POLICE SHOOT 2 SUSPECTS IN CIRCUS HOLDUP

BERT ORCUTT AND JAY MOORE IN CUSTODY AFTER $30,000 THEFT

THIRD MEMBER MAY BE WOMAN

Pair Shot and Arrested When They Made an Attempt to Take Cache at La Center

Vancouver, Wash., Sept. 19.—(A. P.)—Two wounded men, Bert Orcutt and Jay Moore, are in custody accused in connection with the $30,000 Sells-Floto holdup, and the authorities are trying to located a third man, possibly a woman dressed as a man, the suspect being the third member of the holdup gang.

The pair were shot and arrested early yesterday when they attempted to gather a cache at La Center. Mrs. Moore, two children and Christine Grosse, who were in the automobile in which the men went to the cache are being held.

Information which led to the capture was given to Vancouver authorities by a farmer named Jerry Riordian, who stumbled across the cache while taking a short-cut throught the woods near La Center, Wash., Saturday noon.

Riordian immediately telephoned this information to the Vancouver authorities, and early Saturday afternoon a posse of police and deputy sheriffs went to this point, two miles south of the town of La Center, where they remained in hiding awaiting the return of the robbers.

STEEL BRIDGE FOR COLUMBIA

Sight of "Bridge of Gods" May Be Used for Modern Structure

Cascade Locks, Ore., Sept. 19.—(A. P.)—The "Bridge of the Gods," a natural bridge which Indian legend says once spanned the wide Columbia river here, may be replaced by a bridge of steel or concrete for passage of the white man's automobile.

From father to son, back farther than the white man's writings go, has come the tale of how once a great mass of stone and earth and huge trees arched the Columbia as a causeway upon which Indians crossed the wide-flowing stream. Then there came a day when the bridge of nature was shaken from its moorings, and sank into the water. And that is how, they say, the cascades were created.

Geographical and geological investigators have reported that the red man's story may be true. When the waters of the Columbia are clear and low late in the year, remains of trees may be seen standing, as they may have stood before the bridge fell and formed the cascades.

O'LEARY'S COW REMEMBERED

Great Chicago Conflagration Date Is Set As Fire Prevention Day

New York, Sept. 19.—(A. P.)—October 9 will be the fiftieth anniversary of the date Mrs. O'Leary's cow kicked over the lantern causing the great Chicago fire, and the National Fire Protective Association has designated that day as International Fire Prevention day.

Since 1871 annual fire losses have been increasing until there is now an average annual monetary loss of $350,000,000 and an estimated loss of 15,000 lives yearly, according to the association.

The association is arranging for a nation-wide observance of the day to bring to the attention of the people that the fire loss is everybody's loss and everybody's responsibility and that the great majority of fires are preventable through the exercise of ordinary carefulness.

WIFE OF ARBUCKLE IN SAN FRANCISCO

Reiterates Faith in Husband and Asks Public to Suspend Judgment for Truth

San Francisco, Sept. 19.—(A. P.)—Mrs. Roscoe Arbuckle—Monta Durfee—arrived from New York to assist in the defense of her husband. She was met at Sacramento by her husband's attorneys.

She gave out a statement reiterating her faith in her husband's innocence, and asked that the people suspend judgment until the truth comes out. She declared her confidence that he would be cleared and restored to his place in the heart of the American people.

PEKING UNION MEDICAL COLLEGE IS DEDICATED

Peking, Sept. 19.—(A. P.)—The great Peking Union Medical college, which has been erected here by the China Medical Board of the Rockefeller Foundation, is to be dedicated tomorrow and noted scientists and medical men from many countries are here either to take part in the ceremonies or to attend an international medical conference to be held in connection with the dedication.

The Peking Union Medical college has been in process of erection and construction since 1915. It is the chief agency through which the Rockefeller Foundation aims to promote the progress of western medicine in China.

The campus of the college which is located near the heart of Peking and the Forbidden City was formerly the site of the palace and garden of a Chinese prince.

Fourteen hospitals and laboratory buildings have been erected thereon and these have been decorated in the conventional Chinese fashion in bright colors and with the elaborate cornices typical of imperial palaces and temples.

