CHARTER TO BE PRESENTED

Local Rotarians Will Be Visited by Miles Higley, District Governor

Wednesday, May 7, has been selected by Miles Higley, governor of the first district, as the date for the presentation of charter to the newly organized Rotary club of Grants Pass, and it is probable that on that date Grants Pass will be visited by 100 to 150 Rotarians of Oregon to witness the ceremony. The meeting will be held in the evening and the Medford Rotary club, sponsors for the local club, will furnish the program for the evening.

At the noon luncheon today Russell W. Clarke, delegate to the district convention at Spokane, gave an interesting report of the meetings and John Douglas made a short talk on one section of the Rotary constitution.

FIRE AT DR. WALKER HOME

Stubborn Blaze Causes \$5000 Fire and Water Damage

The Dr. W. W. Walker home at Evelyn and Fourth streets was ruined this afternoon by a fire which originated on the second floor, probably from a defective flue. Mrs. Walker had built a fire in a little used stove on the second floor a short time before.

The fire department worked with chemical and water but the blaze had gained headway between the ceiling and roof and was very stubborn. The actual fire damage was confined to the roof and second floor but the water damage is great, the entire building having been necessarily flooded. Much of the furniture and furnishings from the first floor were removed, with some breakage. The loss will approximate about \$5000.

CAID OF THANKS

To all those who sent such beautiful flowers, and to those who assisted so tenderly before and during the funeral services of our mother, we extend our most heartfelt thanks.

Mr. and Mrs. E. H. Wise.
Helen Wise.

PERSONAL AND LOCAL

Mrs. Ed Burke and Miss Edda Burke were among the recent visitors in the city.

Miss Aileen Reddy, of Medford, is visiting here this evening with Mrs. Katherine Cole.

Optical goods at Letcher & Son's.
Miss Philippine Sauer will leave this evening for Philadelphia, where she expects to remain.

J. L. Wallace, of Salem, is spending the day here attending to business matters.

See Dr. Marks for best glasses, if.
J. T. Logan and A. B. Cornell made a business trip this morning to the road contract on the Redwood highway in which Mr. Logan is interested.

Mrs. W. E. Loy and small daughter, Ruth, of Dunsmuir, are visiting here with Mrs. Loy's brother, Fred Moore, and wife. They will also visit relatives at Sutherlin and Salem before returning to their home.

Glasses fitted at Letcher & Son's.
G. O. Toft returned today from Yoncalla, where he has been spending the past week. Mr. Linbarger will leave for the northern town tonight to look after their interests there.

George W. McCollum and family, of Klamath Falls, were in the city today while Mr. McCollum was attending to business matters. Mr. McCollum, formerly a resident of Grants Pass, is now engaged in the sawmill business near Keno. He has already cut nearly a million feet of lumber this season.

Funeral on Friday
Funeral services for Frank South will be held next Friday afternoon at 2 o'clock, Rev. F. Gordon Hart officiating. The services will be held at Hall's chapel. The members of the Chamber of Commerce, in which organization Mr. South was an active worker, are urged to attend the services. Pall bearers will be chosen from among the Cavemen, an organization to which Mr. South gave his ardent support. Interment will be at the I. O. O. F. cemetery.

HARRY K. THAW IS SANE
Jury Late Last Night Hands in Verdict—May Have Retrial

Philadelphia, April 23.—Harry K. Thaw was declared sane last night by the jury that had been hearing testimony to determine his mental condition. The jury declared him fully capable of looking after his estate.

The jury deliberated seven hours. William A. Gray, counsel for Evelyn Nesbit, divorced wife of Thaw, said that a motion probably would be filed for a retrial of the case.

Thaw was not in court when the verdict was announced.

After having been declared sane by a jury in common pleas court last night, Harry K. Thaw later was released on bond from the Pennsylvania hospital for mental and nervous diseases pending final disposition of the case. Judge John Monaghan permitted Thaw to sign his own bond which gave him complete freedom for the first time in seven years.

Thaw received the news at the Ritz-Carlton hotel, where he had taken dinner with his mother. He declined to receive newspaper men but said he might have a statement later regarding his plans.

Rest of Equipment Burned
The remainder of the equipment at the still raided early yesterday morning by the sheriff's office was destroyed yesterday afternoon by Deputy Lister. He found 20 gallons of oil and poured this over the stuff that could not be saved, setting fire to the pile. Mash and other necessary parts of a modern moonshine outfit were destroyed.

Rogue Valley Creamery for milk, Phone 84.

Funeral Services Tomorrow
Funeral services for Mrs. Alice Laura Pratt, wife of Walter Pratt, who died early Monday morning, will be held at Hall's chapel tomorrow afternoon at 2 p. m. Rev. D. Lester Fields will have charge of the services. Interment will be at the Granite Hill cemetery. She was born in Wisconsin, being 31 years, one month and 19 days of age at the time of her death.

Nellie Shattuck Arrested
The sheriff's office today placed Nellie Shattuck, who resides on the Redwood highway about six miles from town, under arrest. She was charged with the possession of intoxicating liquor. Some time ago her home was raided and the officers secured several bottles of "home brew." A sample was tested and was found to be 6 per cent. As this is above the one-half of one per cent allowed, her arrest followed. She was released pending her hearing which will probably be tomorrow.

