# PRICE REDUCTION VACUUM CUP TIRES

RANGING TO 15%

TWENTY-FOUR hours a day year-round production maintained by workmen trained in our own modern plant enables us, without curtailment of quality, to effect savings which constantly are passed on to Vacuum Cup Tire and "Ton Tested" Tube users.

## HELP HERBERT HOOVER

RUBBER importations to the United States for the fiscal year ending June 30, 1923, show an approximate total of 775,000,000 pounds, an amount equaling fully three-fourths of the world's production.

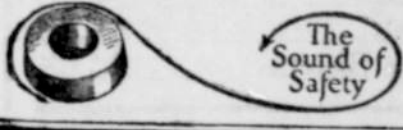

Competent authorities assert that the American automobile utilizes not less than one-half of the world's annual rubber supply.

Responsibility for advancement in the art of tire building rests solely with the tire manufacturer, but safeguarding our future needs of raw rubber—fully 70% of which is imported from countries la-

boring under burdensome and uneconomic tax laws and recently enacted restrictions—makes it the duty of every motorist in the United States to advocate the placing of rubber production under the American flag and in tax-free districts.

It is the patriotic obligation of every American car owner, when opportunity affords, to express approval of the efforts of Mr. Herbert Hoover, our far-seeing Secretary of Commerce, who has, through Congress, secured appropriation for an already active campaign of world-wide investigation of the possibilities for an independent or, at least, a tax-free source of rubber supply.
