WEDNESDAY, NOVEMBER 3, 1920.

OREGON WEATHER

Weather for the Week

Pacific Coast States: Generally fair in California; unsettled weather and occasional rain in Oregon and Washington; normal temperature.

Tonight and Thursday fair. Cooler tonight east portion.

CASH FROM THE FORESTS

Thirty-one of the counties of Oregon share in the distribution of \$121,623.51 derived from National forest business in the state during the fiscal year 1920, according to figures furnished by forest service officials here. This amount is 25 per cent of the total receipts from the national forests for this fiscal year in Oregon and goes to swell the road and school funds of the counties in which the forests of the state are located.

The amount turned over to the state from this source for 1919 was \$115,405.65. Including the first payment of \$7,585.96 in 1906, the state has received to date from this 25 per cent fund \$879,953.51 for distribution to the National forest counties.

The Oregon counties which share in the distribution of National forest receipts are: Baker, Benton, Clackamas, Coos, Crook, Curry, Deschutes, Douglas, Grant, Harney, Hood River, Jackson, Jefferson, Josephine, Klamath, Lake, Lane, Linn, Lincoln, Malheur, Marion, Multnomah, Polk, Tillamook, Umatilla, Union, Wallowa, Wasco, Wheeler and Yamhill.

The Siskiyou national forest, of which 353,833 acres are in Josephine county, benefits through the distribution of this fund only to the extent of \$5,700.82. Crater forest, however, will receive nearly \$20,000. Josephine county has 30,470 acres in the Crater forest.

Captain of Industry at Three.

Little Edward is just 3 years old, but "going on 4." He is very fond of his grandmother's home and often is a young visitor. His last call was last Sunday afternoon. Grandmother, who had been taking a nap, was a bit late coming downstairs to greet her favorite guest. She found him cuddled up in the big easy chair in front of the fireplace. Edward smiled as she stooped to kiss him, but, boylike, that was about the only sign of affection from him.

"Get up, dear," urged Edward's mother, "that's grandmother's chair."

"No, it isn't," asserted the young man, "I beat her to it."

First English Coin.

It is a common error to suppose that the first English coin was made of copper. It was made of gold about A. D. 460, and is believed to have been struck in celebration of the victory of Scan, the overlord of the ten provincial chiefs in southern Britain, over the Saxon invaders.

COMMUNICATED

Editor Courier:

Surely the time has arrived for a surer method of controlling traffic and preventing accidents at the railway crossing on Sixth street than that at present employed.

The presence of so many swiftly moving vehicles on the streets about 6 o'clock in the evening, and the railway tracks often occupied by cars close up to the pavement on both sides of the street, obstructing the view, makes it exceedingly dangerous to one turning south from F street into Sixth when an engine approaches the crossing unseen and obstructions of various kinds prevent a view of the crossing keeper, until one is suddenly confronted with his green and red lights close to the ground, and his wild gesticulations.

Would it not be far safer and more up to date, to have an iron column about 12 feet high in the center of the street, between the tracks with changing signals such as STOP with a red light and GO AHEAD, with a white light, which could be easily seen some distance off and high above all obstructions.

Only an utter fool will cross in front of an on-coming engine, and the writer would refuse to subscribe to that indictment, although he did that very thing, but only because he was unaware of the danger until it seemed too late to stop.

All praise is due the crossing keeper for his vigilance, but one marvels that he is not a nervous wreck.

A NEAR VICTIM.

LANGUAGE SPOKEN BY ALL

That of Heart Far Outranks the Written Word in the Making of Friends.

There is one language of the tongue and another of the heart, and the second is the more important. The doughboy in France often found himself unable to exchange words—beyond the briefest greeting or the expression of the elemental needs of life—with those among whom he came from a far, strange land. But actions were louder and more intelligible than speech. The people knew from his kindly face and his outstretched hand that he had nothing to fear from this American soldier. He came not to steal or destroy; he came to help and to play the part of a friend.

The traveler in a land held by savages is under a constant surveillance. The aboriginal folk are wondering whether he is the advance agent of a great many more, who are coming to take what through the ages has belonged to them and to their forbears. He is on trial, and the burden of proof rests with him. If he goes with the modest, courteous, considerate demeanor of a Farabee traveling through Amazonia, he has nothing to fear—for he has done nothing to create fear. When Stanley went to Africa or Roosevelt traversed South America or Kinglake made his journey in the East, each of these voyagers encountered unfamiliar tongues; but there are always ways in which one human being makes himself understood by another, no matter how distant the points from which they came.

