AUXILIARY PRESENTS FLOWER SHOW JUNE 10

The committees of the Ladies Auxiliary of the Grants Pass Chamber of Commerce which have been appointed to arrange attractions for the flower show to be held in this city on Friday, June 10, have been lining up a tentative program for their events and expect hearty cooperation from the entire community.

Awards for flowers are to be so arranged that the smallest growers may have an equal chance in competition with the largest and persons are urged to present their best exhibits, even though but one specimen is available. Awards will be made only to the amateur growers and exhibits will be judged under the following classifications:

Section A

Best single rose from the garden (only one from one exhibitor.)

Best 6 roses, separate named variety.

Best 12 roses, separate named variety.

Best 20 Caroline Testout.

Section B

Best display 6 to 12 white roses.

Best display 6 to 12 pink roses.

Best display 6 to 12 yellow roses.

Best display 6 to 12 red roses.

Section C

Basket of roses, not less than 12 blooms, one or more varieties.

For amateurs who have never won a prize: best 3 roses, one variety or mixed.

Best 6 roses, one variety or mixed.

Best display of sweet peas.

Each exhibitor is requested to arrange his or her own display and to bring the necessary vases.

Miss Lister Association Officer

The first annual convention of the Oregon high school press association was held at the University of Oregon yesterday with 42 delegates present. Miss Helen Lister, of Grants Pass, was elected secretary-treasurer of the association. Miss Lister was also one of the speakers at the association meeting.

Extraordinary Time Keeping.

Methods of reckoning time have always been a source of trouble to scientists. The first standard was the lunar month—that is, the period of about 29 1/2 days between one new moon and the next. Twelve of these months seemed to correspond to the four seasons, and so the year was fixed at 354 days. They soon found that they were getting badly mixed, that the seasons did not correspond to the months; in the course of 10 years they were more than three months wrong. The Jews and Greeks stuck in another month now and then. They added seven months in 19 years and managed to keep a clumsy track of time.

Trophies of the Chase.

Motorson—Was that guy we hit hurt badly?

Speedup—I dunno. I just got out to cut a button off his coat to put in my collection of trophies.

Neither is Satisfied.

Tell a woman she looks like some other woman and the chances are you make two women mad, the one you say it to and the one you say it about. —Boston Transcript.

Old Story to Him.

Jud Tunkins says that when he was a boy the old folks were always saying the fashions were scandalous just the same as they do now.

“I'VE GOT THE BLUES”

Well Here's a Cure

“Electra Platt, of the Stone-Platt-Bragers Trio, gave a performance that sent the blues traveling into the unknown. Miss Platt is some entertainer all by herself and frequently the audience had to virtually hold its sides—in other words, she got right under your ribs. If you had the blues before you went there, they took wings and flew afterwards. She is a great comedienne and a real funny girl.

“Vernon Stone made another smashing hit both with his banjo and one-string fiddle made of a cigar box. With the violin he is an artist, and he also played saxophone accompaniments to Miss Platt's vocal numbers.

“Achille Bragers, the third member of this unusual company, created keen interest with a most beautiful piano accordion. We are told that this is the largest and finest instrument of its kind ever built. Mr. Bragers also sang French and Belgian songs, accompanying himself on the accordion.”

**Grants Pass Chautauqua
May 27th to June 1st**

SEASON TICKETS—Adults \$2.50, Students \$1.50, Children \$1.00

WHERE HUSTLE IS UNKNOWN

Mallorca Justly Entitled to the Appellation Given to It, “Island of Calm.”

Mallorca, a tiny speck of an island in the Mediterranean, is a land of peace and ease. A great painter and writer who visited the island, has christened it “The Island of Calm,” because there everyone moves, rests, talks, walks and conducts his courtships as if the day had 48 hours, the mile about 16,000 feet, and the span of human life 700 years, so little haste do they make in living and enjoying life. These people who take life so leisurely, are not lazy, shiftless or unpleasant in personal appearance or manner. They are intelligent, honest, capable of work, sober and economical. These characteristics, preserved throughout centuries of uninterrupted peace and tranquility, have made them peaceable, trusting and home-loving. The men are of medium height, strong and agile.

And as for the women, they possess the same lovely skin as the women of North America, features as if sculptured by Phidias or Praxiteles, and they walk like goddesses. But they know nothing of the “Joy of Living,” due partially to ancestral Arabic influences and to the fact that their island has for so long been under strict religious repression.

SUCCESS MORA PUMP VERIFIED BY GOVERNMENT MAN

While demonstrating at Klamath Falls recently a government man who has charge of the reclamation work witnessed the Mora Pump in operation and was greatly surprised at its performance. He stated: “It's the greatest pump in the world.”

At Marysville, Calif., a couple of days ago the manager of the Hampton Hardware Co., who has two men out all the time attending to sales of pumps in that district, after seeing the pump demonstrated, declared:

“It looks like you were defying the laws of gravitation. It beats anything I ever saw.” He wanted the demonstrating crew to stay another day till he could get his men in to see it and wants the agency in his locality.

The Mora Pump's efficiency is double the efficiency of other pumps on low heads. Therefore it is economy. It is always primed, so saves time. No irrigationist can do without one.

Sang Babes to Sleep, Then Slew Them.
Chicopee, Mass.—After singing her two children to sleep, Mrs. John Weworski, twenty-six years old of Chicopee, Mass., took an ax and beat their heads as they slept. One died soon afterward and the other is not expected to live. The woman made an unsuccessful attempt to kill herself.

machine. I thought there must have been an epidemic of losing rear license plates, until I inquired the reason. In Key West the automobilists never lock their machines for there is no possibility of machines being stolen and driven off the island. Key West is about six miles long and contains about 10 square miles.

I was brought up to call a colored man a Negro, and to believe him to be every bit as good a citizen as any man. On this trip I saw Negroes and niggers and I can now say “nigger” without hesitation. Some of them

are first class citizens, in fact, the champion potato raiser of Alabama is a Negro, but there are any number of big, fat, lazy niggers, whose whole aim and ambition is to sleep and eat.

Fresh milk and sweet cream are apparently novelties in some sections of the south, for on one of the dining cars the waiter brought in with our coffee a small can of condensed cream. Two holes were punched in the top of the can. Condensed cream was served at more than one hotel, occasionally in the original can. At no less than three high priced hotels we served with sour milk or cream with coffee.
