## BONAR LAW IS NOT EXPECTED TO STAY ON JOB

IMMEDIATE FUTURE OF BRITISH GOVERNMENT WILL BE DECIDED SOON

### HARD TASK BEFORE PREMIER

Movement Which Approaches Revolt Is Under Way in Conservative Party Group

London, May 21.—(I. N. S.)—The immediate future of the government of Great Britain will probably be settled within a few days.

Bonar Law returns this week from his rest and vacation and will undoubtedly decide whether he is to continue as prime minister of the British Empire or whether he is to turn his task over to others.

The prime minister returns to Downing street with a hard row before him, and his difficulties are not only those of the government but they are also difficulties within his own party ranks.

A movement which may approach a revolt is under way within the Conservative party. Under the leadership of young members of the party there is a constantly growing demand that the Conservatives adopt an aggressive policy.

"Is the Conservative party going to be merely the caretaker of the national house, or is it to be its architect?"—this is the question that the young Conservatives are asking, and they are demanding an answer. Unless Bonar Law can give them a satisfactory answer he faces the dangers of a revolt within his own party.

Bonar Law is unlikely to desire to continue in office if there is an aggressive program to be undertaken, for his health undoubtedly will not stand the pressure. At the same time he will not desert his post until he feels that he can step down from office with assurances that his party is in such a state that it faces no immediate crisis.

It seems most probable that Bonar Law, if he has not already done so, will consult with his colleagues and will agree upon a successor. This must be a man who is agreeable not only to the younger and progressive Conservatives but to the older die-hard group. At the present time it appears that there are two possible candidates—Marquess Curzon and Stanley Baldwin. Marquess Curzon is in line for the post and must be considered, but there is no denying the fact that he is unpopular, even with the die-hards, whose policies he suits better than Stanley Baldwin, Chancellor of the Exchequer.

Baldwin is a man of great vigor and a fighter. His fighting spirit must appeal to the younger Conservatives. At the same

## LIVE-STOCK SHIPPERS GET SEPARATE HEARING

Portland, May 21.—(A. P.)—The public service commission, opening its hearing on intrastate rates on farm products today, granted the livestock shippers' request for a separate hearing on the livestock rates.

### Grasshopper Menace Will Be Combated

The Rogue River Valley grange last Saturday night laid their plans for an intensive campaign against the grasshopper menace, which is now threatening parts of the valley. The grangers decided to meet tomorrow afternoon at 1:30 at the Chris Eismann farm to mix the poison. Each farmer is expected to take his own bran, or if it is impossible to get this, mill run will be all right. County Agent Howell will have the necessary poison and other things which must be mixed with the bran. Six pounds to the acre will be needed. At the meeting it was necessary to elect a secretary to replace Miss Alberta Martin, who resigned. Her place is now taken by Mrs. Cora Sharp. A social and dance will be held Saturday night with the Neilson orchestra furnishing the music.

### BOOTH NAMED ON BAROMETER

Local Boy Gets Position on Student Paper at O. A. C.

Oregon Agricultural College, Corvallis, May 21.—(Special)—George C. Booth, of Grants Pass, was appointed as one of the assistant night editors of the O. A. C. Daily Barometer. Booth is a sophomore in civil engineering and a member of Theta Nu Phi fraternity. Homer Roberts, retiring editor, announced the appointment of 25 new members to the staff of the paper.

Assistant day and night editors and special feature editors were also appointed. The reportorial staff had 21 new members added to fill the vacancies made by promotions and graduations. The business staff remained unchanged.

The students appointed have all taken part in a competitive trout for the last three months. The staff now has 69 members. This is the largest group that has ever worked on the paper at one time.

time Baldwin is sufficiently conservative, so that he might be acceptable to the die-hards, if they are willing to unbend a bit.

There are difficult times ahead, and Bonar Law must choose his successor or a hard path. Popular opinion seems to be that the premier will choose to conserve his strength and turn over his power of office to another, although he may delay such action for some weeks pending maneuvers within his party.

One thing seems certain as Bonar Law returns to his post, and that is that the "peace and tranquility" policy must go. The question is whether Bonar Law will go with it. Best judgment is that he will.

