NOTICE OF SALE OF GOVERNMENT LANDS

General Land Office, Washington, D. C., June 9, 1923. Notice is hereby given that subject to the conditions and limitations of the acts of June 9, 1916 (39 Stat. 218), February 28, 1919 (40 Stat. 1179), and June 4, 1920 (41 Stat. 788), and Departmental regulations of September 15, 1917 (49 L. D. 447), and June 22, 1920 (47 L. D. 411), the timber on the following lands will be sold July 20, 1923, at 10 o'clock a. m., at public auction at the United States land office at Roseburg, Oregon, to the highest bidder at not less than the appraised value as shown by this notice, and to be subject to the approval of the Secretary of the Interior. The purchase price, with an additional sum of one-tenth of 1 per cent thereof, being commissions allowed, must be deposited at time of sale, money to be returned if sale is not approved, otherwise payment will issue for the timber which must be removed within ten years. Bids will be received from citizens of the United States, associations of such citizens and corporations organized under the laws of the United States, or any State, territory or district thereof only. Upon application of a qualified purchaser the timber on any legal subdivision will be offered separately before being included in any order of a larger unit.

WHAT THE WORLD IS DOING

AS SEEN BY POPULAR MECHANICS MAGAZINE

Jumpers Cover Bathing Suit While Walking to Beach

Wearing bathing suits through city streets or in beach restaurants is prohibited in many localities, and yet heavy outer clothing—especially after a swim—quite bothersome and annoying. As a comfortable outfit meeting all requirements, there is being introduced a suit of light waterproof jumpers. These cover the entire body, from the hood to the straps fastening about the ankle.

Salvation Army Doughnuts in Church Carving

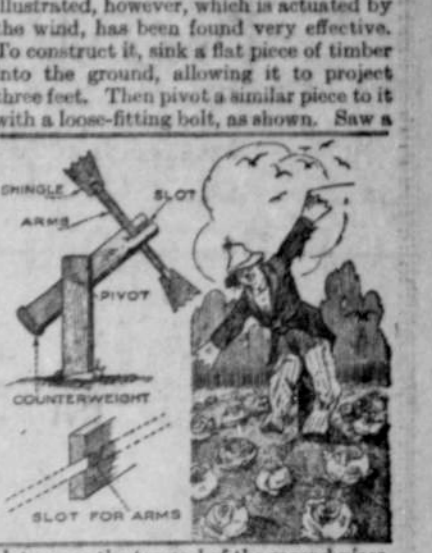

To commemorate the war service of the Salvation Army, a church in New York has placed a wood carving in its choir. The central figure is a woman in uniform carrying a tray filled with doughnuts. On each side are figures of doughboys in attitudes of appreciation and gratitude, and to the right, in the center of a scroll, is a group comprising a trumpet, a tambourine, and a bible, representing the principles and methods of the Salvation Army.

"Depth" in Movies on One Strip of Film

While heretofore the single eye of the ordinary camera has been able to record only two flat dimensions, length and width, a California inventor claims to have added a third—"depth." The result is said to give a stereoscopic effect, bringing the details of the picture into sharp relief. Previous efforts along this line have required the use of two strips of film and some special device before the eyes of the spectator. But the new invention is declared to use only a single strip of film.

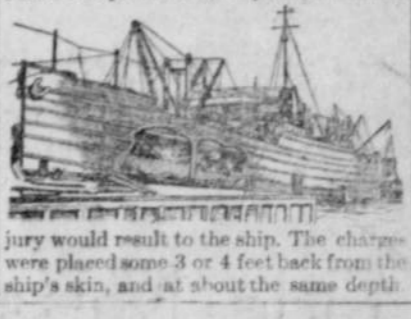

A Scarecrow with "Life"

Most scarecrows are inefficient because they show no signs of "life." The one illustrated, however, which is actuated by the wind, has been found very effective. To construct it, sink a flat piece of timber into the ground, allowing it to project three feet. Then pivot a similar piece to it with a loose-fitting bolt, as shown. Saw a slot across the top end of the second piece, at an angle, as shown in the detail, fasten it to a horizontal piece for the arms, and nail shingles, cut to represent hands, in slots on the ends of the arms. Nail a piece of metal, just heavy enough to bring the figure upright when the breeze abates, to the bottom end of the pivoted piece. Then dress the scarecrow, allowing plenty of play at the pivot.

Dynamite Breaks Up Ship's Cargo of Potash

Dynamite has frequently been used with success for loosening up solid masses of bulk material, but generally in more or less open spaces. A daring departure was made recently when the method was used for prying loose a cargo of hardened potash in a ship's hold. At first picks were used in an attempt to loosen the mass, but were finally discarded as being too slow and costly. Dynamite was then suggested and used, although it proved difficult to persuade the captain that no injury would result to the ship. The charges were placed some 3 or 4 feet back from the ship's skin, and at about the same depth.

Prince of Wales Takes a Tumble

The prince of Wales, riding Prince Henry's Ocean III in the army point-to-point near Reading, England, landing squarely in one of the water jumps from which his highness rescued his horse from drowning.

GALICE

It is thought that Leonard Lybarger, who lived with his brother, Palmer Lybarger, between Merlin and Gallice, lost his life Saturday afternoon in Rogue river at the John Rainey Falls, about seven miles below the Alameda mine.

The accident occurred while they were on their way to Whiskey creek on a prospecting trip. Leonard, with his brother, Palmer, was looking at the falls while a friend, who was with them was fishing just below. Palmer joined the friend and did not notice that his brother was not with them for a few minutes. They returned to the falls at once and found Leonard's hat which was all the trace they could get.