NEAR EAST CONCERNED BY APPEARANCE OF NEW BEDBUG

Constantinople, Sept. 19.—(A. P.)—The bedbug has become a Near East problem. It is apparently a new breed of bug, inbred from those imported by Russian, Persian and Tartar refugees. It is driving hotel keepers, their guests and housewives to the utter despair and hopelessness born of sleepless nights.

It has invaded the palace of the Sultan and added to the worries of his grand chamberlain. The fight against it is regarded as insolvable as that of the dispute between the Turks and the Greeks. It is smaller than the type of pre-war days and some of those who have examined the new bug assert that it has wings and flies like a mosquito.

Its activities defy mosquito netting. It appears able to bite through such netting. It doesn't always secrete itself in the bedding but may stow itself in the ceilings and from there drop upon its victims. It doesn't come singly but in swarms, attacking from all directions.

APPLICATIONS MADE FOR LAND BY AMERICANS IN ARGENTINA

Buenos Aires, Sept. 19.—(A. P.)—Many applications for settlement on land in Argentina have been received from the United States and Canada. The recent government decree opens up 16,000,000 acres of government land for the establishment of colonies in different parts of the republic.

These government lands are to be sold to colonists but it is understood here that the price will be low. They are located as far north as Misiones near the Brazilian border, where the climate is tropical and as far south as Terra del Fuego, which corresponds to the latitude of Labrador. Some of the land already is partly colonized and it is understood that the titles of the present settlers will be adjusted.

Mr. and Mrs. H. A. Trubshaw, of Valley City, North Dakota, and Ben Parsons of Milwaukee, Wis., were Sunday afternoon guests of Mr. and Mrs. Geo. Peake. Mr. Trubshaw is editor of the Times-Record, the leading daily paper of Valley City.

MANUFACTURER SALES TAX IS OUT TAX BILL

TAX OF $6.40 PER GALLON ON ALCOHOLIC LIQUORS ALSO LEFT OUT

MAY DROP AMUSEMENT TAXES

Calder Will Offer His Alcoholic Liquor Tax Amendment in the Senate

Washington, Sept. 19.—(A. P.)—The 5mort proposal for a manufacturers' sales tax is not included in the revised house tax bill approved today by the senate finance committee.

While accepting the principle of the Calder amendment to impose a tax of $6.40 per gallon on all alcoholic liquors withdrawn from bond for other than manufacturing purposes, the committee did not include the text in the bill. Calder will offer his amendment in the senate.

The committee accepted the amendment repealing the one cent tax on amusement admission charges of ten cents or less.

M'MINNVILLE IS TO CELEBRATE

Completion of Portland-Newburg Highway Celebrated by Carnival

McMinnville, Ore., Sept. 19.—(A. P.)—Completion of the new Portland-Newberg highway will be celebrated here September 22, 23 and 24, as part of the program of the American Legion carnival. Officials of the state highway commission have promised to be present to take part in the exercises planned for "highway day," September 23. Mayor Baker, of Portland, has promised to deliver an address.

COPPER FOUND IN SHETLANDS

Rich Discovery of High Grade Lodes Is Reported by London

London, Sept. 19.—(A. P.)—An important and rich discovery of copper has been made in Shetland. The lodes thus far proved give a high percentage and already half a million tons of copper ore are in sight.

Experts and engineers are laying down mining plants and its expected mining will commence next month.

Married Here Saturday—

Harry A. Nicoll and Ola May King, who were arrested here on a charge of violation of the Mann act, were married Saturday afternoon by Justice of the Peace Holman, and were taken on a honeymoon trip to Portland by the U. S. marshal. They will stand trial in Portland. It was charged that the couple were living in a local rooming house as man and wife. The woman gave her name here as Mrs. Nora Cummings.

UNEMPLOYMENT MEET SOON DUE

Secretary Hoover Announces Conference at Washington Monday

Washington, Sept. 19.—(A. P.)—The national unemployment conference will meet here next Monday, Secretary of Commerce Hoover announced today. The policy proposed does not contemplate charity but a practical working program.

ROUTINE RESUMED AT MC NEIL'S

Gardner Given Up and Special Guards Released—Regulars in

McNeil's Island, Sept. 19.—(A. P.)—The regular routine of the federal penitentiary was resumed today after two weeks futile search for Gardner. Special guards were released, and the regulars called in. Patrol boats were anchored at the prison docks.

