GRANTS PASS, JOSEPHINE COUNTY, OREGON.

MONDAY, AUGUST 13, 1923.

WHOLE NUMBER 3564.

MINE EXHIBIT IS BEING MADE FOR 1923 FAIR

FRANK SOUTH IN CHARGE OF COLLECTION OF ORES FOR DISPLAY

COUNTY COMMITTEES NAMED

Districts Are Each to Have Number of Men Working at Gathering Specimens in Each Locality

With plans formulated for one of the best mineral exhibits ever displayed in Southern Oregon, Frank South has started work on the collection of ores for the Josephine County fair next month. It is desired that an unusually fine exhibit of ores be made, states Mr. South, as it is hoped that the owners will permit their use for a permanent display. This would allow tourists and other visitors to the city to see the mineral resources of the county and would stimulate the mining industry, he says.

Mr. South has divided the county into units and has placed a number of mining men in each unit in charge of a display from that section, those to be incorporated into the large showing at the fair. While it is known that some of those listed will be unable to get the ore, it is hoped that they will be able to see that some one in their section attends to the matter. It is asked that Mr. South be notified by September 10 of the assembly of the exhibits so that they can be brought to the city and arranged. Each exhibit should be fully marked with the name of the owner, the name of the mine and the kind of ore. As large chunks as possible should be sent.

Attention is directed to the fact that the premium list has been greatly enlarged and the premiums increased. The premium lists will be sent to all those who desire them, states Mr. South.

The committees are: Mount Reuben, H. H. Walker and M. Bailey. Galilee, Harry Sordy and Perry Wickham.

Briggs Creek, C. A. McDermoth and John Daily.

Lower Illinois, George Finch and I. F. Peck.

Takilma, Don Cameron, Harry Messenger and Mr. Tucker.

Kerby, Bill George, Big Nankey, Max Tuffa, George Angerson and Arthur Dixon.

Waldo, George Esterly, John Eggers and George W. Elder.

Althouse, John Apple, Steve Potter and Dick Sowell.

Holland, Jack Smock, Ed Tycer

GREATER AIR FORCE IS SUGGESTED AS MEANS OF STRENGTHENING PANAMA CANAL DEFENSES

Washington, Aug. 13.—(A. P.)—Various means of strengthening the defenses of the Panama Canal are suggested in an official Navy Department critique, prepared as a result of a study of last spring's maneuvers in Panama Bay.

The weaknesses of the present canal fortifications, the memorandum said, include the improper grouping of defense artillery, the lack of a sufficient air force in the Canal Zone, and the susceptibility of certain vital parts of the waterway to air bombs. It is suggested also that the defending fleet should be balanced by the addition of scout cruisers, and that a study should be made of the possibility of obtaining by treaty the right to establish aircraft bases at certain unnamed points on foreign soil nearby.

In the spring maneuvers, the "enemy" fleet from across the Pacific discarded any plan to attack the canal directly, but succeeded in seizing a base at Port Culebra, Costa Rica, from which it was in a position to send out an air fleet against the little strip of United States territory.

"In drawing up their estimates,"

GOVERNMENT WILL NOT APPEAL FROM DECISION

Washington, Aug. 13.—(A. P.)—Government will not appeal from the decision of the United States court at St. Paul holding that the Interstate Commerce Commission had authority to consent to the Central Pacific-Southern Pacific consolidation.

GYPSY'S PLAN TO ROUT SPIRITS COSTS \$1,000

Fall River, Mass., Aug. 13.—(I. N. S.)—Mrs. Gloria Silva, of No. 170 Mulberry street, went to see a gypsy fortune teller, who told her that she was being haunted by evil spirits and in order to drive them away must get \$1,000 in cash and hang it around her neck.

Mrs. Silva drew the family savings and the gypsy helped her fix the charm. Later Mrs. Silva found a roll of old paper around her neck instead of the currency.

SHOE MAKERS KICK ON CUTTING "KING TUTS"

Haverhill, Mass., Aug. 13.—(I. N. S.)—Shoe cutters in several local factories are seeking more money for cutting King Tut shoes. They claim the fronts of these fine turn shoes are hard to cut and that they should receive more money for doing so.

STEELHEADS BLACKEN RIVER

Many Trout in Lower Rogue Waiting To Ascend Upper Part

Tons of steelheads are congregated in the Rogue River canyon near the mouth of Stair creek, awaiting cooler water before ascending the river. This news was brought back to the city by Claude Bardon, who has just returned from a trip by boat to Gold Beach. The trip was made to take two government engineers to the coast in order that they might make a topographical map of the river. In the party were Bishop Moorhead and C. Gardner, engineers with the geological survey, Claude Bardon, Harold Briggs and R. W. Long. Two boats were taken down, Mr. Bardon and Mr. Briggs having charge of the boats.