## SPEAKER SAYS MILK IS HIGH IN FOOD VALUE

### SECRETARY OF OREGON DAIRY COUNCIL TALKS TO FORUM AT OXFORD TODAY

### BODY ADOPTS RESOLUTION

Chamber Against Placing of Oleomargarine Measure on Referendum Ballot This Fall

The Chamber of Commerce at its noon Forum meeting today unanimously adopted the resolution presented by Clyde E. Niles, which was against the placing of the oleomargarine measure on the referendum ballot this fall. The vote followed an address by Secretary Mickle, of the Oregon Dairy Council, in which was shown the relative food value of butter fat and oleomargarine. C. L. Hawley, state food and dairy commissioner, was also called upon for a few words, in which he told of the extent of the dairy industry, in comparison to other industries of the nation.

Man is the product of the food he eats and of his environment, declared Mr. Mickle. It was thought for some time, he said, that the calorie, or heat producing elements of food were all important. It has been discovered since, that other food values are needed. He told of a test that had been made upon a number of calves, in which the various groups were fed different foods. It was found that corn was the only food which produced the normal growth.

Four vitamins have been found to be absolutely necessary to the normal animal growth. Milk is the only food which contains all four of these, Mr. Mickle stated, and alone has the power of curing the four deficiency diseases. Pictures were exhibited of rats which had been fed butter fat and others which had been fed on the vegetable fats. The vegetable fats, which were wholly lacking in the vitamins, produced a stunted growth while the butter-fat fed rats were normal in all respects. The same results can be ascertained in the human body, which does not receive its full need of the vitamins, contended Mr. Mickle, and several pictures bringing out his point, were shown.

Milk contains milk sugar, casein, magnesia, phosphorus, butter fat, soda, lime, potash, chloride, iron and sulphur. By bringing out all of the various food elements contained in four quarts of milk, the value as a food was emphasized by the speaker, who made a strong plea in favor of the dairy industry over the vegetable fats.

Mr. Hawley, in his talk, showed that the same amount of fertility taken to produce wheat valued at \$1, would produce dairy products valued at \$4.50. He asserted that no better thing could be done than to encourage the dairymen and the dairy industry.

Music was furnished by Mr. Bennett and Mrs. Stralee. Mr. Bennett gave several trombone selections while Mrs. Stralee accompanied him on the piano.

### FOREIGN INTERVENTION NEEDED

Prisoners of Chinese Bandits Think Step Will Be Necessary

Shanghai, May 21.—(A. P.)—Dr. R. Martens, physician, returning from a brief mission to the Shantung mountains where 14 foreigners are held by bandits, reported today that the consensus of opinion among the captives was that foreign intervention was the only possible means of effecting a release.

Peking, May 21.—(A. P.)—Reports that troops were firing on the Shantung bandits were received by the diplomatic corps which immediately drafted a note to the foreign office asking the Chinese government how it reconciled its promise to procure the release of the foreign captives and the events which are transpiring since that assurance was given.

## UNIVERSITY PROFESSOR APPROVES SLANG TERMS

Chicago, May 21.—(I. N. S.)—Slang, as a medium of expression, is not objectionable, provided it is not overdone. This is the opinion held by Professor W. F. Bryan, of Northwestern University, who is an instructor in composition and an authority on Chaucer and old English literature. "The person who first described a lovesick couple as a 'Shelk and a Sheba' was almost a poet," Professor Bryan declared. The professor, however, emphasized the word "first."

### Old-Time Dance Gets Many in Attendance

An old-time dance was held at Holland Saturday night and it proved to be one of the most successful functions held in that section in some time. The dance was given by the old-timers in that locality and prizes were given to the best dancers, the best dressed dancers, the best looking dancers and others. All through the evening a large number of these prizes were given. The men served the supper, part of which was cooked out-of-doors. The supper consisted of chicken and brown gravy, mashed potatoes, salads, pickles, ice cream and "fixins." Their service was heartily enjoyed by everyone. The supper was also served by the men. The dance hall was beautifully decorated and the high school orchestra of Grants Pass furnished the music which was praised by everyone present. About 25 from Grants Pass were in attendance.

