Cloudy tonight and Thursday.
Rain in west portion.

THE CHAMBER OF COMMERCE

Next Friday the Chamber of Commerce starts its annual drive for funds to carry out its plans for the coming year. The money will be used as provided in the budget which is to be discussed tomorrow night at the meeting of the Chamber. The Chamber has but one way to raise the necessary funds and that is through solicitation among the merchants of the city, who will profit, directly by increased prosperity in the community.

There are few who do not realize the necessity for the aiding of the Chamber of Commerce in its work. It is the central agency through which the efforts of the community can be focused for it has the support of practically every business man in the city and county. During the past year the organization has been instrumental in spreading much advertising in regard to southern Oregon, with especial emphasis on our own county. The plans for the coming year include projects for the direct betterment of this county. The Chamber needs your help and you need the Chamber's help. The community and the Chamber are directly dependent upon each other. Don't fail it!

DAILY NEWS LETTER

Gossip of Staff Correspondents at World Centers of Population

Paris, Nov. 21.—(I. N. S.)—Frogs fell mysteriously from the skies during a recent violent thunderstorm at Osenes, in the Ardennes. When the sky cleared hundreds of frogs were jumping about in the streets and hopping into the houses, where the housewives chopped off their legs and popped them into the frying pan. It was a "big day" for the inhabitants of Osenes. As a matter of fact the "French froggies," as the soldiers named them, know little of the delights of this rare delicacy. High prices put them out of reach and the American is about the only one who can enjoy frogs' legs in a Paris restaurant.

Bread prices continue to go up and down like a barometer. When flour goes up the bakers insist upon higher prices for their bread. They want to make the price automatically variable with the rates for flour, but their request has been refused, at least for the moment. One may think that a matter of one "sou" or two on a two-pound loaf is a little thing to haggle over, but the thrifty French housewife who has many mouths to feed knows that the extra sou soon make a franc or two. For bread is really the staff of life for every Frenchman and France without bread would mean a revolution.

Speaking about high prices, they have brought about a curious change of customs. Instead of flowers it is now quite the fashion to send a basket of luscious fruit to the "star"

at her first performance. Fruits in season or those out are always desired and infinitely more useful than the loveliest flowers, which fade within too short a time.

Regular courses of eyebrow training are being started in Paris for women who wish to take the curve from their eyebrows. The style now calls for straight ones, according to the chic coiffeurs. They must follow in the footsteps of the slim silhouette and plucked to make a thin straight line.

The first attempt at a kind of Women Students' Dormitory has just been completed in the old Latin Quarter. Women students attending the Paris university and other colleges are less fortunate than American girls, who have pleasant houses on the campus to live in. French girls have rooms here and there near the schools and take their meals in cheap restaurants nearby. This means that there is little of the jolly dormitory life which all girls remember. The new building is expected to help fill in this gap and is reserved exclusively for women registered in Paris schools. The rooms are fresh and light with new clean furnishings. There is a restaurant which offers well-cooked food at a minimum price, and on top of all is a delightful terrace-promenoir with gardens and lounges overlooking a quaint section of the students' quarters.

COOK FOUND GUILTY OF FRAUD

(Continued from Page One.)

20,000 feet above the sea level. The expedition failed but in 1906 he financed another and this time he claimed to have been successful.

It was three years later that he announced his claim to have reached the North Pole.

Dr. Cook has written voluminously for magazines along the lines of ethnology, anthropology, geography and other sciences from his observations in the Arctic and Antarctic. He was the author of several books, including "Through the First Antarctic Night." In 1913 and 1914 he lectured in this country and in England, but led a life of comparative retirement until he came to Fort Worth in 1919, and went into the oil business.

DOCK AND COAL BUNKERS ARE LOST IN FIRE

DAMAGE ESTIMATED AT ABOUT \$100,000 AT PORTLAND EARLY TODAY

ESTACADA HAS BAD BLAZE

Town 30 Miles From Portland Loses Seven Business Houses—Others Are Damaged

Portland, Ore., Nov. 21.—(A. P.)—A loss estimated at about \$100,000 resulted from a fire which early today destroyed the Pacific Coast Coal Company's main dock and bunkers. The flames for a while threatened to play havoc along the north waterfront.

Portland, Ore., Nov. 21.—(A. P.)—Seven business houses were destroyed and four others damaged by a fire which swept three-quarters of a block at Estacada, 30 miles east of here early today. The entire town was threatened for an hour because the water system failed, but the fire fighters gained control after two hours. The first started in a pharmacy from an undetermined cause. An early estimate of the damage was \$40,000.

La Grande, Nov. 21.—(A. P.)—Fire early today destroyed the lumber cold storage plant, owned by Clay Fox, and the contents, 50,000 boxes of apples owned by 12 fruit men. Approximately, the loss is \$75,000, partly covered by insurance. Defective wiring is believed to have been the cause.

DODGE BROTHERS BUSINESS SEDAN

Recent improvements in the appearance and equipment of this Sedan adapt it, more perfectly than ever, to family as well as business use.

The body is swung lower to the road. A transmission lock, knob-grip steering wheel, a combination stop signal and tail lamp, and other details have been added. Important chassis improvements have been made.

Most important of all, perhaps, new spring equipment throughout has resulted in a degree of riding comfort which can only be characterized as revolutionary.
