SPORTS AND SPORTSMEN

The great American sport, Baseball, suffered when leading players were proved to have sold the sport for a money consideration. The players degenerated at once from

sportsmen to sports, and there is a vast difference in the meaning of the two terms. The general public at once lost much of its enthusiasm for the game, and it will take years for the stigma to disappear. It will cost the players many times the profit that the few dishonest players made from their action.

QUIT BEING FREAKISH

The big issue in Oregon in the coming campaign is what the state is going to do about the United States senate. So long as it sends a democrat to the senate it will class as a political hybrid, and will further sustain its reputation of being a freak state in politics. Its past freakishness has given Oregon a mighty bad reputation, and the time to commence house cleaning will be on November 2nd. No one questions the vote of Oregon upon the presidency. Why nullify itself by sending a democrat to the senate?

Let Us Figure the Savings

Have you ever figured what it actually costs to do your washing the old fashioned way? Or, have you just accepted this expense as one that had to be met and let it go at that?

Set aside the cheer and comfort that a Thor Electric Washer will give you and consider, for a moment, what a Thor will actually save in your household expenses.

Laundress' wages, one day, at least.....\$3.00
Her meals, at least......60
Extra wear on clothes, at least......75
Total cost for one day.....\$4.35

What Wonderful Laundry Work!

At this rate, and this is only the average, your washing costs \$231.40 a year. Just think, almost \$250 needlessly expended and besides all the worry and care it causes you.

At the same rate a Thor Electric Washer will pay for itself in eight months' time. It begins to save for you the moment you buy it and continues to save long after its cost is forgotten. Let the Thor start saving for you today.
