tion tonight and Sunday.

DOLLAR DAY WEDNESDAY

Dollar Day is to be held on Wed-
nesday, July 18, and a better ex-
ample of cooperation on the part of
the citizens of any city cannot be
found. Instead of each endeavoring
to hold a special sale of his own,
the merchants have gone together to
hold one big bargain day in which
all could participate. By working
together they are able to create more
interest than by each trying to put
something over on his neighbor.

The day promises to be a big one
for the patrons of the stores. While
extensive advertising is being done,
it is being done at a minimum cost
to each merchant for each bears
only a small part of the expense.
They are therefore able to offer more
real bargains than would be possible
if each had a huge advertising cost
to be met.

The merchants want to show that
there are real bargains in local stores
for their patrons. Many who pa-
tronize mail order houses will be
surprised to find better goods at
lower prices or at least equal to
those in the catalogues. It is worth
an investigation.

Trading at home is a good policy.
It leaves money in the city which
would otherwise be sent to some
large outside concern. Taxes and
wages must be paid. Contributions
to local enterprises must be made
and these cannot be made unless
they receive the support of the pub-
lic. Wednesday will be a good
time for the merchants and the peo-
ple of the community to get ac-
quainted.

Monday is school election day.
Two directors are to be elected. The
school budget is to be voted upon.
Education is the most vital consid-
eration in American life today. There
has been a noticeable increase in in-
terest in the school affairs in the
past few years. The same issues are
alive today as in past years, which
make it imperative that every citizen
exercise his voting privilege on that
day.

Normally 400,000 houses are built
annually in the United States.

America uses two-fifths of the to-
tal world consumption of wood.

Canada's 1923 fire losses showed
a decrease under those of 1922.

There are about 2,000,000 sheep
in Oregon.

**CLUB MEMBERS ARE
TAKEN TO CORVALLIS**

Twenty-three boys and girls, club
members from Josephine county, will
represent their various clubs at the
two weeks summer session to be held
at Corvallis, starting next Monday.
These members will leave early Sun-
day morning and will drive by auto-
mobile to Corvallis. They represent
nine different clubs and they will
upon their return, make an extended
report to the other club members as
to just what happened.

The 14 boys from the livestock
clubs will be accompanied by County
Agent Howell, and the nine girls,
representing the three sewing clubs
and one canning club will be accom-
panied by Miss Jessie Griswold, Mrs.
Victor Bailey, and Mrs. O. A. Colby.

To attain the privilege of sending
delegates to this school, the various
clubs have staged entertainments,
and other events, for raising the
necessary \$15.00, which covers the
cost of their instruction and board
and room at Corvallis for the two
weeks period. Through the kind-
ness of some of the business men of
Grants Pass, who are furnishing
cars for their transportation, they
will be under no other expense.
Members making the trip and the
clubs they represent are as follows:

Laurel Grove Calf Club: Marvin
Carl, Harry Webber, Clifford Will-
son.

Leland Calf Club: Virgil Goff,
Francis McCaslin.

Rogue River Valley Calf Club:
Wayne Jordan, James Mathews.

Dryden Pig Club: Labron Tolin,
William Tolin, Richard Martin,
Charles Scherffius.

Go Get 'em Pig Club: Howard
Lewis.

Roseburg Sewing Club: Ida Gun-
ter, Inger Henrikson.

Wassa-Laita Sewing Club: Lois
Bailey, Katherine Wiley.

Four-Leaf Clover Canning Club:
Wynafred Gaston.

P. D. Q. Sewing Club: Mary Col-
by, Margaret Hammerbacher, Ruth
Fifield, Betsy Fifield.

Labron Tolin and Howard Lewis
are attending the session as a result
of their winning a state champion-
ship in their respective classes last
year at the state fair, Howard Lewis
winning first in Division 2, pig club,
with his Berkshire barrow, defeat-
ing 29 other contestants, and La-
bron Tolin winning first place in Di-
vision 3, pig club, with his purebred
Berkshire gilt.

All of these club members are
looking forward to a very profit-
able trip, and also expect to have a
good time.

Local business men have respond-
ed generously to the request for cars
to take the club members to Corvallis.
Those offering cars are L. H.
Linbarger, Roy Hackett, Bert Steph-
enson, O. A. Colby, Jessie Griswold
and H. B. Howell.

