

THE NEW SAVAGE TYPE D

CONSIDERED BY MANY MOTORISTS THE BEST FABRIC TIRE ON THE AMERICAN MARKET

TOUGH TREAD

Have your eyes, O Motorists, taken note of the wrapped tread method used by my people in building our "D" Type tire? Many are the methods of curing tires, but this is much the greatest in cost; yet with our single cure process it permits a tougher tread to be applied to our tire than is possible by any other method.

Our tread stock is shaped in a mighty press before it is applied to the tire, making it a compact piece of rubber. Our open steam cure vulcanizes it into a tough, wear-resisting tread—tougher than is possible on molded tires, where the rubber must be soft enough to flow and shape to the contour of the mold while being vulcanized.

Our hearts are filled with a great pride in the fact that the "Savage" tread is noted and classed as one of the best wearing treads on the highways of America.

My people have built our "Savage" "D" Type to excel all other fabric tires on the market. It is the big, handsome, flexible, over-size, hand-built casing that has caused so many of you to lift up your voices and proclaim it "The best fabric tire in America". Its tough tread is but one of many reasons for the wonderful service it is giving to satisfied users throughout the land.

I SALUTE YOU, O MOTORISTS!

LITTLE HEAP HAS SPOKEN.

"Little Heap" as a character is symbolic of The Spreckels "Savage" Tire Company. By birth he is a "Savage"; by adoption, a member of The House of Spreckels. ¶ Wise for his years, educated in modern ways and imbued with the spirit of the organization he represents, the little "chief" is an authority on the construction of "Savage" tires and tubes. ¶ It is fitting that the sterling qualities and the sturdiness of his race are characteristic, too, of the products with which he is associated.

THE FOLLOWING MESSAGES APPEAR IN THIS SERIES

A New Departure in Tire Construction.
Finest Selected Raw Materials.
Bonus and Premium Pay to Workmen.
Hand Built.
Wrapped Tread, Single Cure.
Over-size and Extra Ply.
Special Breaker.
Extra Breaker Cover.
Tough Tread.
Inspection.
Built to Excel.
A Product of the House of Spreckels.

REPUTATION MOST IMPORTANT, FOR STURDINESS, ECONOMY AND COMFORT.

The following copy of a telegram just received, explains the manufacturers position:

Northwest Auto Co.,
Portland, Oregon.

Flint, Mich. Sept. 29.

The price of the Dort car is reasonable and fair. The total net advance in list within period of two years having been but 17 per cent against advances of 19 to 45 per cent in list on other leading makes of motor cars, therefore there will be no price reduction made by this company. There has been as yet no break in material or labor costs that would warrant any price reduction on Dort cars. On the contrary, materials have been purchased by us and by all motor car manufacturers for 1921 production at a very considerable advance as a whole over 1920. Therefore unless those purchase contracts are treated by purchasers as scraps of paper or the seller voluntarily revises contract prices downward there is no justification for any motor car manufacturer reducing prices UNLESS HE HAS BEEN PROFITEERING which means that he has been receiving an excessive profit on his products. If there be any such manufacturers this is a most opportune time for them to properly adjust their prices to the sound values of their products. Please wire the above to each one of your dealers at once, also give publicity to all your newspapers. This is an announcement by the president of this company as to where we stand on the present situation.
