

SOUTHWESTERN OREGON MINING NEWS

(Continued from Page Three)

greater progress and soon the industry will be established on a firm foundation for all time to come.

The movement is not spasmodic, but tangible and permanent. It is particularly free from get-rich-quick schemes. It is not characterized by selfish interests in starting a boom, but rather by experienced, well intentioned and determined mining men who are bound that the rich mineral resources of this section shall receive the development they warrant—men who have no axe to grind save the welfare of the industry as a whole.

The Bureau members are giving generously of their time and ability, and are receiving the hearty support of the newspapers in matters of publicity affecting the mineral wealth of Southwestern Oregon, and its development. The results thus far obtained speak for themselves, and are a guide to the future possible results when the Bureau is more liberally supported by those who will benefit most.

As mining is a basic industry, its development in the Southwestern Oregon field—a field acknowledged as rich in a wide variety of minerals—cannot fail to benefit, directly and indirectly, the businessman, the mining man, the professional man, and the farmer for whose products a cash market will be made at his very door. Therefore, can those who will be benefited by such development fail to support the agency that has for its sole purpose the furthering of that development in this section? Such agencies are effective only to the extent of the support they receive, and to reach the full development of our mineral resources the Southwestern Oregon Mining Bureau should be supported heartily and ungrudgingly.

The simplest form of support in this matter is to enroll as members of the Bureau, and the Bureau extends an invitation to everyone interested, directly or indirectly, in the development of the natural resources of Southwestern Oregon to become members. Application for membership may be made by mail, accompanied by remittance of annual dues—\$2.00—and same will be acted upon at the monthly meeting of the Bureau to be held on the first Saturday in July. Receipts will be mailed promptly.

Members of the Bureau are urgently requested to mail checks for dues for current year to the secretary promptly.

BOHEMIA DISTRICT

Rich Strike In Annie Mine
While working the property of the old Annie Mine, owned by John Coffman, A. W. Hellwell and E. C. Lockwood, the workmen broke into the ore body on the 200-foot level. The ore being high grade, the new strike is very gratifying to the owners, as it shows the ore body intact between the 200 and the 300 foot levels.

The Annie Mine was formerly one of the largest producers in this district. This strike will undoubtedly mean new operations on a larger scale and greater activity for the whole district.

Sailors Gulch
G. H. Warner, an ex-serviceman came to the Bohemia district about a year ago, and after listening to the stories of the various properties concluded to look into an old placer mine called the Sailors Gulch, long ago abandoned. According to the history of the property an old sailor took out about \$75,000 from the placer ground, but eventually came to a roof of hard pan and his values ran out. Warner tested out the ground left unworked and the tailing pile. The results were satisfactory to him, and he now has a crew at work. A Mora pump has been taken to the property, and he plans to raise water 75 feet and operate the property.

The two oil wells being drilled by the Guaranty Oil Company at Cottage Grove and Eugene are increasing their depths slowly but surely, the Cottage Grove well being down over 1600 feet and the Eugene well over 1700 feet.

WANT AND FOR SALE ADS.
This space will be devoted to WANT AND FOR SALE ADS covering mining properties, mining and milling equipment, labor, etc.

Rates are 10 cents per line for one insertion in each daily and weekly editions on Fridays. Copy must reach Courier by Thursday of each week for insertion that week.

When the Truth Hurts
Never tell a man that he has made a fool of himself. If he knows it he will get angry—and he will get angry also if he doesn't know it.

MEDFORD - JACKSONVILLE DISTRICT

The Medford-Jacksonville district is bounded on the south by the Ashland district, and includes all of Bear Creek Valley between Phoenix and Central Point; to the southwest it extends to the divide between Bear Creek and the Little Applegate river; to the northeast it is limited by Antelope Creek.

Gold was discovered near the present site of Jacksonville in the fall of 1851 and mining actually began in 1852 in which year the district was organized. The placer mines on both forks of Jackson Creek yielded generously, and in the early sixties attention was given to quartz mining.

The mineral resources of the district include building stone, road material, coal, clay, gold and silver. Granite building stone is found two miles north of Jacksonville and at Toio, and sandstone is found southeast of Jacksonville. Good road material is obtained from a quarry one-half mile west of Jacksonville. About five miles east of Medford several coal deposits have been opened up to a considerable extent. Clay for brickmaking is found near Jacksonville and in other parts of the district, and at Central Point the Southern Oregon Clay Products Company is equipping quite an extensive clay products plant.

