OREGON WEATHER

Weather for the Week  
Pacific Coast States: Generally fair and normal temperature.

Showers tonight and Friday.  
Moderate southwest winds.

GRANTS PASS PUBLICITY

People are wanted in Grants Pass and the immediate vicinity. Not only are they wanted but they are needed to help settle the 10,000 acres of undeveloped lands which surround the city. The greater part of these lands lie within the Grants Pass Irrigation district where plenty of water is assured for production of any crops which may be desired.

There is only one way of getting people here and that is by advertising in this section and showing that it is a desirable place to make a home. No advertising is better than personal advertising but that kind is impossible when people in large numbers in other sections are to be interested. The best way is by the distribution of appropriate literature and in this every person will be able to help.

ROUTE TWO

We all missed our gate keeper, George Barden, and lecturer, Edith Hunsing, from our midst at grange Saturday evening, but little did we think that they were plotting against us till we read of their marriage license in Monday's Courier. Of course it should have appeared in Saturday's issue, but they wanted us to know that they could keep a secret until Monday. We assure them that they have the best wishes of their neighbors and friends for their future happiness and prosper-

50 GOOD CIGARETTES 10c GENUINE BULL BIRMAN TOBACCO

By and hope to see both filling their respective stations at grange next meeting.

Mrs. Fred Reynolds, chairman of the home economics committee, requests that the grange ladies all meet with her at the hall Friday, the 22nd at 2:30 p. m. as she wishes to consult them in regard to furnish our new kitchen.

Mrs. May Lively is spending the week visiting friends in Hugo.

At the Dimmick school election Monday evening, Mrs. Fred Reynolds was re-elected clerk, John Harmon was elected director and Otto Hendrickson succeeds the retiring chairman, Mrs. Ruth Hammond.

FOUND HAPPINESS IN WORK

Great Writers and Inventors Acted With Much Wisdom in Refusing to "Rust Out."

Examples of long life accompanied by happiness in productive labor are numerous, both in biography and in contemporary life. observes the York-shire Post. B. W. Leader died the other day in his ninety-third year, after joyously producing his type of beauty in landscape art almost to the last. Edison, our greatest contemporary inventor, passed recently his seventy-sixth birthday. He was too busy to pause for congratulations, entirely happy in his research and experiment, finding the days too short for his exacting mind.

Man Rescues Costly Diamond From Sewer

Pottsville, Pa.—Harry Cotler, hunted for a "needle" in a hay-stack and found it. The "needle" was worth \$1,500, however. Cotler dropped a diamond ring into a sewer drain. With the city's consent, he dug into the drain and found the ring.

SCHOOL FOR CRIPPLES PLANNED BY ST. LOUIS

St. Louis, June 21.—(I. N. S.)—A special school for crippled children is being planned here by the Board of Education. It has been suggested to experiment with two schools next year, opening up one in both the north and south ends of the city, restricting attendance to cripples only. The educational board is planning also to provide transportation.

ONE STUDENT GRADUATES FROM OHIO SCHOOL

Lima, Ohio, June 21.—(I. N. S.)—Claim that it has the smallest high school graduating class in Ohio this year is made by Miller City, a Putnam County village. The class consists of one graduate, Miss Thelma Sibert, who will be accorded all honors given members of a much larger class. The Miller City High School is just completing its first year.

LISBON HOMES INVADEN AS POLICE SEARCH FOR BOMBS

Lisbon, June 21.—(A. P.)—Nightly bomb explosions that have been terrorizing the residents of this city for more than two months, are still as much of a mystery as ever, although the police have resorted to many drastic expedients in their efforts to find the culprits.

In the small hours of the morning recently, the entire police force, flanked by the Republican Guards, was divided into squads and ordered to search all Lisbon dwellings for explosives. Nothing was immune to the raider, from the humblest peas-

RIBBONS FURNISH INSPIRATION FOR GIRDLES AND KERCHIEFS

"MAKE it of ribbon" is apparently the prevailing sentiment throughout the realm of fashion. The pierres herewith tell of the magic which lurks in a length of ribbon.