Tourists Not Stopping
The early season tourists are not stopping at the Grants Pass auto camp in very great numbers, only two registering there last night. Joe Ferguson, camp superintendent, states that the quarantine for the foot and mouth disease in California is having a telling effect. Another reason for the few tourists is that most of them spend the night at Dunsmuir and then go on to Roseburg for the night, that being the regular jump. Eighteen cars were registered at the Chamber of Commerce yesterday, however.

Medford-Grants Pass-Roseburg
Freight line, twice a week, Mondays and Thursdays. Phone 18-J. 11

Car Is Attached
The Buick sport model automobile owned by Dr. E. J. Billiek and left in the Smith garage here has been attached by the bondsmen to cover the amount posted by them, provided the doctor does not show up for his hearing before the grand jury. It is stated that he had a camp outfit when he left and the theory has been advanced that he has gone into the mountains for several weeks until the matter has quieted down and will then return to face the grand jury. The sheriff's office, to make certain, sent out telegrams to hold him if he is located.

When Lotteries Were Lawful.
In the Eighteenth century lotteries were extremely popular in America. Legislatures authorized them for every species of public improvement for the building of churches and colleges, for the repair of losses to individuals by fire and otherwise; for example, Faneuil hall, after the fire of 1791, was rebuilt by lottery. The Continental congress tried to raise money by lottery in 1777.

KILLS SELF, SHOTS TEACHER WHO HAD PUNISHED HIM

Bergamo, Italy, April 23.—(U. S. S.)—Irritated by punishment inflicted upon him by Professor Mariano, Mario Riva, 17, waited in a side street and fired two shots at the professor and then committed suicide. Professor Mariano was only slightly injured. He explained that Riva had been suspended for writing unbecoming words on the text of a composition. Riva left a letter stating that he had been falsely accused and imploring his mother to forgive him.

TWENTY-FIVE ARE TAKING CAMP COOKERY COURSE

Eugene, Ore., April 23.—(A. P.)—A class of 25 men and women students at the University of Oregon is taking a course of cooking as simplified and adapted for camping, under the direction of Miss Lillian Pingle, head of the household arts department at the institution.

The course is given only at the spring term and is primarily for students of geology, although students in physical education and forestry also are taking it.

COMING EVENTS

May 1, Thursday—May breakfast by Womens Association of Bethany Presbyterian Church.

May 2, Friday—May Day exercises at City Park.

May 6, Thursday—Better Music Week Concert.

May 16, Friday—Primary Election.

The Ideal Radio Set for Hikers
Henry Farkoul, a Brooklyn amateur, is the designer and builder of a novel radio set that should prove ideal for the

hiker. It is a three-tube receiver, operating on small batteries and is complete in all details. The instruments are fastened to a canvas-web belt, and each tube has its own rheostat; a potentiometer is also provided. The set has sufficient power to operate a loud speaker, and it is said that stations as far away as Chicago have been heard on it. The antenna consists of fine wire sewn between two canvas sheets so that it may be carried under the shirt, or in a pocket.

Monkey's Bites Test Money
Owing to the spread of counterfeit coins in Siam, monkeys are being employed in the banks to test the spurious currency, it is reported. Installed behind the counters, the monkeys test the coins between their teeth. If good, no marks are left on the metal, and the coins are thrown into a box at the animal's side. Should the coins be bad, the metal bears visible marks and is thrown on the floor, later to be swept up and destroyed.

Strange Animal Being Sought in Heart of Jungle
Deep in the depths of East African jungles, the "Nandi bear," depicted by natives as a ferocious species of man-eating hyena with striped skin, is being sought by scientists. The tales of frightened villagers and fragmentary reports from hunters indicate that the animal is taller and much more powerful than the ordinary hyena. In the last ten years, extensive explorations have resulted in the discovery of many new animals, among which the okapi, a large zebra-like creature, is regarded as the most important. Smaller animals are constantly being found and the old Roman adage, "Out of Africa, always something new," is almost daily proved true. Scientists believe, however, that there are few of the larger species that have escaped identification.

Auto Death in U. S. Every Thirty-Five Minutes
Every time the clock recorded thirty-five minutes during the last year, a person was killed on the highways of the country, and each minute, approximately three persons were injured, delegates to the convention of the American road builders were told. In twelve months highway accidents claimed a total of 15,000 lives and caused 1,700,000 injuries, according to the figures given. Uniform traffic regulations, established by all states, strict enforcement of these laws, systematic maintenance of roads and safety education in schools were urged to curb the ever mounting number of fatalities.

Cottage Built on Auto Gives Tourists Home Comforts
Fitted upon the chassis of a small touring car, a miniature cottage supplies an Iowa contractor, his wife, and two children with luxurious quarters while on motor tours. Electric lighted throughout, the house provides ample protection from dust and rain, there is space for a cradle for the baby and other comforts of home. The front window in the roof gives the driver a full view of the road ahead and glass in the rear makes it possible to see behind. Entrance is provided by a side door and one at the rear. The radiator fills the screened-in "porch" which has one side on hinges so that the engine can be reached easily. The cottage weighs but little more than the enclosed body of standard type and proves an effective advertising device.

Radio Beacon Guides Aviator on Hundred-Mile Flight
Guided only by signals spoken over a radio beacon, an aviator recently flew from Dayton, Ohio, to a point one hundred miles distant, arriving there without mishap and without losing his course at any point. In his receiver he heard the letters A and T (— —) repeated over and over. As he flew along the correct course, both letters were equally loud, but the moment he got off the course to one side or the other, one letter became noticeably louder than the other and showed him which way to turn to get back.