Among the quartz mines are:
Opp Mine
Located in Section 36, T 37 S, R 3 W, about 1 1/2 miles west of Jacksonville, at an elevation of from 1850 to 2850 feet. Claims practically all patented. This mine has about 6000 feet of underground workings, and during the time it was owned by Mr. Beekman, formerly in the banking business at Jacksonville, it produced upwards of \$100,000. Property now owned by John Opp. Development work is now being done.

Yellow King Mine
Located on Jackson Creek in Section 26, T 37 S, R 3 W, at an elevation of 2800 feet, and owned by F. J. Newman and associates of Medford. Consists of 160 acres of patented land with several hundred feet of development work done. The property is not in operation at this time.

Town Mine
Located on ridge about 800 feet west of the reservoir on Jackson Creek at elevation of 3200 feet. Owned by J. C. Rinehart; about 500 feet of underground development work done, and the work is now going on through leasing. Two pockets, known as the Johnson pocket, said to have yielded \$30,000 and the Bowden pocket, said to have yielded \$60,000, were taken out on this property in the early days.

Norling Mine
Located one-half mile southwest of Yellow King mine. Main adit is at elevation of 3150 feet; about 1000 feet of development work done. Equipped with a five stamp mill having plates and vanner, run by steam engine. Considerable ore has been stopped out, and it is reported that 120 tons of ore produces \$6400.00. Property not in operation.

MARKET QUOTATIONS

New York Market, June 14, 1924.
E. & M. J. Press

Silver, oz.	66 1/2
Copper, lb.	124 1/2
Lead, lb.	67
Zinc, lb.	65 1/2
Tin, lb.	41
Nickel, lb.	27
Antimony, lb.	11 to 12
Bismuth, lb.	\$2.35 to \$2.49
Chrome, ton	\$19.00 to \$22.00
Cobalt, lb.	\$2.50 to \$2.00
Manganese, per long ton unit	
12 to 16	
Tungsten, per unit	\$9 to \$9.25
Palladium, oz.	\$75 to \$83
Platinum, oz.	\$116.00
Iridium, oz.	\$260 to \$270
Quick silver, per 75-lb. flask	\$74

FACTS FOR PUBLICATION

Mining men generally are requested to write Bureau weekly of development work being done, new discoveries, and general mining news. Such data should reach Secretary by Thursday morning to insure publication same week.

Belgian Education

To train Belgian young men for service in the Congo as physicians, technical men and administrative officers a "Colonial university" has been established at Antwerp by the Belgian government. This university has been developed through the successful work of a high school of commerce, which was founded two years ago by the commission for relief in Belgium and the city of Antwerp, to train boys for colonial service. This school was converted into a university last November and it is now known as "Universite Coloniale." It has three schools devoted respectively to political and administrative science, tropical medicine and natural sciences.—School Life.

A pipe which is shaped like a cigar has been designed for outdoor smoking.

PUBLIC RECREATION COSTS U. S. MILLIONS

Playgrounds Found to Be Good Investment.

New York.—More than \$14,000,000 was spent for public recreation last year by cities in the United States and Canada, according to the Playground and Recreation Association of America, which has just compiled the returns from a questionnaire on community play.

This sum is more than twice the amount spent for the same purpose ten years ago.

In a total of 680 cities reporting community recreation leadership, 680 conduct 6,591 playgrounds and recreation centers under paid leaders. In 1908, when Theodore Roosevelt and others organized the association, only 11 cities had playgrounds and recreation centers with paid leaders.

1,200,000 Play Daily.
Approximately 1,200,000 was the reported daily average of children and adults at the summer playgrounds of the country in 1923. This figure is four times greater than the 1913 attendance.

The reason for the steadily increasing expenditure for recreation at a time when municipalities are bent on economy, the association states, is that playgrounds and recreation are recognized as a good investment.

Delinquency and crime costs are reduced. Chief of Police Conlon of Leominster, Mass., says that delinquency cases in Leominster averaged 31 a year prior to the organization of community service, the local recreation agency. Since its coming the number decreased to 33 in 1923.