AMUSEMENTS
After months of reading of the
greatness of Universal's "Hunchback
of Notre Dame," Grants Pass will
have chance to see this classic. It is
booked for showing at the Rivoli
theatre, starting Sunday.

The engagement will be limited to
three days. Lon Chaney is the star
and his interpretation of the role of
"Quasimodo" is said to be the great-
est piece of work that he has ever
accomplished.

The cast is one of the finest ever
gathered together and includes such
well-known artists as Ernest Tor-
rence, Patsy Ruth Miller, Nigel De-
Bruiler, Brandon Hurst, Kate Lester,
Gladys Brockwell, Eulalie Jensen,
Tully Marshall and John Tully Mar-
shall and John Cosser.

The entire production was made
at Universal City, California, and is
the crowning achievement in a long
list of superlatively fine film pro-
ductions made by Carl Laemmle.

loy to prevent tarnishing of silver.

**USED CARS FOR EUROPE.
A TEXT FOR FORD.
WHAT IS A CAREER?
THE JUDGE'S COCKTAIL.**

When the automobile arrived,
old-fashioned carriages, Victrolas,
broughams, etc., became worthless
here, and a market was found for
them in South America where they
did not give up horses and car-
riages so easily.

Lately the American problem has
been "how to get rid of second-
hand automobiles." Europe, it
seems, will help solve that problem.

A company, formed to ship sec-
ond-hand cars to Europe, sends
over bargains by the shipload.
Money is not as plentiful there as
it is here. The "used car," at a
whittled down price, is attractive.
Unloading of used cars abroad
will be a good thing for Europe,
which needs economy, and a good
thing for the United States, where
millions need "a bigger or better
car."

The Senate Agricultural Com-
mittee, 11 to 5, voted against
Ford's Muscle Shoals offer and
took up Senator Norris's bill.

Senators that refused Ford's
offer are hurting farmers and hurt-
ing themselves. But that doesn't
console Ford, who must now find
his consolation in the 146th Psalm.
Verse 3 is especially recommended:
"Put not your trust in princes,
nor in the son of man, in whom
there is no help."

The unreliable son of man in this
case seems to be Mr. Coolidge.

Chlorine gas that wiped out bat-
talions in the great war, will be
used on a bigger scale of destruc-
tion against germs of influenza,
pneumonia, and other diseases.
That's a better war.

Exclusive clubs in New York de-
cide to suspend their visitors' list
during the Democratic convention.
This is presumably to oblige men!

**Keeps Absolute Check on
Time Taken for Operation**

Modern efficiency methods as ap-
plied in factories and shops often
make it necessary to study the time
required for different operations in the
manufacture of certain products. For
this work it is absolutely necessary to
have a stop watch. The conventional
stop watch, however, leaves much to
be desired, for the reason that, while
it gives the time elapsed for a certain
operation, it is necessary to indulge
in a considerable calculation for de-
termining the output per hour or day.

Now a time-study watch has been
evolved for the purpose of eliminat-
ing all computation and making it
possible for an observer to read from
the dial the quantity desired. The cir-
cumference of the dial of the watch is
divided into 100 parts, as in the well-
known decimal dial, but instead of
these divisions being numbered in the
ordinary manner they are marked with
figures which indicate the number of
operations per hour, when the time of
a single operation is represented by
the elapsed time. In the instance of
very short operations ten operations
instead of one can be timed.

bers that occasionally dream politi-
cal dreams, on their own account,
but would not like to push the thing
so far as to "invite those political
chaps to one's own club, don't you
know." We really have an Ameri-
can aristocracy, a poor thing, but
our own.

The Methodists, with "going for-
ward" for their keynote, vote 5 to
1 in their general conference to lift
the ban on dances and theatres.
The old rule was no amusement
"except those which can be used in
the name of the Lord Jesus." Now
amusement and religion can be kept
separate, as education and religion
are separate in public schools.

Charles H. Mayo, great surgeon,
says cancer will be conquered
"within a few years." Already
seventy to eighty per cent of can-
cers can be cured "if taken in
time." Remember that over-eat-
ing is one of the principal causes
of cancer. Keep your system light,
clear, clean, full of energy, and it
will deal with the diseases that at-
tack it.

Overloaded, it is helpless.

Miss Gildersleeve, dean of Bar-
nard College, tells the girls that
marriage is not ENOUGH for
women now. Each girl must have
a career, as well as a husband.

What IS a career? Beethoven's
job was music. Michel Angelo's
was art. Did not their mothers
have a career, when they created
them? Or must they also paint
pictures and write music? Is not
the creator as great as the thing
created?

