist. Ask for CHICHESTER'S DIAMOND BRAND PILLS, for 25 years known to be Best, Safest, Always Reliable.  
SOLD BY DRUGGISTS EVERYWHERE.
