NO POSSIBILITY SEEN TO AMERICANIZE JAPS

Honolulu, T. H., Aug. 21.—There is no possibility of Americanizing the Japanese now in Hawaii who were born in Japan, and aliens who are ineligible to citizenship should be excluded from the islands in the future, according to opinions expressed here by Representative Charles F. Curry of California. Mr. Curry is chairman of the house committee on territories, and he has been investigating conditions in the islands for the last month.

Whose turn is it? Who is "next" at the Gulbransen? The folks can hardly wait—everyone from Grand-Dad down to little Mary wants to play that splendid Gulbransen!

It's so easy to play—it invites playing. It makes you want to pour out all the music that has been locked up in your soul for so many years and which your untrained fingers cannot express.

You may play a Gulbransen for half an hour—or half a day—and the thought of effort in connection with peddling never comes to mind. Because there is no effort.

This leaves you free to concentrate on better playing of the Gulbransen. The result is that within a few days, or a week at most, you can learn to play the Gulbransen, through the pedals, in such a way that the music cannot be distinguished from the finest hand-playing.

Gulbransen Instruction Rolls help you to understand and master this art of correct playing. They are simple, fascinating—show how to do things, through the pedals, that it would take years to learn by hand.

Among the Medford people in the city yesterday and today was Genevieve W. Curran.

12-volt Dodge, Franklin, Maxwell batteries at \$20. K St. at Sixth. James T. Chincock has spent several days in Portland attending to business matters.

Frank Carpenter, of Galice, was a business visitor in Grants Pass this morning.

Mrs. E. J. Brown, of Applegate, was a visitor in Grants Pass this morning on a shopping tour.

Printed butter wrappers for sale at the Courier office.

Mrs. Fred Dingler and Miss Ethel Dingler were among the Rogue River people who were shopping in Grants Pass this morning.

Men's suits thoroughly cleaned and pressed, \$1.50. Wardrobe Cleaners, phone 147. We call for and deliver. 794t

Among the Kerby people in the city yesterday were Mr. and Mrs. H. Bunt and Mr. and Mrs. C. W. Campbell.

Mr. and Mrs. William Chaffey and Mae Chaffey, of Arcata, Cal., were among the Monday visitors in Grants Pass.

Better get that battery while you can save half. K St., at Sixth. 71

Matthew Riddle and Miss Florence Riddle are spending several days in Eugene, having driven to the University city. They are expected to arrive home tonight.

We have one dozen batteries we will sell for cost, while they last. K St. at Sixth. 71

County Judge and Mrs. Eclus Pollock have returned from Bybee Springs where they have been spending several days. The judge reports only fair luck with the trout in Evans creek.

Mrs. John Twohy and children have left for their home at Hollywood after spending the past 10 days in the city as the guests of Mr. and Mrs. H. L. Wilson. They spent the summer at the Twohy ranch on the lower Rogue near Hell's Gate.

Picking will commence in Weston Hop Yard, 3 1/2 miles west of town, about Aug. 24. All custer hops—best picking; \$1.50 per hundred pounds. Phone 602-F-5. 71

Mr. and Mrs. A. M. Simmons, of San Francisco, and Mrs. Hotie and daughter of Sebastopol, Cal., are the guests of C. C. Hunt. They expect to return to their homes tomorrow. While in southern Oregon they spent several days at Diamond Lake.

Black cover paper at the Courier. Mrs. Philip Twohy and young daughter left today for Kelso, after a visit here with Mrs. Twohy's parents, Mr. and Mrs. H. L. Wilson, for several weeks. They were accompanied by Pierce Murphy, who visited at the Wilson home for several days.

Get a battery for your car while they last. \$12.00 to \$16.00. K St. at Sixth. 71

Legion and Auxiliary— Don't miss the meeting tomorrow night. 71

Fires Put Out— Although the thunder showers of Monday night were not widespread, they did some good in the sections that were visited. A fire burning near Three Pines Monday afternoon was threatening some lumber of the Josephine Lumber Company but the fire last night put out the blaze. Galice reported that the rain did not extend that far to the west while at the Canby ranch below town there was no moisture. The showers came from the southeast. Today the weather was again threatening.

