White Slavery Charge Is Alleged—

On complaint of the husband of the woman in the case, Harry Nicholl and Mrs. Nora Cummins were arrested in this city and will be taken to Portland tonight by a deputy from the office of the United States marshal to answer to a charge of violation of the Mann white slave law. It is charged that Nicholl and Mrs. Cummins went from Denver to Ogden, Utah, where they met, coming from Ogden to Portland and later to Grants Pass on a railroad pass that Nicholl obtained because of his service as a fireman for the Southern Pacific line. The charge is made that Nicholl and the woman have been living in a rooming house in Grants Pass as man and wife while Nicholl served as a fireman on the road from here, though the specific allegation is the transportation of the woman from one state to another for immoral purposes.

Nick Sauer Improving—

The condition of Nick Sauer, of Kerby, who was struck last Monday by a log, is reported to be much improved. Mr. Sauer was down the hill from the spot where the boys were sawing a block off the end of a large fir log. The block broke off and rolled toward Mr. Sauer, who attempted to dodge it. As he dodged, the log swerved toward him and he dodge again. The log struck a snag an swerved over, breaking Mr Sauer's right collar bone and right shoulder blade.

Fire Loss Smaller—

The fire loss in the city of Grants Pass was reduced to almost one fourth of the previous year during the past season. From July 1, 1920 to June 15, 1921, there were 35 calls turned in, prompt action on the part of the department reducing the loss to $3,907.50. During the previous year there were 49 calls with a fire loss of $14,915.00. The equipment consists of one large fire engine and a small chemical, which is used in the smaller fires. The large truck is capable of forcing a high pressure in case of failure of the pressure of the city supply. This was demonstrated at the time of the Borland-Thomas sawmill fire when water was thrown from the irrigation canal.

Apples Sell High—

The first carload of apples to be shipped from the Rogue River valley this season was sold at auction in Chicago yesterday. It was a straight car of choice Winter Banana packed and shipped by the Oregon Growers Cooperative association and it averaged $3.40 per box. The fruit was the property of Lathrop brothers and was sold by the Stewart Fruit company. Apple growers throughout the valley are intensely interested in the early apple sales in the hope they may contain some "dope" that may help guide them in disposing of the largest crop the valley has ever grown. Several other cars of this variety shipped by the Growers' association, are en route.

Says Bounty Imperative—

Elba Woodward of the New Hope section, who was in town Saturday in commenting on the recent ruling of the game commission in shortening the open season for quail, stated that in his opinion a bounty on chicken hawks would do more to preserve the quail and China pheasants than any other measure. Comparatively few game birds are killed by hunters but a single hawk will kill at least one bird a day during the year, and there are many hawks, some of them big enough to kill full grown hens. Mr. Woodward states that he has seen hawks drive a brood of quail into a clump of blackberry vines and then take a position a few feet away, remaining perfectly quiet until the birds come from cover and then pounce down on the unfortunate quail.