In 1925.

Mrs. Leda Plummer—Professor, after you have washed the dishes and helped the cook scour the sink and wipe up the pantry, you may give little Ethelinda her lesson on the Italian renaissance.—Life.

WILDERVILLE

A goodly number attended the Rally Day services at the church last Sunday. An enjoyable program was given.

C. Agee and wife also Fred Britten attended Private Murray's funeral services last Sunday.

O. Morrison and A. Ruttencutter recently shipped out a couple of cars of wood to the south.

Very few of the high school girls came out home over last week end as they were packing grapes at Fruitdale.

Mrs. Esther Burroughs and two daughters were Sunday guests at the Winfred Robinson home.

Harold Potts was delayed a few days last week from hauling wood by the breaking of his drive chain on his truck.

A. Ruttencutter is spending the week at the mill near Kerby, which his son, Paul, operates. They are busy getting the lumber out before the rains begin.

ILLINOIS VALLEY

The dance at Spence hall was very well attended Saturday night, October 23rd.

The farmers all are busy sowing grain, digging potatoes, etc., during the good weather we are having at the present.

Mr. and Mrs. F. W. Sawyer are visiting a few days at Alvin Wheelers near Medford.

Edw. Cosson, who suffered a stroke of paralysis last week, is much improved again.

Mrs. James Seyferth, Mr. and Mrs. Sam Bunch, were Grants Pass visitors last Thursday. Tom Smith accompanied them there where he left for Nevada.

The valley was much saddened by the death of Mrs. Ethel Heckendorf, of Kerby. Mrs. Heckendorf, who was formerly Miss Ethel Spicer, has been a resident of this valley for several years, being at her death 22 years and 11 months old. She leaves to mourn her loss besides her husband, 2 small children, Minnie and Louis, her father and mother, three sisters, Anna of Portland, Mrs. Mabel Hazelrig and Miss Sadie Spicer, of Kerby, five brothers, Bud, Henry, Jesse, Leslie and John, all of Kerby, besides numerous other relatives and a host of friends. The family has the sympathy of the entire community.

Born to Mr. and Mrs. Earl Caid of Holland, October 23, a daughter.

Miss Beatrice Adams is visiting her mother, Mrs. Jack Finch, at Kerby.

Wedding bells have been ringing quite busily recently. Daisy Hervey becoming the bride of Raymond Baldwin, and Beatrice Stwalt becoming Mrs. Eugene Brown.

Mr. and Mrs. Russell Bronson of Wallace, Idaho, are visiting Mrs. Bronson's parents, Mr. and Mrs. J. B. Barnett.

Miss Elva Garner is visiting Mrs. R. S. Leonard.

J. G. Sowell has been building a house on Deer creek for T. Harmon. Mr. and Mrs. R. S. Leonard and Mrs. Elva Garner spent Sunday at the M. M. Lewis home.

T. E. Barretts and Geo. Wells are each planning on installing Delco-Light systems in the near future.

Mr. and Mrs. Harry Sowell have gone to Folsom, Cal., where Mr. Sowell has employment.

Mr. and Mrs. Will Masters returned to San Francisco Monday after a month's visit with his mother, Mrs. John Krauss. Mr. Masters is a barman in the St. Francis hotel there.

The various trucks are busy engaged in hauling lumber while the weather is good.

gaged in hauling lumber while the weather is good.

Mrs. Ida Casad is working at the Holland hotel. She expects to remain while Mr. and Mrs. Smock take a trip to Arizona next month.

Mr. and Mrs. H. H. Gibbs and Miss Florence Mathewson expect to leave in a few days for their farm at Capella, Cal.

SOMETHING IN YOUR EYE?

There Are a Few Simple Rules for the Removing of Irritating Particles.

Though many people have become expert in the art of removing irritating particles from the eyes of others, a few words on this subject will not be out of place. In removing a foreign particle from the eye, ask the patient to look down, and then take hold of the eyelash with thumb and forefinger of the left hand and pull the eyelid downward and slightly away from the eyeball. Next, evert, or turn back, the eyelid by placing midway between the eyelashes and eyeball the tip of the thumb of the right hand and make the same movement that would be required to turn back the edge of a coat sleeve.

If the particle is located on the interior of the upper lid it may be removed with a clean handkerchief or a piece of clean cotton placed on the end of a toothpick or match. If the irritating substance is not on the upper lid try to find it in the same manner on the lower lid and remove it in the same way. When the particle is imbedded in the cornea, or covering of the eyeball, it is best to consult a physician or eye specialist. After removing the particle from the eye it is advisable to irrigate the delicate member with boric acid.

