THOUSANDS HAVE "TOBACCO STOMACH"

The excessive use of tobacco is one of the most common causes of indigestion and stomach inflammation. Whether you smoke or chew makes little difference. The highly irritating juice of the weed swallowed with the saliva, often setting up an acute inflammation of the stomach which may end in gastritis or chronic stomach inflammation.

"Tobacco stomach" produces a number of distressing symptoms—first, a loss of appetite, then an occasional attack of indigestion. Perhaps your food sours at times and you notice a peculiar burning in the stomach. These attacks occur with greater frequency as time goes on. Finally, if neglected, the condition becomes chronic, resulting in loss of flesh and general poor health.

Smith Bros.' M. A. C. Stomach Tonic has proven wonderfully successful in all forms of digestive trouble. It is sold on a positive, binding guarantee of money back if the first bottle fails to relieve stomach inflammation or dyspepsia. The very first dose should convince. Nothing on earth like it. You can get a large bottle for \$1.25. Couch's Drug Store will supply you. (Mail orders accepted.)

NOTICE TO CONTRACTORS

Sealed proposals for constructing three bridges on the Waldo-State Line and State Line-Elk Creek sections of the Grants Pass-Crescent City National Forest Road project located within or partly within the Sitka National Forest, States of Oregon and California, Counties of Josephine and Del Norte will be received by the District Engineer, Bureau of Public Roads, U. S. Department of Agriculture, at 216 New Postoffice Building, Portland, Oregon, until 9 o'clock A. M. on the 4th day of June, 1924, at which time and place they will be publicly opened and read. The right is reserved to reject any and all bids, and none will be considered except those from contractors ascertained to be experienced and responsible. The project to be constructed consists of 3 bridges and the principal items of work are approximately as follows:

600 Cubic Yards Concrete, 22,000 Pounds Reinforcing Steel, 196,500 Pounds Structural Steel, 1,000 Cu. Yds. Embankment, 600 Cu. Yds. Excavation.

The contract form and the maps, plans, specifications, and estimates of quantities may be examined by responsible contractors at Room 316 Postoffice Building, Portland, Oregon, Bureau of Public Roads, Bay Building, San Francisco, California, and at the office of the Forest Supervisor, Grants Pass, Oregon.

Plans and specifications will be furnished by Bureau of Public Roads, Portland, Oregon, to contractors who contemplate bidding upon deposit of a check for \$10.00 payable to the Secretary of Agriculture of the United States. Check will be held pending return of plans and specifications.

All proposals must be made on forms, and in accordance with instructions, forming a part of the specifications above referred to, and must be accompanied by a proposal guaranty in an amount at least equal to five (5) per cent of the total amount of the proposal.

C. H. PURCELL, District Engineer, 102

Be There

WHAT MY NEIGHBOR SAYS

When one has had the misfortune to suffer from backache, headaches, dizziness, urinary disorders and other kidney ills—and has found relief from all sickness and suffering, that person's advice is of untold value to friends and neighbors. The following case is only one of many thousands, but it is that of a Grants Pass resident. Who could ask for a better example?

Mrs. J. Boesch, 209 Foundry St., says: "I can't speak too highly in praise of Doan's Pills for I have never found anything their equal for backache and kidney trouble. Since taking Doan's I haven't been bothered with my back or kidneys." "FOUR YEARS LATER" Mrs. Boesch said: "I have had no return of kidney trouble and always recommend Doan's to anyone."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Boesch had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

VOLT TELLS OF MANY HIGHWAYS OF OREGON

The May issue of the Volt, the official publication of the California Oregon Power company, promises to be one of the most popular numbers of the year. The entire issue is devoted to a splendid article on "The Highway Situation" which covers the subject of our highways in a very comprehensive manner. The article is replete with many interesting facts and figures and not only deals with the present situation but outlines briefly the program for the year 1924.

Of particular interest to those who plan a vacation motor trip south this season is a statement of the California Highway Commission concerning the condition of the Pacific Highway between Redding and the Oregon line. In this connection, Harvey M. Toy, Chairman of the California commission states as follows:

"Despite this heavy program of construction, our engineers assure us traffic conditions, generally speaking, will be better than ever before." This is indeed welcome news to those who have had to traverse this particular section of highway during the past year.