### FORMER RUSSIAN ROYALTY IN PARIS DRESS TRADE

Paris, May 21.—(I. N. S.)—In one of Paris' finest apartment houses now converted into American offices the servants' floor is a busy bustling place. On one door one reads "Baroness de Grothens, Models." Here is where the former Princess Nebilud ekes out an existence, aided by Mademoiselle Narishkine, daughter of the Russian ambassador. Another door is marked "Lingerie," and the business is managed by the Grand Duchesse Marie. The old order changed. "Dressed like a Princess" today reads "Dressed by a Princess."

### PORTLAND MARKETS

Prime steers	\$8.75 @ \$9.00
Hogs, prime light	\$8.50 @ \$8.75
Ewes	\$2.00 @ \$2.50
Choice wool lambs	\$13.00 @ \$14.00
Choice spring lambs	\$12.50 @ \$13
Eggs, buying prices	20c @ 26c
Eggs, selling prices	20c @ 27c
Butter, extra cubes	39c
Butter, pints	45c
Wheat, hard white	\$1.30
Wheat, northern spring	\$1.16
Wheat, western red	\$1.15

Portland, Ore., May 21.—(A. P.)—Cattle, slow and weak; hogs 10c to 50c lower; sheep, steady; eggs, slow to weak; butter, firm.

### ANOTHER CHESS PRODIGY

The new uniforms were in evidence at the game and the players presented an excellent appearance. The new score board aids the fans greatly in keeping track of the score.

Entriken umpired strikes, while the honors were performed at the bases by Tingley.

The lineups: Grants Pass, Coburn, p; Drolette, c; Drolette, 1b; J. Blevins, 2b; Wolf, 3b; Marker, ss; Cornell, lf; E. Blevins, cf; Pernoll, rf.

### POPPIES MADE IN GERMANY

American Legion Post at Cedar Rapids To Take Up Matter

Cedar Rapids, Iowa, May 21.—(A. P.)—Red paper poppies, bought by the American Legion post here to celebrate poppy day, May 26, were discovered today to bear the label, "Made in Germany." The Legion called a meeting for tonight to decide whether to burn them. Several other Iowa cities are reported to have received similarly labeled poppies.

## SECOND GAME OF SEASON IS WON BY LOCALS

### EAGLE POINT DEFEATED 8-4 IN CONTEST AT THE FAIR GROUNDS

### BREAK CAME IN FIFTH INNING

Two Errors Let in Five Runs—Coburn Pitches Good Game—Big Crowd Attends Opener

Over 300 people witnessed the Grants Pass ball club take the Eagle Point nine into camp again Sunday when the visitors were defeated by a score of 8 to 4. The game was close throughout, the only bad break coming in the fifth when the locals ran in five scores on two errors on the part of the Jackson county players. Coburn, for Grants Pass, pitched an excellent game, appearing to be at the top of his form. Many outsiders attended the game, which was the opener for the season here.

Mayor W. D. Fry put a swift one down the groove as the official opener of the season. He was then relieved by Coburn, who allowed but seven hits during the entire game. In the first inning, Ashpole, for the visitors, led. VanSoy then poled out a two-bagger, making the first score for Eagle Point. The Eagle Pointers were then held unless until the eighth when a triple by Ashpole and a single by Haines accounted for one. In the ninth they attempted a rally, but runs by Bower and Kenton were all that could be cobbled down.

Grants Pass started out well in the first by getting two over the home plate. Marker was passed to first. Cornell also received a free trip to the initial sack. Pernoll hit for two, scoring Marker and Cornell. Blevins then hit but no more scores were made. In the fifth, the visitors went to pieces and allowed two bad errors to get by them, letting in five runs. Marker got to base on an error on the pitcher's part. Wolf hit, advancing Marker. Cornell and Pernoll walked. Elvis Blevins then lined out a hot one to second who let it get out of his hands, three runs scoring. Jimmie Blevins then got to bat and when first baseman missed one, the other two runners scored. In the eighth, Jimmie Blevins hit a two-bagger and scored when first baseman erred.

Enthusiasm was evident at the game and the local ball club officials state that they believe there is a renewal of interest in the sport in Grants Pass. Games have been scheduled with neighboring team, but so far it has been impossible to get Medford or Ashland to get enough interest up to put out a team. A meeting of players and fans will be held on Wednesday evening at 7:30 at the Oxford hotel for the election of directors and a secretary for the organization.

