

The Joint Account

The unexpected happens. The husband is taken away. Money must be provided at once, but because the money stood in the husband's name at the bank it could not be drawn out until the court said so.

A Joint Account in this bank, standing in two names—husband and wife—can be drawn out by either on the signature of either. When the "unexpected happens," "a joint account" smooths the way most happily.

THE UNIVERSAL CAR

The Ford Motor Company makes this reduction in face of the fact that they have on hand immediate orders for 106,065 cars and tractors.

They will suffer a temporary loss while using up the material bought at a high price, but they are willing to make the sacrifice in order to bring business back to a going condition as quickly as possible and maintain the momentum of the buying power of the country.

Henry Ford says the war is over and it is time war prices were over. There is no sense or wisdom in trying to maintain an artificial standard of values, for the best interest of all. It is time a real practical effort was made to bring the business of the country and the life of the country down to pre-war standards. We are at your command with regular Ford efficiency in service and eagerness to fill your orders.
