THE FIRST NATIONAL BANK
OF SOUTHERN OREGON

E. L. Churchill is spending the day in Medford attending to some business matters in that city. Everyday is "Babies Day" at The Picture Mill. Bring the youngsters in and get a picture of their growth from year to year. No record is more appreciated than our baby pictures in after years. The satisfaction remains after the price is forgotten. Phone 283-R for an appointment.

PERSONAL AND LOCAL

C. H. Corson left this morning for Ashland where he will spend the next week.

"Resinol" Soap. Sabin has it. 03 Mrs. W. E. McBride went to Costella this morning where she will spend the next three or four days.

Quaker Heat is Quicker Heat—and Cleaner too

The Quaker Pipeless Furnace is built of heavy riveted boiler plate steel—and steel radiates heat three times as fast as cast iron. That is why Quaker heated homes are always so comfortable on cold mornings. Just open the draft and up through the Quaker Register pours an enormous volume of warm, pure, clean air. Before you buy a furnace, find out about the

QUAKER
"The Pipeless Furnace that is built of Steel"

It not only gives you quicker heat but more of it from the same fuel. Every corner of every room is warmed thoroughly. It's cleaner too because every joint is riveted tight like a steam boiler. Can't leak gas, soot or soles like the cement joints of cast iron furnaces do. Fire pot is lined with high temperature fire bricks. Hold heat extra long. Won't crack nor burn out. Handy water filter outside of furnace keeps air moist and pure. The Quaker is the ideal heating plant for homes, schools, churches and stores. Easily and quickly installed in any old or new building.