The new uniforms were in evidence at the game and the players presented an excellent appearance. The new score board aids the fans greatly in keeping track of the score.

Entriken umpired strikes, while the honors were performed at the bases by Tingley.

The lineups: Grants Pass, Coburn, p; Drolette, c; Drolette, 1b; J. Blevins, 2b; Wolf, 3b; Marker, ss; Cornell, lf; E. Blevins, cf; Pernoll, rf.

Eagle Point, Carlton, p; Pruitt, c; Seaman, 1b; Ashpole, 2b; Haines, 3b; Kenton, ss; VanSoy, lf; McPherson, cf; Bower, rf.

### POPPIES MADE IN GERMANY

American Legion Post at Cedar Rapids To Take Up Matter

Cedar Rapids, Iowa, May 21.—(A. P.)—Red paper poppies, bought by the American Legion post here to celebrate poppy day, May 26, were discovered today to bear the label, "Made in Germany." The Legion called a meeting for tonight to decide whether to burn them. Several other Iowa cities are reported to have received similarly labeled poppies.

## LOGGING CAMPS GIVEN ATTENTION AT MEETING

Portland, May 21.—(A. P.)—Special attention to logging camp conditions occupied the attention of the Loyal Legion of Loggers and Lumbermen directors in semi-annual conference today. Wages and working conditions are also to be discussed.

### Williams Creek Has Baby Clinic Friday

The people of Williams state that they are appreciative of the services given by the Grants Pass doctors and nurses at the child health clinic, conducted in their community last Friday afternoon, under the supervision of the county home demonstration agent. Examinations began at 1:30 and from that time until 5, those in charge were busy, 28 children between the ages of four months and 14 years were given physical inspection. Tonsil and adenoid troubles were the most prevalent. There were also a number of cases of goitre and about one-third were under weight or otherwise malnourished. The ladies in charge were Mrs. Blodgett, Mrs. Bigelow and Mrs. Griffith, of Williams. Nurses who assisted were Mrs. Parsons, of Williams, and Mrs. Seebach, of Grants Pass. Drs. C. J. Moser and C. B. Marks, of Grants Pass, were the examining physicians.

### TREASURY REVOKES DECISION

Corporation Dividends Not Exempt From Income Taxation

Washington, May 21.—(A. P.)—The Treasury today revoked its decision of two weeks ago, declaring exempt from income taxation, corporation dividends distributed out of earnings, accrued prior to March 1, 1913. The ruling, officials said, would have resulted in the refunding of many million dollars in taxes.

### FOREST CONSERVATION TALKED

District Fire Wardens Convene at Salem for Two-day Session

Salem, Ore., May 21.—(A. P.)—Forestry conservation in Oregon was the subject for consideration at the conference of district fire wardens opening at the state capitol here today. The meeting will continue through tomorrow.

Gov. Walter M. Pierce is on the program for an address on the importance of protecting the resources of the state. His address was to follow the call to order by F. A. Elliott, state forester. T. T. Mungre, United States forest service, had a talk on reforestation, and George W. Peavy, of Oregon Agricultural College, on the warden as an educator.

The afternoon program included a talk by Dr. J. V. Hoffman, director of the Wind River experiment station on the relationship of humidity to forest fires. H. J. Eberly, deputy state forester and C. S. Chapman were to speak on forestry topics.

## POPULATION OF WORLD 1,408,187,631 BERLIN COMPILATION SHOWS, BASED ON 1922 CENSUS

Berlin, May 21.—(A. P.)—Scattered over the face of the earth is a total population of 1,408,187,631, only seven per cent of which is in cities of more than 100,000 inhabitants, according to statistics compiled here and based largely on 1922 census reports. Only 30 of the 70 nations listed have cities of or above the 100,000 class, which is the lowest counted within the classification of "large cities."

Approximately 40,000,000 of the globe's inhabitants live in the 18 centers having a million residents or more each. About 90,000,000 live in the smaller large cities, of which there are only 393 in the whole world. The average large city is said to number some 320,000 souls. From these figures, it is stated, every forty-fifth human resides in cities housing millions, while every fourth finds his home in a large city of some sort.