The topographical map is now completed from the head of the Rogue to the mouth, according to the engineers. They have been working on it all summer and have now completed their work. No trouble was experienced in the last trip, although there were thrills at times. People along the lower river say that the stream is the lowest it has been in years for this time of the season.

Mr. Bardon says that the river is fairly black with the steelheads in places, the fish being thick from Whiskey creek to the coast. They could not be induced to rise to a fly, however. Sixteen days were taken to the trip, the boat being sold at the coast and the stage being taken to Marshfield and back home.

GERMAN REDS ARE FIGHTING WITH MILITIA

STORM TOWN HALL IN SEITZ AND HOLD CITY OF LUEBECK

SEVERAL STRIKERS ARE KILLED

Many Wounded in Hamburg Shipyards When Police Open Fire on Those Interfering With Work

New York, Aug. 13.—(A. P.)—Germany is on the brink of a revolution, said Senator Smoot, returning today from his European tour.

London, Aug. 13.—(A. P.)—

Sanguinary fighting between communists and the militia occurred today in Seitz, Saxony, according to a Berlin dispatch. A large body of communists stormed the town hall, occupied by the soldiers, and there was considerable fighting in the streets.

Luebeck, Germany, Aug. 13.—(A. P.)—The communists are holding this city after forcing the senate to retire. Reichswehr have arrived to attempt to restore order.

Berlin, Aug. 13.—(A. P.)—Several strikers were killed and many wounded at the Hamburg shipyards today in a clash with the police. The police attacked the strikers who prevented those willing to work from entering the yards.

Philadelphia, Aug. 13.—(I. N. S.)—"Watch out for a great upheaval in Germany shortly" is the warning of Dr. Arthur Sonnenberg, former health commissioner of the city of Kiel, in that country, now visiting here.

"Conditions recently have developed to a point where conflict is inevitable," Dr. Sonnenberg said. "Bavaria is in the hands of the monarchists, Thuringia is controlled by Communists, Saxony by radical Socialists and Prussia by plurality Socialists. Out of these opposing elements trouble is bound to come."

"The 'Safety Police' are powerless to control the demonstrations of the factions. The Socialists possess arms and carry on military training in defiance of the Republican government."

"The depreciation of the mark has wrought incalculable damage to the morale of the country. The only thing that solidifies sentiment of the nation at large is resentment against the French invasion of the Ruhr and the executions and imprisonment of Germans resulting from that."

"Personally I look for a restoration of the monarchy, but not before half a century has elapsed. It is unthinkable that the former Kaiser should ever regain the throne. His second marriage has destroyed his chances."

"The Crown Prince, however, might possibly succeed in restoring the monarchical regime if extraordinary circumstances favored such a move, but it is unlikely. Recently he has somewhat gained in popular opinion by the manner in which he has taken his exile."

"A restoration, if it does come, will no doubt be through the cooperation of the Austrian Germans, who will join in an attempt to create a greater Germany that shall have for its eastern boundaries Russia, Hungary and the Balkan countries. Such a new Germany will gladly take up her share of the world's labors. In the Peace Palace at The Hague, we who look to the future see a symbol, gleaming through the clouds of present-day conditions."

Aix La Chapelle, Aug. 13.—(A. P.)—Four Germans were killed and forty wounded when the police today fired on several thousand gathered before the police headquarters, demanding that the authorities do something to relieve the shortage of potatoes.

Mr. and Mrs. Charles K. Whitney, of Oberlin, Ohio, visited over Sunday with the H. H. Allyn family. They are on their way home from San Francisco.

ENGLISH WOMEN USING POWDER OF COAL DUST

London, Aug. 13.—(I. N. S.)—Coal dust powder, especially prepared, is woman's latest accessory for making herself beautiful.

The new preparation placed around the eyes in such a way that it enhances the whites of the eyes, giving it a milky and filmy effect.

It is stated to suit all color of eyes except blue, as the coal dust in this case detracts from their color.

Magnificent shades of orange rouge, which when placed on the face give it the effect of sunset color, are now fashionable, and several shades of blue, which vary in hue from the color of the cornflower to the mauve of lilac, are being used to tint the upper lids of the eyes.

ANOTHER CONVICT GETS AWAY FROM PRISON

Salem, Aug. 13.—(A. P.)—George Clark, a trusty, escaped this morning from the state prison. This is the thirty-eighth escape under Warden Smith.

