

## The Nation's Strength

Emerson says: "The strength of a nation is not in the number of battleships, nor in the number of its forts, but in the intelligence, thrift and industry of its citizens."

It's true, too. America today has the intelligence and the industry. Will she also add the thrift? A good deal depends upon you. Are you saving money? Are you in the thrifty class? An account at our Bank will not only add to the Nation's strength, but will also strengthen YOU.