Just now the Deauville handanna is the subject supreme in the way of dress accessories. It has a rival in the ribbon kerchief drape, such as is pictured in the small circle. The way to make this interesting novelty is to take four pieces of wide ribbon, miter them at the corners and join by double hemstitching or fagoting. This pretty "ribonette" as it has been aptly called, can be worn as a square, pulled around so that one point comes down in the front with each shoulder and the bands adorned with the other points. A pleasing variation is to knot one point in kerchief effect.

Fancy girdles—what a sensation they are creating among dress accessories, and how gracefully ribbon lends itself to the general scheme! The picture tells, in two views, how to fashion the cleverest sort of a hip-scarf or girdle out of about one and three-

Daily News Letter Group of Staff Correspondents at World Centers of Population

Moscow, June 21.—(I. N. S.)—This city is suffering from a telephone "famine."

Before the war there were 60,000 telephones in Moscow. There are now only 22,000, and only two of the four central stations are in operation. The great lack is the receiving and transmitting apparatus. This comes from Sweden and is very expensive. On May 1 there were only 3,000 of these receivers in stock, and only business enterprises and government department heads are allowed telephones until the supply is greater.

The rates are low and will be advanced in July to about \$5 a month. By January, 1924, it is expected that all four central stations will be operating. Moscow has long distance connections with Petrograd, Kharkov, Orel, Tula, Kursk, Ekaterinoslav and Nizhney Novogorod.

In the Ukraine last year 60,000 illiterates were taught to read and write.

In a recent commercial conference a representative of Persian merchants said: "Where the English feet have trod nothing grows any more, but where the Russians come there growth appears. The Russian commerce brings us advantage, but the English only destroy."

The Czechoslovakian relief mission in Moscow is "stuffed." It has been sending relief supplies to the Crimea, and one of its cars, marked "Condensed Milk," was mysteriously diverted from Kiev and billed for Moscow. At Kursk Station it was held up by the local authorities. The Czechoslovaks demanded its return and damages for detention, but it has not been returned. It was found to contain alcohol, chocolate, sugar, tea, matches, fats, stationery and individual parcels.

A children's town near Moscow, accommodating 200 children, has been named for Varovsky. It has beautiful gardens and groves. In Odessa the communal workers have named their club for Varovsky.

On June 1 Russian freight rates on grain and fish were lowered 10 per cent. The 1923 Bread Loan Bonds are issued. The amount this year will be 30,000,000 pounds of rye, three times the loan of last year. Peasants are arranging to buy from the government directly, avoiding the middleman's charge. Bonds to be redeemed by a pool of rye this year sell at different prices in different regions. In the producing provinces the price is 16 soviet rubles (1923); in the "consuming" provinces it is 20; and in the north and east—Petrograd, the Urals and Siberia—it is 28 rubles. The great demand among the peasants arises from the fact that they may pay their taxes in these bonds.

In Azerbaijan the seeding has exceeded the pre-war figure by 10 per cent. In the Ukraine the sugar beet seeding has reached 150,000 desyatins.

In the Mougan Steps irrigation is proceeding in the cotton-growing areas, and in Azerbaijan the fight against locusts has been successful.

The turnover of the foreign trade in the Far Eastern republic last year amounted to about 16,000,000 gold rubles. Much greater figures are anticipated this year. The timber resources amount to 150,000,000 desyatins, and one-sixth of this lies on the banks of rivers. Logging machinery is lacking.

The Russo-Turkish commerce last year reached nearly 12,000,000 gold rubles, most of it being importations from Turkey, especially sugar and coffee.

Recovered From Stomach Trouble

"Had stomach trouble three years and finally was in bed, eight weeks with terrible cramps," writes A. L. Lyons, Dayton, Ohio. "The doctors did not help me and I could hold nothing on my stomach. Tried Foley Cathartic Tablets and now as a well man, 'Can eat anything.' Sour stomach, headache, bad breath, biliousness and other digestive disorders quickly overcome with Foley Cathartic Tablets. Do not pruple, pain or nausea. Couch's Pharmacy. (Adv.)"