AIRPLANE TO SCALE MOUNTAIN

Aviator Will Attempt to Land on Summit of Mount McKinley

Anchorage, Alaska, Aug. 13.—(A. P.)—Mount McKinley, the highest elevation on the North American continent, will be scaled for perhaps the first time during this month, if the attempt of Carl B. Eileson, former army aviator, and C. J. Läncke, Anchorage newspaper man, to land in an airplane on the frozen plateau at its summit proves successful. The trip will be made for the purpose of securing air photographs of the famous peak and the national park which enclose it. Close-up photographs of great herds of mountain sheep and the great Alaskan brown bear which range the mountain fastnesses will also be taken.

The start of the trip will be made at McKinley station, at the entrance to the park, where there is a natural landing field. Other landing places are also being located in various sections of the park where additional fuel is being stored.

On the trip from Fairbanks to the entrance of the park the explorers hope to photograph the great migratory caribou herds that start down from the Arctic during the latter part of August, and the reindeer herds grazing in Broad Pass. Entering the park they will spiral to an altitude of perhaps 25,000 feet, reconnoiter over the plateau several miles square at the summit, and if the ice will permit, actually make a landing on the "Roof of the Continent," 29,300 feet above the sea.

CHRISTENS NEW SHIP

Pretty Miss Dorothy Patten, daughter of Mr. and Mrs. Z. C. Patten, Jr., of Chattanooga, Tenn., sponsor at the launching of the 6,500-ton steamer City of Chattanooga at Newport News, Va. The ship is being built for the Ocean Steamship company of New York and Savannah.

BRITISH NOTE TO FRANCE IS NOT FRIENDLY

DECLARES RUHR OCCUPATION IS ILLEGAL BUT WILLING TO ARBITRATE

ESPOUSAL OF GERMAN CAUSE

French Think Note Disavows Her Former Allies and Turns to Former Enemy—Situation Is Grave

London, Aug. 13.—(A. P.)—British note to France, in which the government brands the Ruhr occupation as illegal, but is willing to submit the point to arbitration, has made a deep impression here. It is regarded as creating a situation which may have serious developments.

Paris, Aug. 13.—(A. P.)—

British note is regarded in the French official circles as a disavowal of Great Britain's war allies and the frank espousal of the German cause.

BOY SCOUTS GO INTO CAMP

Will Spend 10 Days On Whiskey Creek Below Alameda

Prepared to spend the next 10 days camping at Whiskey Creek, eight miles down the Rogue River trail from Alameda, 17 Boy Scouts from the local troop left yesterday for the lower river. The boys, who are in the charge of Assistant Scout Master Horace Hair, had planned to make the trip to the coast along the trail but this was given up in favor of the permanent camp on Whiskey creek.

The boys were taken to the end of the wagon road yesterday morning in cars furnished by Carl Williams, Tom Booth, C. A. Winetrot, Ted Cramer and Mrs. J. D. Fry. There were just enough cars to take all the boys who wanted to go. They will return a week from Wednesday.

Those making the trip yesterday were Horace Hair, Junior Harbeck, Alva Engel, Loren Tuttle, Lewis De Geneault, Jack Bearns, William Benjamin, Don Harmon, Lee Winetrot, Theodore Turner, Percy Booth, Dorrence Hershberger, Arletus Hershberger, Laud Barrell, Gerald Everton, Arthur Youngblood and James Sharp. Casey Bryan left today to join the party.

ROUMANIA LIVING COST HIGH

Attempt at Price Fixing Fails—New Legislation Tried

Bucharest, Aug. 13.—(A. P.)—Roumania is facing an exceptional problem in dealing with the high cost of living, which is unusual in an agricultural country, amply capable of supplying its own people and exporting large amounts of foodstuffs. It was hoped to solve this problem by two legislative measures, one fixing the prices of food products, and the other forbidding exports, by means of high duties which practically made exports impossible.

It is now announced by M. Garofid, former minister of agriculture, that the fixing of prices and the discouragement of exports have resulted in a more serious situation than existed before these measures were applied.

"Both the price-fixing and the practical prohibition of exports of food supplies needed at home have discouraged production to a notable extent," says the former minister of agriculture. "Roumania, formerly one of the world's wheat markets, has become a negligible quantity in wheat exportation. In addition, the amount of wheat available for home consumption has been diminished because of the fact that the prices fixed were, in some instances, less than the prices that would have afforded a reasonable margin of profit to producers."

New legislation is about to be submitted to parliament to deal with the admittedly grave question.

COOLIDGE TO MAKE MOVE FOR 1924 PRESIDENCY

Concord, N. H., Aug. 13.—(A. P.)—Senator Moses today declared that President Coolidge would be a candidate for the Republican presidential nomination in 1924 and ought to have the solid New England delegations.