1,000 Students Want to Work Way to Europe
New York.—More college undergraduates than ever before are planning this summer to earn themselves a vacation in Europe.

Transatlantic steamship lines, both passenger and freight, have received over 1,000 applications from college men for opportunities to work their way across the ocean, for study and pleasure.

Each season students have crossed on freighters as hostlers and cattle-tenders, but this year's unusual demand for menial tasks is attributed to a desire to see Europe stimulated by the stories told by returning travelers.

The French steamship lines with terminals in New York have approximately 400 applications on file from colleges in various parts of the country, and expect many more later.

Steamship agencies here point out that the professional sailor is given the preference when it comes to engaging as one of the crew, and only a serious shortage in seamen would permit of an opportunity of working as an able-bodied seaman.

All kinds of paper and cut to size you want—10c lb.

Schools Will Open—

Rural schools of the county, with few exceptions, will open for the term on September 10. Teachers for nearly all of the grades have been secured states Alice M. Bacon, county school superintendent.

Small Crawford Peaches— 25c per box. Bring your boxes. Tokay Heights, corner D and A Sts. Muchemore. 71

Married Here Monday— Samuel Martin Baker and Dorothy Violet Witbeck, both of Grants Pass, were married here Monday afternoon by Rev. Joseph Knotts. The ceremony was performed in the parlor of the Methodist Episcopal parsonage, the ring ceremony being used. They left immediately for Roseburg.

Merchants Lunch 50c— Josephine hotel, 12 to 1:30. 544t

Rainfall Was Light— The rainfall Monday night measured .16 inch although the downpour was extremely heavy while it lasted. The thunder storm came up at about 7 o'clock and the rain fell in a few minutes. The rain in August is not exceptional as the average for the month is .25 inch. For the past two years there has not been even a trace of moisture during the month.

Featuring Jo Jardee— Saturday night at Gold Hill. Jewel Orchestra. 75

Writes Best Article— A. E. Voorhies, publisher of the Grants Pass Courier, is credited with probably the best descriptive write-up of the Mount Hood climb in which members of the Oregon State Editorial association participated. Mr. Voorhies was one of the most enthusiastic of the climbers as well as the most helpful to the weaker ones. On the trip down he was out of the rope half the time looking after one or another who needed help and encouragement.—Oregon Exchanges.

Go to Couch's Pharmacy— For Developing and Printing. Prompt Service and good work. Free enlargement with \$3.00 worth of work. 521t

Hikers Stranded Here— Mrs. B. M. Bristol and her two young daughters, Peggy, 11, and Fay, 15, were found stranded here Monday night while hiking from Washington to California. They were given a place to sleep by acting Chief of Police Younger so that they would not be forced to stay out in the thunder shower that started early in the evening. Their story is that they went on some land in Washington that the husband owned but found it so heavily covered with debris that they were forced to leave. They started to hike back to Los Angeles.

When Better Automobiles— Are built Buick will build them. 71

Large Rattler Killed— Dr. J. D. Hullinger, of Clinton, Ia., brother-in-law of R. A. Holmes, who is visiting here, killed the biggest rattlesnake of the season Sunday, while on a fishing trip with Judge E. E. Kelly. The reptile had nine rattles and a button, and was slain by Dr. Hullinger, with a well aimed heave of a rock. The missile struck the snake in the back of the neck, breaking that organ. Dr. Hullinger has known Judge Kelly since he was four years old, and is well acquainted with all of his folks back in the corn-belt. The visitor also claims another record. He has fished for 18 hours in this vicinity without getting a bite.—Medford Mail-Tribune.

Open Air Dance— Gold Hill Pavilion Saturday, Aug. 25th. 75

Visits Oregon Caves— A. S. Dudley is spending the day at the Oregon Caves getting first-hand information regarding the resort. Mr. Dudley is secretary of the state chamber of commerce, taking that position recently, after having acted in the same capacity for the Sacramento Chamber of Commerce. He will return to Grants Pass tomorrow to look over the city and the irrigation district with a view of studying the conditions here and the resources available. Mr. Dudley stated that he was much interested in Josephine county. The local chamber expects some real activity through Mr. Dudley's interest in this part of Oregon. There is to be a meeting of the board of directors of the chamber tomorrow night to meet with Mr. Dudley.

