Dirt in your Engine Oil— Get rid of it!

A LARGE quantity of dust-laden air is "inhaled" by the daily operation of an automobile engine. With this road dust, carbon and fine particles of metal get into the lubricating oil and circulate through your engine, lowering the efficiency of its operation. Add to this dirt the gasoline that escapes past the pistons and dilutes the oil—

Here you have a combination that wears and tears and grinds away, every day adding a little more dirt and forcing a little more unnecessary wear on bearing surfaces. Result: slow response—less power—poor performance—shorter engine life.

Our new Modern Crankcase Cleaning Service is the enemy of dirt in the crankcase—it means "clean oil in a clean engine." The

Grease Spots.
 If you have the misfortune to spill grease upon your kitchen floor, let it cool, scrape up all you can, then pour a few drops of alcohol on the spot, wipe it off and add a few more drops, enough to cover the spot. Let this remain a short time, then wipe the spot with a clean cloth.

Choice of Subject.

Invention in painting does not imply the invention of the subject, for that is commonly supplied by the poet or historian. With respect to the choice, no subject can be proper that is not generally interesting. . . . There must be something, either in the action or in the object, in which men are universally concerned, and which powerfully strikes upon the public sympathy.—By Sir Joshua Reynolds.

Persistence Wins Success.

Few men succeed because they are naturally brilliant. Success is due usually to persistence, determination and ambition. Any man can cultivate those qualities.

You can just tell by its healthy, stimulating odor, that it is going to do you good

THOUSANDS of men and women, when the least little rheumatic "crick" assails them, have Sloan's Liniment handy to knock it out. Popular over a third of a century ago—far more popular today.

That's because it is so wonderfully helpful in relieving external aches and pains—sciatica, lumbago, backache, neuralgia, overstrained muscles, stiff joints, weather exposure results.
