If Rheumatic Eat No Sweets

Says Glass of Salts Helps to Overcome Rheumatism Acid.

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly, keep the feet dry, avoid exposure, and above all, drink plenty of good water and avoid eating sweets of all kind.

Rheumatism is caused by body waste and acids resulting from food fermentation. It is the function of the kidneys to filter this poison from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this waste and acids, which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain, called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is helpful to neutralize acidity, remove waste matter, also to stimulate the kidneys, thus often ridding the blood of rheumatic poison. Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism.

Eskimos Sing to Jury.

An odd method of settling lawsuits is practiced by some of the remoter tribes of Eskimos.

When two natives wish to settle a dispute each collects his family and friends to assist him, says the Detroit Free Press. The parties meet at an agreed time in the biggest hut in the village and proceed to sing literally at each other.

The plaintiff's party chant a series of rough verses insulting the defendant and everything that is his. Then comes the rival party's turn, and for the next hour or so they are allowed to sing at their enemy, putting their insults into some sort of meter.

The old men of the village act as judge and jury, and the verdict is given to the side which, in the opinion of the aged experts, has compressed the largest amount of insult into the best verse and the most noise.

Watershed Is Changing.

A curious result of a study of the Blue Ridge mountains in North Carolina and Virginia, says the Detroit News, is the showing that the Atlantic is slowly gaining some of the waters that have hitherto flowed toward the Mississippi.

This arises from the fact that the Blue Ridge, instead of being a crest with strong slopes on each side, is an escarpment separating a mountainous upland on the southeast, and the high-level headwaters of the streams that flow toward the Mississippi are continually losing length by the retreat of the escarpment, through the retrogressive erosion of the low-level headwaters of the Atlantic-seeking streams.

How He Knew.

Messrs. Wilkins and Walker were horse experts of a New England town, and frequently met to exchange ideas. On one occasion Mr. Walker complimented Mr. WILKINS in high terms with reference to the former's successful manipulation of a horse trade. "Well," admitted Mr. Wilkins, "I must say I didn't do so badly, but in this case, how can you say I got the better of the deal when you haven't seen the horse I got?" "I saw the horse you had," was Mr. Walker's laconic response.

Can't Be Bath.

To possess the reputation of being a worthy man one must not possess the reputation of being a worthy man.

One Road to Peace.

When there are no war profits, there will be fewer prophets of war.