GRASS WIDOW CAN'T WED UNLESS PARENTS AGREE

St. Clairsville, Ohio, Aug. 13.—(I. N. S.)—Hardly had Ohio's new law, decreeing that a woman must be 21 years old before she is legally of age, become effective a few days ago than Belmont County officials noted a peculiar result of its operation. A girl, who was married in 1921, at the age of 18, and who had obtained a divorce, applied for another marriage license. Because she is not yet 21 she was informed that she would have to obtain her parents' consent before the desired license could be issued.

STOLEN CAR IS RECOVERED

Maxwell Taken Thursday Night Is Found in Portland

The three men who took the new Maxwell automobile belonging to Chris Eismann Thursday night from the street in front of the Josephine hotel where he had parked it, are being held in Portland. Advices were received at the sheriff's office this morning stating that the Portland officers had captured the men and had the car. Deputy Ernest Lister will leave this evening for the north to bring back the three men.

Mr. Eismann had parked his car Thursday night on the street and did not notice until Friday morning that it had been taken. He immediately informed the sheriff's office and word was sent all over the coast to watch for the auto. The telegram received this morning stated that three men were taken with the car and are now in jail. They gave their names as George Russell, C. H. Eismann and Mr. Bechnell.

An attempt was made over the week end to steal one of the Ford cars belonging to the county but was not successful.

Mr. and Mrs. Charles Moore returned on Saturday from Klamath Falls, where they spent the past year or more.

GAS PRICE WAR IS SPREADING

Started in South Dakota and Taken Up in Other States

Chicago, Aug. 13.—(A. P.)—A gasoline price war which was started by South Dakota, has spread to several middle west states, forcing the prices down to a range of 11 cents to 22 1/2 cents in various places.

Portland, Aug. 13.—(A. P.)—

The State Automotive Trades Association today offered to co-operate fully with the governor if he moved for a gasoline price reduction. The companies said the price here is reasonable and no reduction is possible.

AMERICAN AGRICULTURE MUST SAVE UP AND REINVEST \$10,000,000,000 WITHIN 10 YEARS

Washington, Aug. 13.—(A. P.)—American agriculture, which has been turning out a capacity product with its physical equipment in a run-down condition, must within the next ten years save up and reinvest in the farm plant from \$8,000,000,000 to \$10,000,000,000 of new capital, according to economists of the Department of Agriculture, who say this is a conservative estimate.

"For three years farmers have patiently patched, mended, repaired and used makeshifts," an official report says. "Sometime in the coming decade the farm must have about the same replacement and renewal of productive plant that the railroads are now going through. Before 1933, three-fourths of the farm buildings will require new roofs and new paint. Probably a half-million new houses, barns and auxiliary buildings will have to be replaced and much new fence put up. Millions of new tile must be laid. The haying and harvest machinery will have to be re-

MOVE MADE TO AVERT STRIKE IN SEPTEMBER

GOVERNMENT ASKS COAL MEN AND MINERS TO MEET IMMEDIATELY

COMMISSION HANDLES MATTER

President Does Not Intend to Take Hand at Present Time—Would Start First of Month

Washington, Aug. 13.—(A. P.)—The government moved today to avert the anthracite coal strike on September 1st by inviting representatives of both operators and miners to confer with the coal commission immediately. A telegram conveying the invitation was sent by coal commission officials after a conference with President Coolidge. For the present, at least, the president desires to leave the situation in the commission's hands.

FIVE TRAINMEN ARE KILLED

Collision Near Pueblo Results in Many Deaths

Pueblo, Colo., Aug. 13.—(A. P.)—Five trainmen were killed in a head-on collision between the Colorado & Southern passenger train from Pueblo and the Santa Fe through train from the east at Fowler, Colo., early today. The former was detouring over the Santa Fe tracks via La Junta because of washouts at Walsenburg on the Colorado & Southern tracks.

RAILROAD MEN TO CONVENE

General Chairmen of Unions Will Gather in Chicago Next Month

Cleveland, Aug. 13.—(A. P.)—350 general chairmen of the Brotherhood of Locomotive Firemen and Enginemen are to convene in Chicago on September 6th to consider the inaugurating of a wage movement.

Chicago, Aug. 13.—(A. P.)—General chairmen of the Switchmen's Union were summoned to meet here on September 6th to consider wage questions.

CAMAS MAN SHOTS HIS WIFE

Had Been Drinking Several Weeks—Is Suicide After Assault

Camas, Wash., Aug. 13.—(A. P.)—Charles McAllister, 50, grocer, shot his wife in the side and killed himself early today. His wife may live. Officers said McAllister had been drinking continuously for several weeks.
