**FARM BUREAU PLANS
WORK FOR COMING YEAR**

Farm Bureau committees of Josephine County are making during this month to plan their program of work for the coming year. Increased interest in Farm Bureau work and the things that can be accomplished through this strong organization are quite apparent.

Last year Hugo and Winona constituted one Farm Bureau community. This year they are rewarded for their active interest and desire to push ahead and each community has its own program of work for the coming year.

At the meeting of the Hugo-Winona people held at Hugo during the past week the project leaders reported work accomplished during the past year. Hugo had 31 Farm Bureau members last year. R. S. Crockett, livestock project leader, reported no scrubs on the ranges and five purebred sires purchased during the past year. J. C. Cochran and O. Ward each purchased a purebred Hereford sire; D. Peterson and R. S. Crockett each purchased a purebred Shorthorn sire and J. McKy and G. Tavis purchased one purebred Shorthorn sire.

D. Peterson, fruit and marketing project leader, reported 33 acres of fruit marketed through the Oregon Growers Cooperative Association.

Wm. Moldt as leader reported that under the poultry project, 1 culling demonstration had been held. J. M. McKy, project leader of rodent control, reported poisoned barley distributed for government lands, 28 farmers covered 2490 acres, and 5 boys entered rodent contest.

Mrs. R. S. Crockett, clothing project leader, reported 13 dress forms made and 21 women taking part in a three day clothing school. Mrs. Thos. Ahern, project leader of food, reported hot lunches in the Hugo school last year and that they are to be continued this year. She also reported 4 girls from this community in the canning contest and that both of the prizes in this contest were won by girls in this community. Minnie Pollock, Winona, winning first prize and Esther and Lila Ludwick of Three Pines tying for second prize.

Project selected, project leaders elected and goals set for Hugo and Three Pines for 1921 are:

Organization, R. G. Fenton, 20 Farm Bureau members.

Livestock, R. S. Crockett, try out Burr clover on range, 1 purebred sire purchased, 2 silos built.

Fruit, Roy Peterson, 18 more acres signed up with the Oregon Growers Cooperative Association.

Poultry, Wm. Moldt, investigation of housing.

Rodent Control, 1000 acres non-resident land covered, government man secured to cover government lands, individual poisoning.

Clothing, Mrs. R. S. Crockett, 3 leaders at clothing school, 15 women in millinery school.

Child Welfare, Mrs. Thos. Ahern, continue hot lunches in Hugo school, install hot lunches in Three Pines school.

Home Conveniences, Wm. Moldt, electric power for community.

Club Work, Mrs. Thos. Ahern, one canning club.

Winona selected the following projects, project leaders and goals for the coming year:

Organization, E. A. Rathbone, 10 Farm Bureau members.

Livestock, F. H. Hastay, 1 purebred sire to be purchased, 1 purebred Jersey to be exchanged, try out Burr clover on range.

Poultry, Mrs. F. H. Hastay, investigation of marketing problem, standardization.

Rodent Control, C. Biegeman, government man secured to poison government lands, 1200 acres of non-resident land to be covered, community drives, rodent contest continued, coyote poisoning.

Home Conveniences, Mrs. C. Biegeman, electricity for community.

Clothing, Mrs. F. H. Hastay, 2 dress forms, 1 leader in clothing school.

Winona is also interested in having hot lunches in the school and work toward this end will be carried on though it was not made a project.

Winona is a small community, but it has the community spirit and is sure to do things.

Such a Simple Process. During an examination in Kansas a would-be teacher declared that "An alien may become a citizen by being born in this country."—Boston Transcript.

**"Oh, Girls!
He Has a Grafonola!"**

That's what you will hear this summer if you have the good sense, good taste, and foresight to take a Type D-2 Columbia Grafonola along with you to Vacation Land.

You can sit still to the end of any record, or take the last steps of any dance played on this portable model, because it's equipped with the Non Set Automatic Stop, a feature found on no other phonograph.

Built right into the motor. Invisible. Automatic. Operates on any record, long or short. Nothing to move or set or measure. Just start this Grafonola. It plays and stops itself.

Come in and see it for yourself.

Had the Wrong Car.

My husband deals in old and new cars, and I seldom drive the same car twice.

The other day I drove an old car downtown, and after doing some shopping started for home. I had not gone many blocks when I discovered I was not driving the same car I had when I left home, and immediately turned back. Where I had taken the car I saw an officer talking to a very much excited woman.

I offered all sorts of explanations, but it was most embarrassing, for the woman whose car I had taken was my next door neighbor, with whom I had not been on speaking terms for six months.—Chicago Tribune.

Wars of the United States.

A stray paragraph on "Wars of the United States" enumerates 19 wars. Ten of these were conflicts with Indian tribes, of which the most important were probably the Black Hawk war and the Seminole war. If these are called wars, an eleventh might be added—the Modoc war of 1873. The important wars on the list are the War of the Revolution, the War of 1812, the Mexican war, the Civil war, the Spanish war, the War with Germany. The minor conflicts included in the list are: the War with France, 1798; the war with Tripoli, 1803; the Philippine war, 1890.—Outlook.

Sunburn Remedy.

One of the best remedies for a coat of sunburn is sweet cream. The cream is healing and not the least bit irritating to the most fiercely burned nose. The prepared "cold creams" are, of course, healing and bleaching, but are very apt to irritate the sensitive member. Before washing the face rub lightly with ordinary sweet table cream, let stand as long as possible, then wash the face with lukewarm water, using no soap. Sunburn is really painful to some persons and sweet cream lessens the hurt.

Like Topsy.

"What's your name?" said the officer to a young colored lad who joined the ship at the cape.
"Algon Bay, sir."
"Where were you born?"
"Wasn't born at all, sir."
"Wasn't born at all?"
"No, sir; was washed ashore in a storm."—Everybody's Magazine.

Washington Knew Value of Oil. There has been recently discovered a letter of George Washington in which he shows great interest in the possibility of an "oil spring" in Virginia. He called the especial attention of his trustees to the importance of the matter.

'Little John Carver Goes Abroad

One of the most prominent passengers on the first 100 per cent American liner, the Panhandle State, was Little John Carver, eight-years old, a direct descendant of the first governor of Massachusetts. John is going abroad to attend the Pilgrim's tercentenary at Leyden, Holland. He is shown in this photograph with his mother.