Swimming Falls Off—

The Riverside park bathing beach had a deserted appearance today as the result of the cool weather. Although the water was 70 degrees, the swimmers refused to brave the clouds and frequent showers.

Hop Picking Starts—

Hop picking has started in the hopyards of the county and hundreds of pickers have gone into camp at the various places. The Christie yards started operations Monday, 200 having been signed to pick the crop there. Other places are taking hundreds of pickers and from now on, the yards will be scenes of great activity.

Tourist Traffic Holds Up—

Although there have been indications that tourist traffic was slowing down during the past week, the attendance at the Grants Pass auto camp has not dropped. Monday night there were 60 cars registered there, which is practically the same as the rest of the season. The free auto camp across Park street from the city camp reports an average nightly of from 30 to 40 cars, with 61 the night before.

Game Commission Coming—

Two members of the Oregon game and fish commission will be in Grants Pass tonight, accompanied by A. E. Burghdoff, state game warden. This news was received in a telegram today to the Josephine Sportsmen's association. A number of local sportsmen are planning to meet with the officials when they arrive, although the time of their arrival was not given in the telegram. Commissioners Doris and Clifford are in the party. It has not been decided what will be discussed with the commissioners.

Pirate Visits City—

As official representative of the Pirates of Coos Bay, B. S. Fisher visited the Cavemen Monday night bringing with him a letter of invitation to be in Coos Bay on September 3, which date has been set upon as agreeable to both organizations. Plans are already well under way for the trip to the coast, with present indications that the local club will go about 100 per cent. Mr. Fisher, who is song mate for the Pirates, stated that there is much interest in his section over the coming event and that an admission of \$1 will be charged to get into the auditorium where it is to be held. There will be a band concert and dance as well as the installation ceremonies.

Quarry Soon Running—

The limestone quarry of the Beaver Portland Cement company at Marble Mountain will soon see active work started on getting out the rock for the plant at Gold Hill. The officials of the company state that they expect to start their crusher on Friday, which will mark the completion of the project. The Friday run will be for a test and if this proves successful, the plant will immediately start up in earnest. Six cars of rock will go to the Gold Hill plant every day, the plant now being shut down for repairs. The limestone in the Gold Hill quarry ran out several weeks ago and the plant has been idle since that time. It was necessary to construct a railroad four miles long to reach the Marble Mountain deposit.

LEAGUE OF NATIONS HAS BIG POSTAGE BILL

Geneva, Aug. 21.—(A. P.)—The recent movement aiming at the reduction of the running expenses of the league of nations, especially the salaries, probably will not concern itself with the league's postal charges, which form a considerable item.

The league of nations is undoubtedly one of the biggest mailers in the world. With 52 nations affiliated, and with each kept constantly informed of league activities and furnished regularly with copies of all League reports, the league's mail bag assumes almost incredible proportions. In addition, voluminous reports on multitudinous matters interesting the league stream in from all quarters of the globe, forming a storehouse of useful data. All this is mimeographed and distributed among the members regularly. Thus, the full reports of the opium meetings, in which Americans took such a prominent part, have just been circulated to all members for their information, so that countries will be enabled intelligently to prepare their action on the opium question at the next assembly in September.

By international machinery which whirls unceasingly, with Geneva as its pivot, there has been established a vast clearing house of useful intelligence on a great variety of international problems whose range is constantly increasing. Governments, foreign organizations and individuals in many lands are constantly writing to the secretariat requesting information on a thousand and one matters which touch the whole garment of human activity.

Special agents of the league are constantly in the field pursuing special investigations. Professor Zinner, for example, of Harvard University, is now making exhaustive inquiries into health conditions in Russia. Dr. Nansen has recently submitted a report on the work accom-
