DR. R. J. BESTUL, Veterinarian. Residence 338 Washington boulevard, phone 398-R.

# he wanted to know

So he took an inch of Purola and a like amount from four other shaving creams and worked up a lather from each. He put the results on separate glass slabs. Here are the comparative volumes of lather at the end of one minute:

PUROLA

Four ordinary shaving creams

Then he went farther and found out that Purola gives 150 times its volume in lather and that there are 150 shaves in every tube.

He also found out Purola will work up a lather quicker than any ordinary shaving cream.

He believes Purola is the quickest, most economical and most satisfying shaving cream made.

So do we! So will you!

If you don't—return any part of the tube to the dealer and get your money back.

All good druggists sell Purola.

Every Purola Preparation is prepared and guaranteed by Blumauer-Frank Laboratories, Portland, Oregon

# PUROLA Shaving Cream

# 140 Sacks Hard Wheat Flour

(None better in town)

Will be sold at the price of soft wheat flour  
**\$2.75 PER SACK**

Because there are a very few weevils in each sack. As most people know, they indicate old wheat flour, which is best. They do not injure the flour a particle. A sifter eliminates them.

**JOSEPHINE COUNTY FLOUR MILLS**  
Phone 123 Cor. 3rd and G Sts.

1917 FORD—3 NEW TIRES—\$225

Cash takes it—It won't last long

**C. L. Hobart Co.**

# Telephone Financing

Our business in Oregon is financially unsatisfactory. Our revenues must be increased. Present service cannot be maintained at a desired standard, nor can our system be expanded to meet new requirements unless new capital is secured.

Many people may not understand that in the operations of a public utility its extensions and permanent improvements are not provided for in the rates for service charged, but they are paid for by "new" money—money invested in the business by those who have surplus funds.

The large sums necessary must come from the people who buy stocks and bonds and who have confidence in the soundness, maintenance and earning power of the investment behind their securities.

For this money the market rate of interest must be paid—high at the present time when nations, cities and corporations of unquestioned financial responsibility are seeking capital. The United States is paying 6 per cent for money. Sound trust mortgages are offered at 7 per cent. Good industrial stocks at 8 per cent and higher.

The people of the State of Oregon last month by a vote of 5 to 1 defeated a proposition to limit interest in this state to 4 per cent and 5 per cent. They realized that nothing but business disaster and commercial paralysis would follow the adoption of such a measure. Who would loan money in Oregon at 4 per cent and 5 per cent when other investments, just as sound, were available at 6, 7, 8 per cent and higher?

The property of this company in the State of Oregon today is not earning 1 per cent upon each dollar invested. With such a showing on present investment, how can we expect additional investment?

We have asked the Public Service Commission to consider our situation. The facts and figures will be placed before this official body with their own special facilities for investigation and verification.

We are asking simply to be placed in a position where we can give good service, make extensions, provide a proper reserve, pay interest on our obligations and a reasonable return to the owners of our property.
