

THE CLIMAX

of perfection in farming means an elimination of the methods which make drudgery, which consume time, and which retard progress.

THE McCORMICK

eliminates all of these in that part of farming which pertains to harvesting grain and grass. Besides this, it does more—it brings to its owner contentment and satisfaction in his work, all of which creates vim and vigor, energy and enthusiasm; in other words, a new life on the farm.

The McCormick is a machine for practical purposes—it is the machine you want. Call and examine the McCormick line of harvesting machines.
