FEW IDEAS OF REAL VALUE

Wireless Telegraphy and Telephony Are Still Comparatively in the Stages of Infancy.

"As every one knows, it is a comparatively simple thing to get a patent on anything, so long as you have a good patent attorney and are able to incorporate a few new knickknacks in your device. But such a thing as a really new idea, not to speak of a basic one, is scarcer than the proverbial hen's tooth."

Thus H. Gernsback, in the Radio Amateur News, comments on the rarity of anything new in wireless telegraphy or telephony. Inventors, he says, content themselves with making improvements in existing devices. These are good, but inventors should not get the idea that the last word has been said in basic principles. He says some one will probably discover a more sensitive detector than the vacuum tube; some one will devise a better transmitter; some one will invent a receiver that makes use of the eyes instead of the ears. "Get off the beaten path," he says.

To Give China a Bible.

Americans have spent \$132,000 so far to give China a Bible in its own language, the Mandarin. And just now they are agreeing to spend \$31,000 more to put the Bible into type and plates and to print and bind an edition. However, it is expected that copies will be sold to sufficient value to pay the printing bill, and it is further explained that these sums for expenditures are Mexican, which money is the standard of China at this time. It has been found by American scholars that the Chinese Mandarin is a wonderfully flexible language, capable of expressing almost every shade of meaning. More than twenty-five years has been the period of preparation, and foremost American and Chinese scholars have had part. The aim has been not only to give the Chinese people a Bible but to give them one that is pure in language and will set the standard for the republic that English translations set for the English-speaking world. This new Bible is for people who number more than a fourth of the world population.

Enemies Did Together.

A rural postman in Indiana found two animals caught in one trap; one a rabbit, held firmly by a hind leg, and the other a ferret, with both forelegs fixed in the trap. Apparently the rabbit was being pursued by the ferret when both were caught.

PIANO INSTRUCTION

Pass this all along the line etc.

DEAR PETE:

Just blew into Pittsburg to close that N and P purchase. While I was waiting for the contract to be signed who ambles in to the G. M's office but President Holt! Asked me if I had a cigarette. Slipped him my "Camel Garage." Remember, he hit the "straight" boys when I met him last year?

Pete, you ought to hear Mr. Holt talk Camels! Gee, I thought I was some Camel spieler. But he went right to the mat with the subject. Say, if I could have shorthanded that line of super-stuff I'd have the job writing Camel ads by noon today!

"Reynolds ought to get a dollar for every Camel cigarette", Mr. Holt declared. "Why, my boy, Camels are simply wonderful," he added. "Don't ever let anybody talk about mild cigarettes compared with Camels! I know! (Get that, Pete). I've proved it to a hundred smokers that Camels are the mellowest and most refreshing cigarette in the world," etc., etc.

Pete, Camels won Mr. Holt like they won me —on their quality! After hearing him cut loose, I felt like saying: "You tell it, old parcel post, I can't express it!"

Pete, I'm hatching an idea about Camels. I'll spill it your direction next time I write! It's what York State folks call a "pip-in!" And it's ripe!

Yours till the next fire-up.

Shorty.

Thursday P. M.

Palestine to Have Stamps.

Palestine is the only country which has no postage stamp of its own. But representatives of the Zionist government have informed London philatelists that this anomaly promises soon to be rectified, for, with the establishment of Palestine as the national home of the Jewish nation, it is believed little time will be lost in emulating the examples of other small nations called into being by mandates of the peace conference by the issuance of distinctive stamps. Stamps sold by British army post offices in adjacent former enemy territory are being utilized by overprinting with the word "Palestine."

Material for Brides.

Brides now needed in national parks and forest reserves are to be built of the steel rollers and trusses and other bridge material, which was ready to be shipped to France, for the use of the American army, when the war ended. There is a vast amount of this material on hand, ready drilled and quite portable. 2,553 pounds being the maximum weight of any part.—Popular Mechanics Magazine.

Burden of Public Debts.

The annual interest on the debt of Great Britain is 12.92 per cent of her income, that of France 32.17 per cent, that of Italy 14.43 per cent, that of the United States 2.53 per cent, that of Germany 20.96 per cent, that of Austria 25.92 per cent, that of Hungary 24.78 per cent, that of Bulgaria 21.80 per cent, and that of Turkey 17.00 per cent.

Courier for commercial printing.

THE UNIVERSITY OF OREGON

—is maintained by the state in order that the young people of Oregon may receive, without cost, the benefits of a liberal education.

The University includes the College of Literature, Science and the Arts, the Graduate School, the School of Physical Education, and the professional Schools of Law, Medicine (at Portland), Architecture, Commerce, Journalism, Education and Music.

High standards of scholarship are made possible by an able faculty, well equipped laboratories and a library of nearly 100,000 volumes.

Supervised athletics are encouraged and every attention given the health and welfare of the students.

With a heightened confidence gained by the recent expression of public support, the University is now entering upon an era of large development and extended usefulness.

For a catalogue or for any information, address:

University of Oregon
Eugene, Oregon

Russians Deeply Religious.

The Russian people, from the most remote time, have been deeply religious by nature. In every public establishment, in every office, railroad station, post office, bank, tavern, store, and almost in every dwelling, there is an ikon (holy picture), placed in a corner, with an oil light before it, steadily burning. These ikons look like bas-relief; only the head and hands of the image are painted on the background; the rest of the picture is composed of engraved, gilded metal, very often of real gold and silver incrustated with diamonds and other precious stones, according to Constantin Fraboni, writing on religious customs in Russia in Current History.