DISARMAMENT COM. OF LEAGUE "PASSES BUCK"

FINAL REPORT INTIMATES THAT THE QUESTION IS LEFT TO WASHINGTON

RUSSIAN INTERESTS GUARDED

Assurances of Good Will Conveyed to Russian People by State Department

Geneva, Sept. 19.—(A. P.)—The final report of the league of nations disarmament commission was given out today. It intimates that the Washington conference will be better able than the league to deal with naval disarmament.

Washington, Sept. 19.—(A. P.)—Assurance that "legitimate Russian interests" would be carefully guarded at the armament and far Eastern conference has been conveyed to the Russian people by the state department.

SECURES SITE FOR PARLIAMENT

Stormont Castle and Grounds Purchased for Ulster Government

Belfast, Ireland, Sept. 19.—(A. P.)—Stormont Castle and grounds in East Belfast, owned by Charles Allan who was till recently a member of the famous Workman Clark shipbuilding firm, has been bought for $100,000 as the seat for the Ulster parliament.

Stormont is one of the finest properties in the vicinity of Belfast. The expense of building the new parliament house will be borne by the British treasury.

SHANGHAI LAW CASE INTERESTS

American Attorney and Law Firm Head Held for Contempt of Court

Shanghai, Sept. 19.—(A. P.)—Americans in Shanghai are intensely interested in the case of William F. Fleming, an American attorney and head of a law firm here, who, on July 28, was sentenced by Judge Charles S. Lobingier, of the United States court for China to serve a sentence of six months in the American prison in Shanghai for contempt of court.

After having served 13 days, his sentence was suspended by Judge Lobingier, pending a review of the contempt proceedings by the Ninth District United States circuit court of appears of California, to which the case is being taken on a writ of error. Mr. Fleming gave bail to the amount of $2,000 when released.

The case has developed into a sensation in legal circles largely because it was upon representatives by Mr. Fleming that President Harding, early in August, ordered an investigation of the United States court in this city.

ANIMALS FEAR HARD WINTER

Birds of Bronx Zoo Hoard Store for Cold Season of Long Duration

New York, Sept. 19.—(A. P.)—The birds and beasts that live in the Bronx Zoo are preparing for an early and hard winter. Although they live in luxury and don't have to worry about where their next meal is coming from, they are instinctively hoarding up food.

All classes of animals scent a stiff winter, keepers say. The squirrels are putting in full days storing up unusually large quantities of nuts. The prairie dogs, a month ahead of time, are secreting lots of food into their underground homes. Robins and blackbirds are flocking together and showing unmistakable signs of preparing for migration to southern climes.

LLOYD GEORGE IS ASKED INFERENCE

De Valera Inquires Whether "Demand for Surrender of Invitation to Meet" Is Meant

London, Sept. 19.—(A. P.)—De Valera telegraphed the premier asking whether Lloyd George's letter of September 7 was a "demand for surrender or an invitation to a conference free on both sides and without prejudice, should an agreement not be reached."

De Valera said that if the latter were meant the Sinn Fein delegates are ready to meet the British representatives at any time in the immediate future.

FINANCIER WOULD COLONIZE AUSTRALIAN FERTILE FIELDS

Sydney, Sept. 18.—(A. P.)—Australians are interestedly discussing a scheme proposed by Sir Joseph Carruthers, Australian publicist and financier, for the settling of 1,000,000 English tillers of the soil upon 1,000,000 farms in Australia, through the creation of a fund of $150,000,000 to be raised in equal proportion by Australia and Great Britain.

He argued that the scheme would permit the emigration to Australia of a large number of the unemployed service men of the kingdom to some of the richest land in the world, which as yet has never felt a plowshare.

Sir Joseph stressed the value to Great Britain of the man power brought to Australia by the undertaking. He declared that it would be better for the United Kingdom to support such a scheme than to build warships in contemplation of Australia's danger should the Pacific become a war zone.