Under no circumstances should anyone touch the eye with a handkerchief or other agent that has been moistened with saliva or with the tip of the tongue.

In treating the eyes with some kind of liquid medicine one should take care never to invert the dropper after the solution has been drawn into the rubber end downward and the fluid permitted to run into the rubber and then back into the glass as the solution will very likely contain particles of powder that have washed off the rubber bulb, and these may irritate the eyes. Always hold up the rubber end of the dropper. The fluid should never be dropped directly on the eyeball unless the physician has so advised. The proper practice is to draw down the lower lid and place the drops on the exposed inner surface of the lid. One or two drops are always sufficient and it is only waste to use more.—Floyd W. Parsons in the Saturday Evening Post.

BARK ON TREES NOT WOOD

It Is Composed of Three Layers of Tissues, Each of Which Has Important Function.

Bark on trees and shrubs corresponds with skin on animals. But it has other uses which the skin hasn't. Bark isn't wood, and it isn't formed as wood is formed. It covers the wood, and it is generally an easy matter to separate the bark from the wood. Hemp and lute and flax are all bark—the outside covering of certain vegetable growths.

Bark is composed of three layers of tissues. The inside layer conducts food to the plant, and under a magnifying glass is seen to be made up of tiny fibers. Then there is the "green zone," as it is called, and this also is fibrous, and helps feed the plant. The outside layer is cork, and is really dead. That is, these cork cells develop and die immediately, so one really sees only a dead tree when he looks at the bark. The cork of commerce is the bark of a certain kind of tropical tree, but the outer layer of bark of all trees is to be known as cork, and the little cells going to make it up are called cork.

Soon Tired of Life.

A Lawrence (Kan.) young man, who craved the life of a fireman, applied for a position at the department and was told to report for duty at seven o'clock Thursday morning. Shortly after seven a practice drill was staged with all the thrills of a real alarm, with the new recruit an interested spectator. After the drill the chief brought in an application for insurance for the new fireman and asked him who should be notified in case he was the victim of an accident. The recruit said there would be no accidents so far as he was concerned, and thereupon tendered his resignation, having been a fireman for a period of 10 minutes.

Riches of the Indian Tribes.

In connection with the practical reservation industries maintained by the government there are conducted twelve demonstration and three experimentation farms, and nearly 400 farmers, stockmen and assistants are employed and live near Indian communities for giving instruction and counsel. Under authority of the law the service handles large sums annually in loans to Indians as initial capital for beginning their self-support and looks after the later liquidation of these loans. The value of all individual and tribal property, if recent mineral returns are included, is approximately \$1,000,000,000.

Has the Floor.

BARNES, The Jeweler

SCHOOL BOARD OFFERS 25 CENTS PER NAME

The clerk of School District No. 7 of Josephine County, Oregon will pay twenty-five cents each for the name of each and every child between the ages of four and twenty inclusive residing within the boundaries of said district and who have not already been enumerated in the census on file in the office of said clerk. Each name must be legibly written on a sheet of paper accompanied by the age, sex, name of father and mother and street address of the said child. This information must be signed by the parent or parents of the child whose name is sought to be enumerated.

EDWARD S. VAN DYKE,
Clerk.
Office over First National Bank.
19

Vague Description.

Little Betty running from a luncheon where some very dainty sandwiches were served said: "Mother dear, will you make some of those nice little sandwiches for me some day without any bark on?"

Don't Suffer

MANY men and women are suffering because they are treating effects instead of removing causes. Why bother with liniments and lotions for rheumatic pains, backache, stiff joints, sore muscles, bursitis, nervousness, floating specks in the vision, dizziness, puffy pouches under the eyes, or other symptoms of kidney trouble when the kidneys can be made well and strong, thus removing the cause of the symptoms?

Foley Kidney Pills

have been used for kidney trouble and bladder ailments by men and women with success for many years. They seem to get right at the root of the trouble, invigorating and strengthening, healing and soothing weak, sore, or disordered kidneys and bladder. They help the kidneys throw out of the blood the waste and poisons that cause the symptoms of kidney trouble.

O. W. Weisinger, 2824 Buena Vista, San Antonio, Texas, writes: "I have suffered more or less with kidney and bladder trouble for the past ten years. The only thing I have ever been able to get relief from was Foley Kidney Pills. I earnestly recommend them to any one suffering from kidney or bladder trouble."
