- \$1 \$1 \$1 \$1 \$1 \$1 \$1 \$1

CAR LICENSES SHOW BIG GAIN PRESENT YEAR

During the month of May, said Sam A. Koser, secretary of state, today in a statement from his department, there were 6,551 passenger cars, 896 trucks, 194 motorcycles, 20 motor vehicle dealers, 981 chauffeurs and 5,360 motor vehicle operators licensed from which the fees aggregated \$211,907.59. During the corresponding months in the year 1923 there were 7,099 passenger cars, 675 trucks, 297 motorcycles, 20 motor vehicle dealers, 1,028 chauffeurs and 5,419 motor vehicle operators licensed, the total fees therefrom being \$226,421.50. These figures show a slight falling off in the month of May, 1924, from May, 1923, registrations as well as in the aggregate fees received. However, the total registrations up to May 31, 1924, show 26,549 more passenger cars registered than during the corresponding period in the year 1923; also, an excess of 1,627 motor trucks making total motor vehicle registrations of May 31, 1924, of 28,176 more than during the same period of the year 1923. The aggregate of the fees from the activities in connection with the licensing of motor vehicles thus far during the year 1924 show receipts of \$719,575.53 in excess of those during 1923. So far for 1924 license fees aggregating \$4,251,304.55 have been received as against \$3,531,729.00 during the same period of 1923.

Taking into consideration the fact that the sales of motor vehicles thus far during 1924 have not been as great as during the corresponding period of 1923, yet, in view of the activities in motor vehicle registrations during the last half of 1923, we can safely estimate a total of 190,000 motor car registrations during 1924, from which the license fees should aggregate well onto \$4,750,000.00.

The moneys received from the gasoline tax and the motor vehicle license fees are all transferred to the State Highway fund with the exception of such sums as are necessary in the administration of the motor vehicle laws which is not in excess of 4 per cent of the total fees. This expense includes the cost of plates, the maintenance of the traffic force appointed by the Secretary of State, the registration of motor vehicle operators, and all the work incident to the various provisions of the motor vehicle law.

Assuming that the gasoline tax will return during the year \$2,750,000.00, and the net receipts from motor vehicle licenses will be \$4,600,000.00, there will be a total of \$7,350,000.00 available from such sources for the State Highway Fund, out of which there must first be paid the bonded obligation falling due during the year not in excess of \$2,200,000.00. This leaves substantially \$5,000,000.00 for the general maintenance and upkeep of the highways and for such further road extension and improvements as are contemplated by the State Highway Commission in carrying out the general road program of the state.

\$1 Dollar Day Specials \$1

- One lot of 10-inch disc TALKING MACHINE RECORDS \$1
 - Including Victor, Brunswick, Columbia, Gennett, Vocalion. Regular 75c numbers. No records played, 2 for

GRANTS PASS DOLLAR DAY—WEDNESDAY, JUNE 18

GRANTS PASS DOLLAR DAY—WEDNESDAY, JUNE 18

A Successful Cooperative

WHAT IT MEANS

To the Community

Every prosperous community in any agricultural district has a successful cooperative operating within that community.

Communities have recognized the value of cooperative endeavor on the part of farmers, because without these cooperatives the community would not make the progress that it does with them.

Every live community wants to develop its resources to the utmost. The greatest resource of this county is its agricultural possibilities. Here lies the easiest and most natural road to development of the community.

With the building up of a city, farm values enhance in value in its vicinity. It is also true that with the building up of a farming district, that the city property grows more valuable.

It is not a difficult task to build a city by building up the outside farming district. This has been the rule in California and it has been successful as we all know.

It can be successful here.

To the Farmer

Cooperation among those engaged in agricultural pursuits is not new. Cooperation can solve the farmers economic problems more readily than any other method.

All cooperatives are organized for the financial betterment of its members.

This cooperative has served you well.

It has already effected great savings for the farmers of this district. Its service to the farmers of this section in the matter of fertilizers and seeds alone, has proven its worth to the agricultural interests of this section.

It can render further assistance. It is willing. But it must have support. The only place that it can look for consistent and continued support, is from the farmers.

To prosper it must have the continued and loyal support of the farmers. With that assured its course is comparatively easy.

The way to cooperate is to cooperate.

To the Businessman

With the prosperity of its patrons depends the prosperity of a business house. Businessmen in many cities have learned to realize that the successful cooperative agricultural associations, especially the marketing associations, are helpful to every line of business in the community.

Our association is now striving to perfect a marketing system whereby the products of this section can be profitably marketed by the producers.

The stage is set. Every element essential to success is here. Only a strong cooperative is needed. This will spell prosperity for the farmers, with its consequent reflected prosperity to the business life of the community.

Farmers' problems, such as production, insect and disease control have been satisfactorily solved for the producer. The most difficult problem remaining unsolved being the marketing problem. The proper solution of this problem can best be done by a local cooperative.

America's Ace

Helen Wills, 18-year-old California wonder-girl; modest, sweet and typifying all that is best in American womanhood, is picked by all to win the Olympic championship at Paris and also the English title in national play.
