PERMANENT INTERNATIONAL COURT SOON BEFORE LEAGUE

Geneva, June 11.—(A. P.)—The most important single problem that will be considered at the second assembly of the league of nations called for September 5 is the establishment of the permanent court of international justice.

The statutes of the court which were adopted by the first assembly have now been signed by 33 states and are in process of ratification by members of the league.

While this is regarded as the most important subject, the provisional program of the meeting which has just been distributed to all governments which are members of the league, consists of 25 items. Among them are amendments to the covenant, the reduction of armaments, the request of Bolivia for mediation in her dispute with Chile, and the appointment of four, non-permanent members of the council.

Reports will be received from technical organizations of the league such as those dealing with the suppression of the opium traffic, the traffic in women and children, communications and transit, international health, registration of treaties, the economic blockade and the allocation of expenditures of the league.

COMING DEMPSEY-CARPENTIER BOUT THIRD NO DECISION CHAMPIONSHIP

New York, June 11.—(A. P.)—The third bout for the world's heavyweight championship under no decision rules at a limited number of rounds will be underway when Jack Dempsey and Georges Carpentier square off in the Jersey City ring, July 2. The only previous title contests held under similar conditions were the Willard-Moran 10-round battle at New York, March 25, 1916, and the Willard-Dempsey contest at Toledo, July 4, 1919. The first bout went the limit, Willard gaining the popular verdict. At Toledo, Dempsey knocked out his ponderous opponent in the third of the scheduled 12-round bout.

Modern ring history in the heavyweight division is considered to have begun when John L. Sullivan knocked out Paddy Ryan in nine rounds at Mississippi City, Miss., February 7, 1882. Including that contest and the one in which Marvin Hart defeated Jack Root to gain the title relinquished by Jim Jefferies, there have been 24 championship bouts. The longest was that in which John L. Sullivan knocked out Jake Kilrain

BETTER PROCESS MAY SUPERSEDE PRINTING FROM TYPE

London, June 11.—(A. P.)—Suggestion that printing from type is likely to be superseded was made by William Gamble at the recent world's congress of printers held here in connection with the International Printing and Allied Trades exhibition. Mr. Gamble said that at least three inventors were trying to develop a photographic process to take the place of printing from type.

He predicted that the machines for printing by photographic process would hardly occupy more space than a typewriter nor be any more complicated. He expressed the opinion that eventually the great printing presses in newspaper offices would give place to smaller, swift-running and comparatively noiseless machines which would turn out printed matter with almost the same facility as the moving picture operator reel off his film.

CONVICTS COVER GUARDS AND ESCAPE FROM TRAIN

Gardner and Pyron, While Enroute To McNeil's Island Take Officers By Surprise and Hide In Woods With \$200 and Guns Stolen From Deputies

Castle Rock, Wash., June 11.—(A. P.)—Roy Gardner, sentenced to McNeil's Island for a mail robbery, made a second escape early this morning as his train pulled into the station here. He took with him \$200 in cash, which he stole from two deputy marshals after taking their guns and he left the officials wearing their own handcuffs.

Gardner was aided by Frank Pyron, who was being taken from Dunsmuir, Cal., to McNeil's Island by the same officers. Pyron also escaped.

One account said Gardner requested to be permitted to go to the lavatory and returning, caught the officers off their guard, whipped out a revolver and ordered hands up. Giving the gun to Pyron, Gardner went through the officers' pockets, taking their money and guns and putting the handcuffs on them.

Tacoma, June 11.—(A. P.)—A battle is expected momentarily between Gardner and Pyron and a posse, said a Castle Rock report, which gave a version of the escape that Gardner and Pyron asked for exercise when the train stopped at a water tank. It was said while off the train a confederate in waiting slipped Gardner a gun, who covered the deputies.

Gardner handed the officers \$5,

saying, "You'll need this for breakfast boys."

Castle Rock, June 11.—(A. P.)—Five posess out hunting Gardner and Pyron were working in the hilly country east of here. Before noon officers received a report of two strange men seen at Ostrander, Wash., six miles south of Castle Rock.

San Francisco, June 11.—(A. P.)—The air service at Washington, D. C., has authorized the use of airplanes from Camp Lewis to aid in the search for Gardner and Pyron.

Castle Rock, Wash., June 11.—(A. P.)—Sheriff G. F. Hoggatt verified the story that the hold up occurred on the train at Kelso and that the convicts jumped from a lavatory window at Castle Rock. Gardner held the gun while Pyron put Oregon boots and handcuffs on the deputy marshals. Foot prints leading south were found.

Gardner escaped at Portland a year ago while en route to McNeil's Island and was caught recently in California after robbing a mail car. Pyron was convicted of counterfeiting and had been at large in northern California three years since escaping from a train window at Kenet.

JUDGE GRANTS MARINE STRIKE INJUNCTION

PORTLAND STRIKERS BARRED FROM VIOLENCE ON PORTLAND WATERFRONT

COURTS TO WATCH VIOLATORS

Charge That Mail Was Planted on Ship to Force Position of Strikers Cleared by Chief Clerk

Portland, June 11.—(A. P.)—Permanent injunction against strikers interfering with violence in the present marine walkout on the waterfront was granted by Judge Wolverton in federal court yesterday, following arguments between Lester W. Humphreys, United States attorney, and W. S. U'Ren, who is attorney for the waterfront unions.

"The government will make particular efforts to apprehend violators of the injunction from now on," said Mr. Humphreys.

Judge Wolverton announced that his mind was made up before Mr. Humphreys had concluded his argument and said the court was convinced that the injunction should be continued.

The strikers filed affidavits alleging the department of justice agents intimidated and bullied the men and their wives in seeking to get them to go back to work. This was denied fully in counter affidavits filed by the government.

Charges that mail was planted on the steamer West Nivaria merely to break the strike, so that the charge of delaying mails could be brought against the strikers, was knocked flat by the affidavit of A. S. Rand, chief clerk of the railway mail service in charge of the dispatch of mail by both land and water for this district, who stated a general order had been issued by the superintendent of the division on April 23 announcing the schedule of the West Nivaria and directing that 70 sacks of mail for the orient be put aboard her, which was done on May 16, and that because of the strike the mail was delayed 11 days.
