The combustion of gasoline generates a heat of about 3000 degrees Fahrenheit. Cylinder walls operate at about 300 degrees. Lubricating oils break down under this intense heat, impairing the piston oil seal.

Withstands Decomposition Under Terrific Engine Heat

Only an oil of the highest lubricating value can stand up under engine heat ranging from 100 to 3000 degrees Fahrenheit. Oils containing "sulpho" compounds decompose quickly when exposed to this heat. Decomposition is marked by impaired lubricating film between moving parts, by loss of compression and power, by reduced lubricating efficiency and by damage to the engine. Cycol is the new and different motor oil with greater durability. Cycol is free from destructive "sulpho" compounds. These are removed by the new Hexeon Process, used only by us. Cycol-ize your motor. Clean your crank case—not with kerosene—and refill with Cycol. Consult the Cycol Recommendation Chart. It shows with scientific accuracy, the correct grade of Cycol for your motor. The price of Cycol is 25c to 35c a quart according to grade.

ASSOCIATED OIL COMPANY, San Francisco

You'll enjoy the sport of rolling 'em with P. A.!

FIRST thing you do next—go get some makin's papers and some Prince Albert tobacco and puff away on a home made cigarette that will hit on all your smoke cylinders! No use sitting-by and saying maybe you'll cash this hunch tomorrow. Do it while the going's good, for man-o-man, you can't figure out what you're passing by! Such flavor, such coolness, such more-ish-ness—well, the only way to get the words emphatic enough is to go to it and know yourself!

And, besides Prince Albert's delightful flavor, there's its freedom from bite and parch which is cut out by our exclusive patented process! Certainly—you smoke P. A. from sun up till you slip between the sheets without a comeback. Prince Albert is the tobacco that revolutionized pipe smoking. If you never could smoke a pipe—forget it! You can—AND YOU WILL—if you use Prince Albert for packing! It's a smoke revelation in a jimmy pipe or a cigarette!
