GERMAN 13 PER CENT BEER
GREETED WITH GLAD CRIES

Berlin, June 29.—(I. N. S.)—Amer-
ica's human camels, sojourning in
European alcoholic oases, assimilating
a reserve supply of beer, wine
and cocktails for their return to the
Great Volstead Desert, are rejoicing
over Germany's return to 13 per cent
beer. Thirteen per cent! Count 'em!

After the war, when everything
from soup to nuts in Germany was
an artificially produced substitute,
German beer made an American
tourist homesick for an American
"near beer." German beer tasted
like what in America is known as
"pop," or soda water. The govern-
ment first raised the alcoholic limit
to 8 per cent for export purposes;

U. S. MINT SEEKS TO RECOVER
COLLECTION OF BAD COINS

Washington, June 29.—(A. P.)—
The collection of "bad money"
coins which have been imperfectly
minted is the peculiar hobby of
Douglas N. Starr, sergeant of the
guard at the war department. Starr's
collection is thought to be the only
one of its kind in the world.

The national museum has received
one collection of 200 imperfect coins
gathered together by Sergeant Starr,
and now he has completed a small
private collection, containing 23 im-
perfect coins, ranging from a silver
half dollar, minted in 1807, to dimes
and pennies of 1920.

Ray Baker, director of the mint,
has asked Starr to sell this collec-
tion to the treasury department, either
for exhibition or for the coins to be
cancelled as worthless. Starr has
refused to comply with this request,
and Mr. Baker will ask the passage
of a law to compel the return to the
government of imperfect coins.
