Colonel Deakyne Visits—
Colonel Herbert Deakyne, who has
charge of the rivers and harbors
work on the coast, has returned from
Crescent City, where he made a
rapid survey of the breakwater
work progressing there. The govern-

\$200,000 to be expended on the
work, to match the like amount given
by the city. Colonel Deakyne is

One good test—

—of the purity and stability of a motor oil is
the amount of carbon it forms.

Zerolene forms, on an average, 30% less car-
bon than other oils. The carbon is soft and
fluffy and most of it blows out with the ex-
haust. For this reason the Zerolene-lubricated
automobile may be driven from 25% to 50%
farther without having the valves ground or
the cylinders rebored.

Zerolene forms less carbon than any other motor
oil known to us.

Insist on Zerolene—even if it does cost less.
Ask for it by name—Zerolene.

A Rare Opportunity

How often have you wished for the time to come when
you, too, might have an electric range?

How you have envied those who had no wood to buy,
no wood to split, no wood to carry in and feed the ever
hungry range.

For some one we have that range, full sized, best make,
double oven, used enough to make certain its perform-
ance, which we also guarantee to you.

This has new heating elements—the only part that ever
wears out—we give you the wiring and cable complete.
If you are ever going to have an Electric Range, don't
pass this opportunity, we have only one, some one will
be lucky—will it be you?

It goes without saying that you will get a bargain—be-
cause it is for sale by

HARTFORD TIRES and TUBES

THE car owner who has worked
around to buying a Hartford "H"
Tread Fabric or a Hartford Red or Grey
Tube is the man to ask concerning the
basis of the Hartford reputation.

His past experience is fresh enough
in his mind to make the discovery of
Hartford value rather sensational.