Costs Probation List.
In Utica, N. Y., Anna D. Bayland, chief probation officer, attributed to the efficiency of playgrounds the fact that not a single child was put on probation during the month of July in the Children's court.

Judge C. Penny of Miami, Fla., gave credit to the supervised play program for the fact that while previously he had had twenty or twenty-five cases of delinquency in his court in a month, in the six months after the playgrounds opened he had only five cases.

Topeka, Kan., found that truancy decreased when playgrounds were installed near the schools.

Defiance, O.; Centralia, Ill., and other cities reported the practical elimination of mischief and property destruction by boys at Halloween, due to the organized community celebrations of the city recreation committees.

Many other cities reported decreases in delinquency, attributed by judges, probation officers and others directly to organized play.

Loves His Mules So He Keeps Them in the Cellar

New York.—William Conquest so loves his two mules that he keeps them in the cellar of his house. The Society for the Prevention of Cruelty to Animals worried about them so that they had Conquest before Magistrate Doyle. L. Ray, an officer of the society, said that there was undoubtedly cruelty to animals, but Conquest said not.

"They are nice mules," he said, "and they have a good time in the cellar. Every time I put them in the stable they are uncomfortable and as soon as I leave the door open they go back to the cellar."

"Why not put them in your dining room?" asked the magistrate.

"Well, I might," said Conquest. "They are nice mules. But they prefer the cellar."

"But the officer says their health is endangered," said the magistrate.

"You can't hurt a mule," said Conquest. "They're just mules. They haven't any health."

As no evidence was offered to show that the mules were other than frisky and happy, the magistrate dismissed the charge.

Autos Gain in England

London.—The use of motorcars is increasing slowly in England, and the revenue from licenses also shows a gain. During the year 1923 a total of 1,956,000 licenses were granted, an increase of 132,692 over 1922.

To Protect Samoa

The possession of American Samoa is guaranteed to the natives forever by the government of the United States. Opium, alcohol, patent medicines and commercialized drugs are prohibited and medical service is supplied free.

The Hittites

The Hittites were an agricultural people and famous raisers of bees. A law of 1370, B. C., provided that anyone guilty of stealing bees should be punished by being stung to death.

ROGUE RIVER

The I. O. O. F. memorial services were held last Sunday morning at the Hope Presbyterian church with a good attendance. The service was conducted by Rev. Wm. Lee Gray.

Such popularity must be deserved.

BIG HITS don't just happen. Popularity doesn't come ready-made. In pictures, plays or products, success must be built on something REAL. Thus Chesterfield's swift rise to popularity was no accident. Smokers were ready for a better cigarette and in Chesterfield they found it. Taste convinced them. That's why men are turning by thousands to Chesterfield.

Chesterfield

CIGARETTES

They Satisfy—millions!

Mrs. Wm. Lee Gray, accompanied by her two daughters and mother, left last week for Portland where they expect to spend about two weeks visiting with relatives and friends.

The annual school election was held last Monday afternoon at the schoolhouse. E. W. Wilson was unanimously elected as director to serve for three years, succeeding A. K. Earhart, who has served in that capacity for the past nine years. George Lowd was re-elected clerk of the school board.

Last Friday evening a large crowd gathered at the community hall to enjoy the splendid concert given by the members of the Grants Pass band. The people of this community thoroughly appreciate the kind and magnanimous spirit which prompts their neighboring town to show such friendship and brotherly kindness, not only on this occasion but many times in the past, and in many ways.

The Women's Civic Improvement Club of this city will give an ice cream social on the evening of Thursday, June 26th, at the community hall. Those who attend this social will again have the pleasure of listening to some splendid music rendered by the Grants Pass band who have so willingly consented to give their services to help a good cause. The proceeds will be used to buy new books for the library. No admission will be charged.

Mrs. Wilcox, an old resident of this city, accompanied by her son, Lester, and her two married daughters, is visiting friends in this city. A picnic supper is being planned by the members of the Civic Improvement Club for Friday evening, June 27th. Their husbands will be the guests of honor.

Miss Gladys Sandry and Victor Birdseye, students of the Oregon Agricultural College, have returned to their homes for the summer vacation.

