"WHIZ BANG" EVENING OF FUN BY H.S. JUNIORS

One of the best times of the whole year is being anticipated by the pupils of the high school for Saturday night.

The junior class has planned an entire evening of fun which they hope to share with the citizens of Grants Pass.

The main program will consist of music, a Japanese sketch, a one-act farce and a black-face comedy sketch.

After the main show is over, the audience will be at liberty to visit a Japanese tea garden, where tea and rice cakes will be served by pretty Geisha girls, or, perhaps buy a cup of coffee and doughnuts from a Salvation Army lassie, or a Red Cross nurse at the American canteen.

A vaudeville show will then be put on in the assembly and various other attractions have been planned to amuse and interest all who come.

The proceeds of the evening will go toward defraying the expenses of the high school annual.

TEMPERANCE WORKER WILL SPEAK SUNDAY

Rev. W. J. Herwig, superintendent of the Anti-Saloon League of Oregon, who speaks in the Christian church at 11 a. m. next Sunday and in the Methodist church at 7:30 p. m. has been at the helm in Oregon since last August. After years of experience in

Washington, Kansas and Texas, he brings the added zeal and experience of these campaigns. The contest against the illicit sale of intoxicating liquors in Oregon has come to a hand to hand fight, says Mr. Herwig. It is now time that the entire weight of the temperance forces must be thrown in to insure a complete victory says the superintendent. Mr. Herwig has the plan of campaign and will have a chance to get it before the people. He is a strong man with a message of power.

A new economy in motor car operation

The manufacturer of your automobile recommends, in the Instruction Book for your car, that the crankcase be drained out and flushed and then refilled with fresh oil at regular intervals.

This is necessary because engine operation causes a steady accumulation of road dust, carbon, fine metal particles and other impurities in the crankcase oil. This gritty oil circulates through your engine, impairs its performance and ultimately leads to rapid depreciation and repairs.

But cleaning the crankcase is a job generally disliked and neglected.

To meet this need, Modern Crankcase Cleaning Service has been established by first-class garages and other dealers co-operating with the Standard Oil Company. These garages and dealers use Calol Flushing Oil,—the scientific agent that cleans out old oil, dirt, grit and other impurities, and does not impair the lubricating efficiency of fresh oil used. The cleaned crankcase is refilled with the correct grade of Zerolene.

Look for the garage or dealer displaying the sign shown below—it means "Better operation and longer engine life."