Wm. Robertson, W. M. Davis, Guy Gilbert, C. R. Campbell, J. W. Jones, Jack Jones and Julius Sappi searched for the body Sunday, leaving Gallice at daybreak and did not return till late afternoon. They found no trace of him except his walking stick which still floated around in an eddy in the river. There was also the brother and three others searching the river.

F. A. Carpenter and wife had a good old-fashioned house warming in their new store building Saturday evening. The party was a pronounced success. We wish them many happy and prosperous days in his new store. Those present were: H. L. Coon, wife and daughter of Grants Pass; Mrs. M. A. Hawkins, Jack H. Jones, W. M. Davis, Marion Mastor, Clyde Conaway, Robina Robertson, Mr. and Mrs. John Robertson, Wm. and Wallace Robertson, Frank Hoffman, Gladys Howland, Hazel and Leonard Howland, Mr. and Mrs. Guy Gilbert, Mr. and Mrs. L. J. Otis, C. R. Conger and K. H. Williams, and J. W. Jones, all of Gallice; Mr. and Mrs. Harley Keyto, Mrs. Hall Massie and daughter, Julius Sappi and John Sappi and daughter, Mabel, of Merlin; C. R. Campbell and H. Sordy of Alameda; and P. B. Wickham, of Grants Pass.

Brains Needed for Forenight

Any symptom can tell which way the wind is blowing today, but it takes a man of brains, special insight and experience to tell you how it will blow tomorrow.—David Lloyd George.

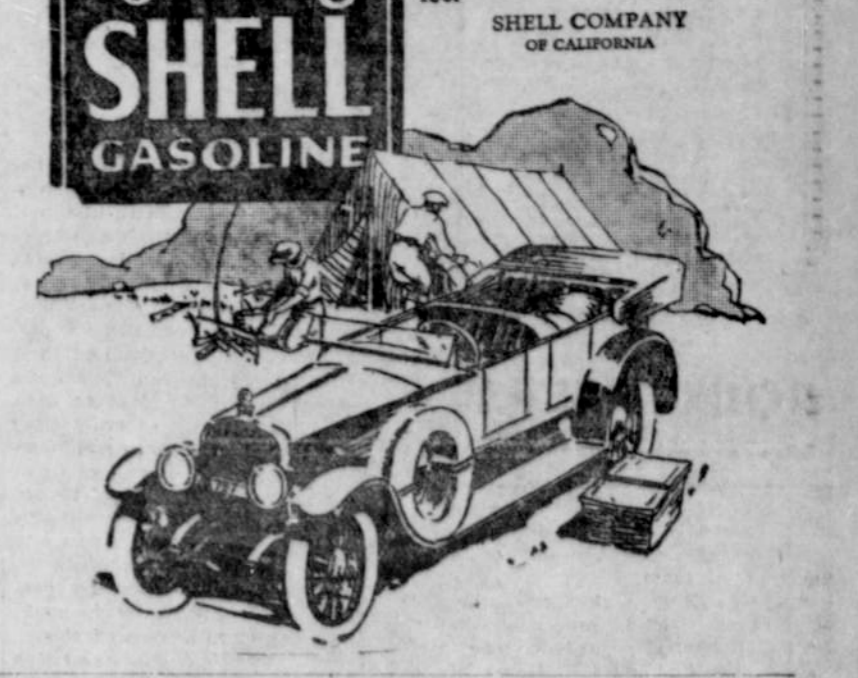

A CRY IN THE NIGHT, gripping pains in the wrist, cramps, vomiting, diarrhoea, whether child or adult, immediate comfort and ease in **CHAMBERLAIN'S COLIC AND DIARRHOEA REMEDY**. Pays to keep always on hand.

Prince of Wales Takes a Tumble

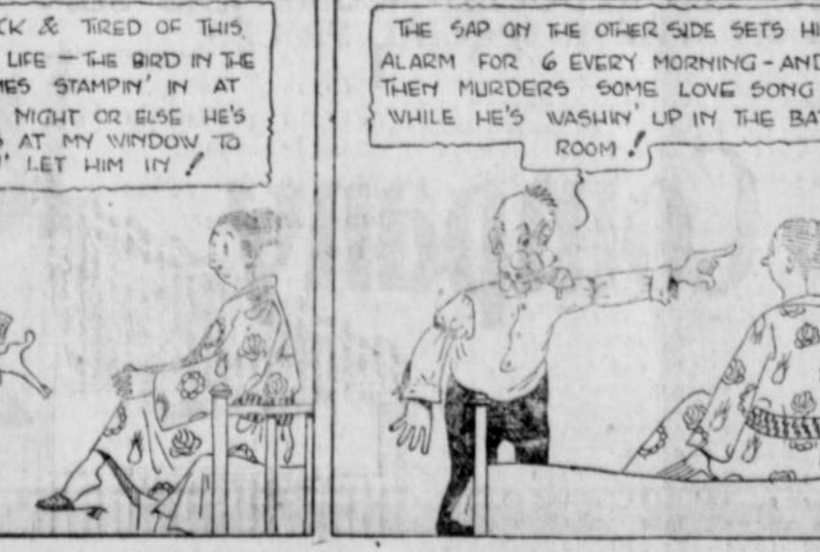

The prince of Wales, riding Prince Henry's Ocean III in the army point-to-point near Reading, England, landing squarely in one of the water jumps from which his highness rescued his horse from drowning.

TAKE Shell Gasoline on your next camping trip— that's a real test for any motor fuel. You'll appreciate its quick starting qualities on cold mornings and the way it pulls on the long, steep grades. You'll appreciate its splendid mileage too. Look for the yellow and red Shell signs—there you will find good gasoline and good service.