NEW AMERICAN FALLS IS CITY "MADE TO ORDER"

American Falls, Idaho, Sept. 19.—(A. P.)—The new American Falls is to be a city "built to order." According to plans announced recently by the United States reclamation service, the rebuilding of the city on another site, necessitated by the fact that the present location will be submerged through the construction of a large irrigation storage reservoir, will be in accordance with the latest principles of city planning.

Topographical, climatic and industrial considerations will be taken into account in the building of the new city, it is indicated. The streets of the city will run northeast and southwest, to permit the sun to shine upon all sides of the buildings. The industrial section will lie in relation to the residence districts in such a direction that the prevailing winds will carry the smoke, dirt and odor away and not toward them. Natural drainage will carry surface water from the streets toward the river.

VOGUE FOR KNICKERS IS ADVANCING IN NEW YORK CITY

New York, Sept. 19.—(A. P.)—The vogue of knickers for women in sports is increasing here, manufacturers and stylists report.

They may even prove popular for women in driving motor cars about town and for those who take exercise by walking around the Central Park reservoir instead of galloping thereabouts arrayed in breeches and astride a horse.

But as for use by business women generally or for shopping trips here as recently suggested in Chicago, it just isn't being done.

PORTLAND MARKETS

Choice steers	$5.75 @ $6.25
Choice feeders	$4.50 @ $5.00

Portland, Sept. 19.—(A. P.)—Cattle, 25c higher; hogs, 50c to 75c higher; sheep, strong, with wethers 50c higher; eggs, firm; butter steady.

1,400 STICKS DYNAMITE ARE TAKEN CHICAGO

100 STICKS OF T. N. T. ARE HELD BY THE POLICE WITH FIVE BOMBERS

SHOE SHOP IS SHATTERED

Police Say Richard Burke Confessed to Supplying Bombs to Labor Unions for Sabotage

Chicago, Sept. 19.—(A. P.)—Police, after waiting ten hours at a shoe shop following the tip that it would be bombed, today captured five would-be dynamiters and seized 1400 sticks of dynamite and 100 sticks of T. N. T.

One of the prisoners was shot.

Richard Burke, aged 23, was carrying the bomb when the five dynamiters approached the shoe shop.

Forty detectives hidden and surrounding the bombers ordered them to surrender. Instead, Burke hurled the bomb. The explosion tore down the front door of the shoe shop, threw the owner and his family from their beds and broke windows for blocks around.

Burke is shot inside and may die. The police said he confessed he supplied bombs to labor unions as well as the men to throw them. Siezures were made at the house where the prisoners lived.

SEEK CHAMPIONSHIPS FOR 1925

National Contests Wanted for Portland Coast to Coast Exposition

Portland, Ore., Sept. 19.—(A. P.)—Efforts are to be made to secure national championship contests in rowing, rifle shooting and track and field for the exposition to be held in Portland in 1925. In addition, it is expected a large number of the Pacific northwest sectional championship meets will be held here during that year.

E. H. Judge, Portland, president of the North Pacific Association of Amateur Oarsmen is planning to secure the 1925 rowing championship and the rifle shooters who recently attended the national championships at Camp Perry are endeavoring to bring the 1925 meet here.

Portland has asked for the 1925 Amateur Athletic Union national track and field meet and, in this request, will have the backing of the entire Pacific northwest.

ANCIENT WEAPONS UNCOVERED

Primitive Arsenal Found in Crater of Extinct Haleacala in Hawaii

Honolulu, T. H., Sept. 19.—(A. P.)—The weapon storehouse in the immense crater of extinct Holeakala, where the natives of Maui many years ago made their last stand against the all conquering king of Hawaii, has been discovered, according to Emil A. Berndt, a business man of Honolulu.

Only two others share the secret, and it is to be kept until a superintendent of the Hawaii National Park is appointed, who can take steps to preserve the treasures of the cave.

The crater of the old volcano was the stronghold of the islanders of Maui. On its brink they had built many little fortresses and in a cave in its recesses they maintained their arsenal.

CHAMPIONSHIP WON BY TILDEN

Lawn Tennis Singles Taken by Player Who Defeats W. F. Johnson

Philadelphia, Sept. 19.—(A. P.)—William T. Tilden won the United States lawn tennis single championship by defeating Wallace F. Johnson, of Philadelphia here today.
