DAIRY THE DAIRY

MAKING MILK IN NEBRASKA

Figures Obtained Probably Approximate Requirements in Other Sections of West.

(Prepared by the United States Department of Agriculture.)

Here is what it costs, in labor and feed, to produce 100 pounds of market milk in eastern Nebraska: Winter, six months—concentrates, 41.2 pounds; dry roughage, 95.3 pounds; silage and other succulent roughage, 93.9 pounds; bedding, 11.1 pounds; human labor, 2 hours; horse labor, 0.06 hour; hauling and grinding concentrates, \$0.016; pasture, \$0.108; total costs, except depreciation on cows, \$0.788; depreciation on cows, \$0.018.

Summer six months—Concentrates, 11 pounds; hauling and grinding concentrates, \$0.004; dry roughage, 51.2 pounds; silage and other succulent roughage, 29.3 pounds; pasture, \$0.053; human labor, 1.9 hours; horse labor, 6.08 hours; total costs except depreciation on cows, \$0.806; depreciation on cows, \$0.084.

The work of determining the cost of producing milk in this section covers two one-year periods. It was begun by the bureau of animal industry, United States Department of Agriculture, in co-operation with the department of dairy husbandry of the University of Nebraska, in September, 1917, discontinued at the end of the first year, and resumed in September, 1919. The figures reported were based on actual records obtained by regular monthly visits of 24 hours each to eight farms for two years, and to 22 other farms for one year.

The requirements for keeping the average cow one year were: Concentrates, 1,529 pounds, hauling and grinding concentrates, \$0.09; dry roughage, 4,275 pounds; silage and other succulent roughage, 3,263 pounds; pasture, \$22.01; bedding, 340 pounds; human labor, 113.6 hours; horse labor, 3.2 hours; other costs except depreciation on cows, \$46.35; depreciation on cows, \$4.78.

During the first winter and summer the average incomes from milk were not sufficient to meet the average costs. In the second year the incomes were above the average costs in both seasons. The greater percentage of the year's income was received in the winter, but the feed, pasture and bedding costs exceeded the summer costs.

Used Car Bargains

Table listing car models and prices: Saxon Six \$250.00, Dodge \$400.00, Ford Touring Car \$200.00, Ford Touring \$250.00, Maxwell \$550.00, Ford Touring \$150.00.

MANY NOVELTIES APPEAR AMONG PRETTY FURBELOWS

THE holidays bring out numberless pretty furbelows—some of them presenting claims to usefulness, many of them frankly frivolous and merely ornamental, but all of them enchanting. These accessories are beloved of the eternal feminine, for they add the telling touch of elegance, or perhaps a hint of splendor, to apparel that might be uninteresting without them.

This particular season finds empha-sis put on strands of beads, bandeaux and ornamental combs for the hair, shopping bags, earrings, bracelets, charms and ornaments (to be worn on ribbons and cords), fans and corsage flowers. But these are only a few of the things made to enhance the beauty or please the eyes of women who love to surround themselves with beauty. There are as many small furnishings that are ornamental as there are dress accessories.

Among bags, besides those of leather, there are very attractive ones of silver mesh, in several styles and innumerable ribbon bags on metal or shell mountings, or closed and suspended by ribbons. These ribbon bags are usually made at home and are of many degrees of richness, the stores providing ribbons and mountings for

making them in great variety. Among bracelets there are bright-colored, flexible novelties of bone and of mother of pearl in colors. They are made in sections linked together with gold and having gold floral designs on the sections. Braided bands of silver or strands of pearls with rhinestone clasps are among the new bracelets.

Bandeaux for the hair are made of ribbon, tinsel cord, tiny flowers and rhinestone bands, and there are many combs set with white or colored crystals. But the newest things in combs are those that are covered with small, brilliant feathers, like that shown in the picture. For corsage ornaments large artificial flowers are used or grapes in gold or silver, and there are metallic and composition girdles in endless variety for wear with straight-line frocks.

The most captivating of corsage flowers are those that conceal a tiny box of compact face powder, furnished with a power puff, beneath their stamens or petals.

Plenty of Proof

From the People You Know—From Grants Pass Citizens

The greatest skeptic can hardly fail to be convinced by evidence like this. It is impossible to produce better proof of merit than the testimony of residents of Grants Pass, of people who can be seen at any time. Ask your neighbor!

Will Young, carpenter, 212 2nd St., Grants Pass, says: "I can recommend Doan's Kidney Pills from experience. My kidneys were out of order, my back ached at times and I could hardly do any stooping or lifting. My kidneys acted too frequently and irregularly. I read of Doan's Kidney Pills and used them, getting my supply at Sabin's Drug Store. Doan's soon rid me of the aches and pains and put my kidneys in good order."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Young had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

OUCH! LUMBAGO! RUB PAINS FROM SORE. LAME BACK

Rub Backache away with small trial bottle of old "St. Jacobs Oil."

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica or maybe from a strain, and you'll get relief the moment you rub your back with soothing, penetrating "St. Jacobs Oil." Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on your back and out comes the pain. It is harmless and doesn't burn the skin.

Limber up! Don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" from any drug store, and after using it just once, you'll forget that you ever had backache, lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 60 years.

Feed for Dairy Cows Should Be Carefully Weighed.

by a greater percentage than the winter receipts exceeded the summer receipts.

Although the figures obtained show what was required to produce milk for the Omaha market under the system of dairy management found in the section studied, and probably approximate the requirements in similar localities, it is pointed out by the department that they, of course, do not apply to dairying in sections where different conditions and methods of management prevail.

Additional details of the record and work are contained in department Bulletin 972, "Nutritional Requirements for Producing Market Milk in Eastern Nebraska," recently issued by the United States Department of Agriculture. Copies of the bulletin may be had by addressing a request to the department at Washington, D. C.

What's the Use?

Many a man has managed to live ninety years and then be forgotten in a week.