Mothers are the creators, men
are only the product, depending
for their fate on what their
mothers give them.

It would horrify you to read
about a female gorilla capturing a
young girl, skinning her, to use the
skin as sandals. That never hap-
pened. But European ladies are
having sandals made of the "soft
and pliable" skin of monkeys, guar-
anteed not to "squeak." In a gorilla
that would shock us. It's all
right for a lady.

Rebecca West, an intelligent
young English writer, back in Lon-
don, tells of a judge in the Middle
West "who danced the tango with
passion rarely exhibited in public
places. And afterward gave me a
wonderful cocktail made of a brand
of white fire out of a silver flask
the size of the Ascot Cup."

At his invitation she sat on the
beach with him next day and saw
him dine a colored lady, seventy-
five years old, \$50 for carrying a
pint bottle of moonshine whiskey.
She presents that as a sample of
our "respect for law."

To Halt Shifting Sands

Oil is being used to prevent sand
from being drifted by the wind across
the tracks of the Oregon-Washington
Railroad and Navigation company
and impeding or even preventing traf-
fic. Dunes near the tracks in the Col-
umbia river valley are sprayed with
crude petroleum which has been heat-
ed so as to secure the required fluid-
ity. A thin layer of asphaltic material
then forms on the sand and so pre-
vents the drifting of the surface. One
application serves for at least a year
and in some locations for as many as
two or three.

More Autos in Europe

The use of motor vehicles is in-
creasing as rapidly in other countries
as in the United States. The develop-
ment has progressed most rapidly in
the English-speaking countries. Great
Britain has 655,318, Canada 642,571
and Australia 130,540. France stands
next to the British empire, with 460,
000.

Evening service at 8 o'clock.
Rev. Philip K. Hammond,
Vicar in charge.

Newman Methodist Church
Sunday School at 10 a. m., with
classes and departments for all. The
morning theme is "Flag Day." We
believe in full honor to our flag. No
emblem means as much to the Ameri-
can people as the flag of our coun-
try. The choir will sing a response
entitled, "Hear and Answer" and an
anthem entitled, "O God that Madest
Heaven and Earth" by Petrie with a
solo by Mr. J. M. Isham. Mrs. Dick
Graham will sing a solo entitled
"The Flag Without a Stain."

Epworth League at 7 p. m. Even-
ing service at 8 p. m. We will have
stereoscopic pictures entitled "The
Good Samaritan." This is not the
Good Samaritan of the Bible but 59
beautifully hand colored slides put
by the slide department of our
church. There is no more beautiful
set of pictures put out anywhere
than these are. Mr. Paul P. Byers
will sing a solo entitled, "One
Sweetly Solemn Thought."

D. Lester Fields, Minister.

Identifying Pictures

French chemists have perfected new
methods of identifying pictures, ac-
cording to the American Chemical so-
ciety. They use groups of red, blue,
green or white light to light the pic-
ture, and they examine the suspected
canvases with the spectrometer. This
puts in relief the retouchings, scrap-
ings and changed signatures which
constitute a false picture. By em-
ploying the ultra-violet ray they make
the zinc white and certain varnishes
stand out by fluorescence. By scrap-
ing off small amounts of paint they
have made spectrographic analysis
and have been able to determine, for
example, in a false Renoir, the pres-
ence of a cadmium yellow, when
Renoir only used chrome yellow.

Missing the Sights

Senator Underwood said in a discus-
sion of spiritualism at a dinner party:
"There is one sure thing about the
spirits raised by Sir Oliver Lodge and
Sir Arthur Conan Doyle—they talk in
a light way about heaven.

"The details that these spirits give
us remind me of the little girl who,
rummaging in a drawer, exclaimed:
"There! Grandma's gone to
Heaven without her spectacles!"—

started at a house party. She was

About 6 months ago this
country started a nation wide
"Pride in Appearance" cam-
paign to influence men to dress
better.

Some scoffed—some snick-

were men—not peacocks!

This store like the idea—
we jumped up on the wagon
and went along with the "Dress
Up" campaign.

Now—if you will take a

they did last November—and

**Poem
by
Uncle John**

If we take the general average
of the people as they come,
they're voluble on some things,
while on others they are dumb.
... And, you're forced to this
conclusion—if you'll only take
the pains, that they're more
inclined to brains than an over-
plus of brains.
