Dear Industry.

With the retirement from business of George Messmann the business of whalebone cutting in this country terminated. Remarks the New York Times. At one time this was a thriving and important industry, but of late years, what with changing fashions, the introduction of substitutes for "bone" and the frank use of metal in its place as distinguished from the substitution of some similar appearing substance, the whalebone trade has fallen into disrepute. Also the world has grown constantly smaller and smaller.

Man With Grit Can't Fail.

Grit is one of the greatest developers in life. Timid fellows give up with the first attempts that fail. So do some that win laurels the first time they tread the boards. But when a fellow has grit a defeat is to him what a red flag is to a bull. He just lowers himself to his task and goes at it. Disraeli made a miserable failure the first time he spoke in parliament. He went from the room amidst the jeers of the members. It was to him like an electric shock. He set himself to work to become a leader. It was not long until he was the leading man in the empire and his scornful of former days were compelled to pay him his earned respect. And grit was what pulled him through.

When Capt. Alexander Aaronsohn, member of the famous pioneer Zionist family of Palestine, was recently decorated with the D. S. O. by King George of England, it was probably the first time that an enemy subject was honored for a war-time achievement. Captain Aaronsohn was given the D. S. O. for penetrating the Turkish lines and bringing military intelligence to the British which was one of the principal adjuncts of the successful campaign carried on by General Allenby in wresting the Holy Land from the Turks. At the head of the marvelous secret organization by which British headquarters were being informed of Turkish movements, were Sarah, Alexander and Aaron Aaronsohn; the latter ranked as one of the world's most celebrated agriculturists because of his discovery of wild wheat, which would have revolutionized dry farming throughout the world. Sarah Aaronsohn committed suicide rather than disclose the workings of the organization after she and her aged father had been tortured for days by the Turks. Another brother is now an invalid, due to similar Turkish tortures.

Capt. Alexander Aaronsohn.

The Aaronsohn family came to Palestine with the first group of ardent Zionist pioneers over 30 years ago from Roumania. Their colony near Haifa was a model farming community. It was here that Aaron carried on his agricultural experiments which brought him world-wide fame. The Turks, when they captured and began torturing the Aaronsohns for intelligence work, destroyed all his priceless experiments and note-books. Aaron himself was killed over a year ago when the airplane in which he was riding from London to the peace conference in Paris crashed near Benlogne. His knowledge of Palestine, particularly of the location of water, was considered by the British staff as one of the biggest factors in their successful campaign against the Turks.

The Aaronsohns, as well as the other inhabitants of Palestine, were Turkish subjects, but the terrible oppressive measures launched against the Jews by the Turks shortly after the outbreak of the war forced them to seek help from the allies to save their people from destruction.

SELF-WEDDING LEGAL

Judge Ruled Marriage Valid Where Husband Used Open Declaration.

A man and woman may marry themselves and such marriage shall hold good in law, even though no marriage license has been obtained or no minister or legal officer has officiated at the ceremony, according to the decision made by Judge Wilhelm at Pottsville, Pa.

The case was that of Mrs. Blanche Wagner, who claimed to be the legal widow of Henry Wessner. The ceremony performed was merely the placement of a ring upon her finger, and the statement, "I take thee for my wife."

Under the decision, Mrs. Wagner, who was a widow when the ceremony was performed, gets the usual widow's exemption and \$5,000 from the estate of Wessner, who left no will.

BREAK GROUND RAPIDLY

Two Farmers Plowed, Rolled and Harrowed 35 Acres in 40 Hours.

Working with two tractors, pulling two 14-inch No. 7 plows and one cult-packer, E. S. Robinson and Oscar Rich, of near Princeton, Ind., broke, rolled and harrowed 35 acres in 40 hours on the Bingham brothers' farm.

They planted the 35 acres in corn in 64 1/2 hours. The cost of fuel power was \$63.44. Allowing 50 cents an hour for two men, the total wage cost was \$64.50, making a total cost of \$127.95, or \$3.65 an acre.

No Bath for 15 Years, Man Released. Declining to bathe, two inmates of a workhouse in London, Eng., were denied their tobacco ration. One of them said he had lived in the house for 15 years and hadn't had a bath in that time. The authorities ordered his release.