C. W. Clarke, of Cascade Gorge, visited Wednesday night at the home of E. W. Scott of Rogue River.

Thomas Mooney, Keith Stricker and Norman Brashear left Sunday to attend the two weeks summer school at Corvallis.

Julian and Swacker are taking out some very fine ore from their mine on Birdseye Creek.

Earl Scott received a visit last week from his brother, T. H. Scott, of Dickens, Iowa. Mr. Scott had not seen his brother for 14 years.

Mr. and Mrs. E. R. Carter visited Mrs. Carter's uncle, T. S. Wiley, of Ashland Sunday.

The Odd Fellows and Rebekahs had a basket dinner in their hall Sunday, June 15th. A very enjoyable time was had by all present.

Miss Christel Hobson, who has been attending school at Portland came to Rogue River to spend her vacation with her parents.

The Ancient River Mining Co. are moving their plant further up the river preparatory to starting mining operations for the summer.

Earl Strahan and family went to Talent Sunday to visit their daughter, Mrs. Clarence Mathes, and family. They returned to Rogue River Monday.

Mr. and Mrs. F. H. Adams, accompanied by their son, were Sunday visitors at Hugo.

As the notice was short only a few people were able to attend the meeting, but those who were present enjoyed the sermon, and wish to thank Mr. Dodson for coming.

Richard Mastin, Labros and William Tolin and Charles Scherffius left Saturday for Corvallis where they will attend the summer school at Oregon Agricultural College.

Mrs. John Baird was shopping in town Tuesday.

Miss Mary Barr, of Grants Pass, has come to spend the summer with Mrs. William Barr.

Ed. DeGrasse was a business visitor to town Tuesday.

There was quite a fire at Selma last Saturday on the ranch of R. L. Hammer. It broke out again Sunday afternoon and the services of about a dozen fire fighters were required to keep it in check.

Orville Camp has returned to California after a visit to his mother, Mrs. W. L. Tuttle.

Mrs. Ray Buell from California and John Eads from Grants Pass are visiting their mother, Mrs. Vieta Eads, at Dryden.

Mr. and Mrs. Ed. DeGrasse have received an announcement of the marriage on June first of Howard DeGrasse to Miss Fay Butt, of Los Angeles. Mr. and Mrs. Howard DeGrasse, who have gone to housekeeping in Los Angeles, are expected soon for a visit to Mr. and Mrs. Ed. DeGrasse, of Dryden.

Rev. E. J. Dodson was a guest at Hueleberry Homestead Sunday night.

Mrs. C. Messinger and Clarence Scherer were shopping in town on Wednesday.

Art Harmon was a business visitor to Grants Pass Wednesday. Mr. and Mrs. Alter, who used to reside on a farm near Sargent's are here from Marshfield, visiting with friends.

W. J. Carlisle has returned from The Dalles where he was a delegate from Deer Creek Grange to the State Grange convention.

Miss Ellen Briggs, who is making her home with Mrs. Willis Garbe in Grants Pass is visiting Mrs. Warren Tuttle.

Henry Sargent was visiting in town Sunday.

Central and Dryden schools held their annual meeting at their respective school houses Monday, June 16th. At Central the directors of the coming year are R. B. Ham, Noble Parker and Frank Sargent; Mrs. W. T. Tuttle, clerk. At Dryden, Mrs. B. F. Scherffius, Charles Harmon and Martin Williams are directors. Marion Crooks, clerk.

Dorothy Mastin accompanied her father to Grants Pass Tuesday.

Mr. and Mrs. R. D. Craig and children, of Doris, and their daughter, Mrs. Russell Cooper, of Yreka, Calif., Mrs. A. G. Christie and Miss Lindsay, of Klamath Falls, were week end guests of the family of A. B. Ragan. Mrs. Cooper was married at Yreka last Wednesday and she and her husband are enjoying their honeymoon.

Winston Tuttle has returned to Grants Pass after spending two weeks at the home of W. L. Tuttle.

Mr. and Mrs. Harold Hanseth and children, Mrs. Lester Abernathy and baby girl, have arrived from Crescent City for a visit to Mr. and Mrs. H. N. Parker.

Miss Clara Usher and Louis Hamner, were shopping in Grants Pass Wednesday.
