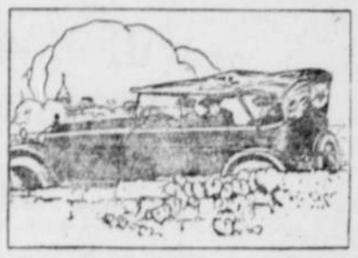
TOP OF AUTOMOBILE OFTEN IS NEGLECTED

Detracts From Its Appearance and Real Value.

With Little Consideration and Care Covering Can Be Made to Last as Long as Body—Never Fold Up While It Is Wet.

When the top of your car is neglected it becomes shabby in a very short time, detracting from its appearance and value should you wish to trade it in for a new car. This is absolute carelessness, because with a little consideration and care the top can be made to stand up as long as the body or the running gear.

Never fold the top when it is wet for there is always the possibility of mold or mildew attacking it, and this results in rapid deterioration. When the car is laid up for any length of time, the top should always be left up to preserve its shape. Use the slip cover whenever the top is folded. Everyone knows that the vacuum cre-



There may be a fine car under that shabby automobile top, but the outsider isn't likely to get that impression.

ated at the rear of the car when it is in motion fills the uncovered top with dust and dirt.

Mohair tops should be cleaned by brushing thoroughly with a whisk broom and eradicating the spots with a sponge, warm water, and castile soap. A chamois wrung dry will finish the job by taking up the excess moisture.—R. L. Prindle in Popular Science Monthly.

CONSTANT SPEED OF EXPERT

Experienced Driver Does Not Make Sudden Spurts, but Maintains Uniform Speed.

If you follow the car driven by an expert you will notice that he maintains a constant speed, that he does not loaf along and then suddenly jump to forty miles an hour. You use more gasoline when you accelerate. Select a safe driving speed, making only gradual speed changes when it is necessary.

Smoking Bad for Aviators.

Air ministry doctors in Great Britain have instructions to inquire into the family histories of persons who desire to become aviators, especially with references to tuberculosis, heart disease, or mental instability among near relatives. Smokers are to be closely questioned, and the doctors are to make a note such as C10 or P3—that is, ten cigarettes or three pipes a day.

World's Smallest Book.

The record of the complete French version of Dante's "Divine Comedy," which was shown at the Paris exposition in 1882, does not seem to have been less than half an inch square, and though containing over 500 pages, required only two sheets of printer's paper for its makeup.

Consistency *and its* Result

More than twelve years ago Willard built his first automobile starting, lighting and ignition battery—several years before electric starting came into general use.

For more than twelve years the one object on which Willard effort has concentrated has been automobile batteries—batteries that would serve the car owner longer, more efficiently and more reliably.

This consistency, this concentration on one big problem, has resulted in Willard leadership in the automotive battery field, and is responsible for—among many and varied contributions to the industry—the perfection of Threaded Rubber Insulation, the greatest battery improvement in years.

There are today 152 passenger car and truck manufacturers using the Still Better Willard Battery—the only battery with Threaded Rubber Insulation.

This trade-mark is branded in red on one side of the Still Better Willard Storage Battery—the only storage battery with Threaded Rubber Insulation.

THREAD-RUBBER Willard INSULATION

Consistent devotion to one aim, the building of a better automotive battery, has resulted in the adoption of the Still Better Willard by the 152 manufacturers below.

PROVERBS OLD AND NEW

Light strokes fell great oaks.—Franklin.

A great leap gives a great shake.—Spanish Proverb.

The way to see divine light is to put out thine own candle.

A man that is lean, not from hunger, is harder than brass.—Spanish Proverb.

If you desire to see my light, you must minister oil to my lamp.—French Proverb.

The buckets take to fighting with the well and leave their handles there.—Italian Proverb.

Building is a sweet impoverishing. For men are found the stouter hearted. The surer they are to be parted.—Butler.

Jud Tunkins.

Jud Tunkins says there isn't much chance of promotion for a man whose only idea of a boss is a person who sticks his feet on the desk and smokes large cigars.