Regarding the Oregon Highway situation both past and present The Volt has to say as follows:

"Since Oregon's present form of highway commission was established in 1917, the State Highway Department has made expenditures of approximately sixty-six million dollars, according to advices from the office of Roy A. Klein, state highway engineer and secretary of the commission. During the period covered, we learn from this source, there has been constructed five hundred and seventy miles of bituminous pavement, one hundred and fifty-five miles of concrete pavement, seventeen hundred and ten miles of broken stone and gravel surfacing, and nineteen hundred and fifty-five miles of standard graded roadbed.

At the present time the following highways have reached a point when they may be considered as virtually completed, or contracts are under way which will bring them to that stage: the Pacific Highway, the Columbia River, Old Oregon Trail, West Side, Mount Hood Loop, McMinnville - Tillamook, Corvallis-Newport, McKinzie, Ashland-Klamath Falls, Medford-Crater Lake, Sherman, Oregon-Washington and La Grande - Wallowa Lake. The greatest volume of work now under way is being done on the Roosevelt-Coast, John Day and the Dalles-California Highways. Completion of the latter three is a matter of years, but satisfactory progress is being attained, and each year finds them much nearer the goal of final completion."

The entire article is illustrated with a series of excellent photographs which do much toward telling the story of the scenic beauties of this country and which will aid greatly in attracting tourist travel. An excellent highway map which occupies a prominent place in this issue will no doubt prove popular with the tourist as well as with all who reside within the territory covered by the map.

A good picture from the Oregon Caves is featured along with the following write-up which is of interest to local people: "One of the countless amazing formations to be seen in the Oregon Caves, which are in Josephine county, Southern Oregon is depicted on the left. An automobile road leads right up to the entrances of these caves, where a resort and government camp are maintained."

It is predicted that this highway number will be particularly popular throughout the Copco territory and that thousands of extra copies will be required to supply the unprecedented demand for this unusual issue.

Famous Chamber Music Group Feature of Chautauqua Program

"The headliner of any Chautauqua program" is what the late President Harding's paper, the Marton (O.) "Star" said of the Vernon Symphonic Quintet which Paul V. Vernon will bring to Chautauqua on the third day.

Music produced by stringed instruments has always had strange power over the human race. In chamber music, ensemble playing by stringed instruments, it is particularly appealing. The instrumentation of the Vernons consists of two violins, viola d'amore, cello and piano. The viola d'amore is a rare instrument which was in vogue during medieval days before the violin came into popularity. It has fourteen strings, seven of which give sympathetic vibrations as the others are played with the bow.

Mr. Vernon's personal "chats" between numbers are unusually enjoyable, as he fully explains the compositions and their significance.

At Grants Pass Chautauqua afternoon and evening, June 4th

Booklet Is Out—

Descriptive of the vacation charms of Western Oregon and the beach resorts of the state, a new folder, "Oregon Outdoors," has just been issued by the Southern Pacific railway. A total of 30,000 copies was printed for the first issue, and these will be sent to all parts of the United States and Canada. Hotel accommodations, rates and service at all the western Oregon resorts are listed in the booklet.

Cavemen Carnival Gets Fame—

What purports to be a wire from Jack Keefe, famous big leaguer managed by Ring Lardner, states that the fame of the second annual carnival to be staged by the Oregon Cavemen, Inc., has now reached the east coast, and that a letter is following, setting out his willingness to be on hand if he can be officially made a Caveman. The Cavemen are awaiting the letter before taking action.

AMUSEMENTS

MILO'S ALL WHITE MINSTRELS COMING TO TOWN TOMORROW

Milo's "All White" Minstrels after a successful season in the Northwest will appear at the Rivoli theatre at popular prices.

Milo is supported by Eddie Ellis, who is a blackface comedian with a bass voice seldom heard in a minstrel show and a company of eight clever artists. With plenty of singing, a lot of good music and dancing and story telling, Milo and his minstrel show are making their eighth annual trip. Minstrels always consist of singing, dancing and story telling, but it is seldom that we hear as much good music and see the beautiful costumes that this attraction has. Featuring an orchestra of seven pieces and a band of eight, and up-to-date review of minstrelsy and musical comedy, combining singing and dancing, pep and refinement.

A little jazz, a lot of class and a

laugh every minute. Some of the individual features are: Olive Milo, who plays cornet and piano at the same time. Maxine, saxophone soloist and eccentric violinist and Olive Ellis in classic dance and funny stories will prove to you that this show is real entertainment. 61