New York is given as the largest city in the world, with a population of 5,620,048. London is second with 4,483,249, and Berlin third with 3,803,770.

## SHERIFF DIES FROM WOUNDS IN GUN FIGHT

### SHERIFF DUNLAP FIGHTING FOR HIS LIFE AS RESULT OF GUN FIGHT

### TWO ROBBERS ARE IN CHAINS

George Parker and Art Beckley Wounded When Attack Made Upon Officer Taking Them to Jail

Albany, Ore., May 21.—(A. P.)—Sheriff Dunlap died today from the wounds received yesterday following the arrest of two alleged automobile thieves.

Albany, Ore., May 21.—(A. P.)—Fearing violence as a result of Sheriff Dunlap's death, deputies this afternoon called upon the governor for instructions and help. Ward Irvine, the governor's secretary, started for Albany with ten blank special state officers' commissions. It was said troops would be used if necessary.

Albany, Ore., May 21.—(A. P.)—Sheriff Dunlap is fighting for his life at the hospital today with a bullet wound received yesterday, and George Parker and Art Beckley, wounded in a gun battle with the officers, are in the same hospital chained to their cots, though not seriously hurt. Sheriff Dunlap was shot when taking Parker and Beckley to Albany, following their arrest on a charge of stealing an automobile at Harrisburg.

After Dunlap was wounded they leaped from the automobile and into the sidecar of Deputy Lillard's motorcycle. A running fight occurred, culminating finally in the capture of the pair after they abandoned the machine and had hidden.

### MONEY IN SAFE UNTOUCHED

Only \$3200 Taken — Securities Left Intact by Robbers

Wilsonville, May 21.—(A. P.)—The safe of the Farmers bank robbed last week, when opened today revealed \$800 untouched. The robbers took only \$3200. The securities were found intact, though water damaged.

### DRY AGENTS TO BE IN EVIDENCE

State Prohibition Director Announces That Laws Will Be Enforced

Portland, Ore., May 21.—(A. P.)—George L. Cleaver, state prohibition director, announced today that the law enforcement officers would be present at all carnivals and celebrations in the state hereafter, to prevent bootlegging operations.

## CALIFORNIA WILL FIND KEENER COMPETITION AT INTERCOLLEGIATE MEET DURING WEEK END

Philadelphia, May 21.—(A. P.)—Coach Walter Christie's University of California track team, coming to Franklin Field next Friday and Saturday to defend the Intercollegiate A. A. A. title they won in 1921 and successfully defended last year at Harvard Stadium, probably will find keener and greater opposition among the eastern stars this year than they have before.

The Californians, strongest last year in the field, are without their crack shot-putter, Jack Merchant, but Christie has improved his other field stars and has expressed confidence, after early victories over Stanford, Southern California and Nebraska, that his men will keep the I. C. A. A. title on the coast until they have won the event five times, enough to obtain permanent possession of the championship cup.

California is strongest this year in the discus, shotput and javelin, pole vault and two-mile run. Dorr, the two-miler, will go against such stars as Walter Higgins, of Columbia, winner of the two-mile international

event at the Penn Relay Carnival, and McLane, of Pennsylvania, the indoor champion.

"Briek" Muller, captain of the Golden State team, has been hampered in his jumping by a foot injury but is expected to be in condition for the meet. Leroy Brown, of Dartmouth, the indoor and outdoor champion, probably will be his most dangerous rival. Treyer has been developed into an exceptional jumper by Coach Christie. Witter is California's ace with the shots.

Pennsylvania, Cornell, Dartmouth and Princeton probably will be the California team's most dangerous rivals, judging from their showing in meets so far this year. The track stars represent many different institutions, so that as in 1921 and 1922 the team championship most likely will be determined in the field events.

In the 46 championship meets of the A. A. A. Harvard has been victorious 13 times. Yale, Cornell and Pennsylvania nine times each, Columbia three, California twice and Princeton once.

Although it is stated that he never studied the fundamentals of the game, Arstide Groumer, thirteen years of age, has astounded the chess world by playing 20 simultaneous games with the best players of the Paris Palais Royal club. He lost only one game.
