ATTEND THE COOKING SCHOOL

The Courier next week is presenting a free electric cooking school for the women of Josephine County and adjacent communities. The classes, which will be under the direction of a home economist, are open to anybody who wishes to attend and the Courier has extended an open invitation to every woman and girl in this part of the state, who wishes to

take advantage of the opportunity for this instruction. For the contest on Friday, it is hoped that many entries will be made as the prizes warrant a keen interest. The Courier has been called many times during the past week by ladies who wish to enter the competition. Capable judges are being selected and will select the winners on the last day of the school. Read the special cooking school section in today's paper and become versed in the program for the four days and the rules of the contest. Remember that it is free to all.

Klamath to Hold Rodeo

Over where the horses are wild and where cowboys are still packing guns, there will be a rodeo of real dimensions, according to Lynn P. Sabin, manager of the Klamath Falls Chamber of Commerce, who was here today. Mr. Sabin states that Klamath Falls is offering \$5000 in prizes for their Fourth of July celebration and expects to have a large crowd there. T. merchants there are behind the celebration.

Red Spider Prevalent

The red spider pest is becoming quite prevalent in parts of the valley according to the county agent, who says that they are now to be found on garden track. Unless they are controlled they are very likely to ruin garden truck where they get started. These are particularly bad on beans, cucumbers and such varieties of truck. They can be controlled by dusting with sulphur while the dew is still on the leaves. The pest can be noticed when leaves start to turn pale and yellow, although they can scarcely be seen by the naked eye.

FORD IN FLORIDA. 5 BILLION CIGARETTES. THE POST OFFICE PAY. 'McADOO AND SMITH.'

Henry Ford has bought a great tract of land in Florida, including a county seat and a good many buildings. He gets wood for his cars from forests in the North. He will now, it is said, establish rubber plantations in Florida to supply material for his tires. 'From producer to consumer' is his motto. WATCH FLORIDA. That one State among forty-eight in this Union will before many years have passed be a gigantic nation in itself.

One task in the United States is not neglected, and that's the job of burning up cigarettes. In April the factories turned out more than five thousand millions of cigarettes, and the output is constantly increasing. In four months this year the country smoked two thousand million more cigarettes than in the same period last year. If young gentlemen devoted to other tasks the concentration and careful attention and choosing that they devote to cigarettes, what a world this would be for accomplishment.

It is suggested that President Coolidge will veto the bill to raise the pay of post office employees, on the ground that 'the nation can't afford it.' The President would hardly say that. The nation CAN afford it, and it can't afford to treat faithful public servants meanly.

The nation supplies the President with a fine private yacht to go sailing, one that burns many gallons of oil and employs many men. If the nation can afford that for the President, who gets \$75,000 a year besides, it can afford to pay living wages to the letter carrier, who pays for his shoes three times what he used to pay.

Secretary Wilbur of the Navy

says that Congress "must never have power to override Supreme Court decisions." Why not? Supreme Court decisions are no better than the men that render them. And judges are no better than the man appointing them, presumably. Congress represents the people, and if the people cannot be trusted to manage their own affairs, including their own Supreme Court judges, they ought to go back to the kindergarten under King George of England and not pretend to rule themselves.

Apparently La Follette intends to run independently for the Presidency. He now says he will do so "unless both oil parties are purged." It isn't likely that either party will consent to such a purging as Dr. La Follette would prescribe.

La Follette cannot be elected, and knows it. But he can spoil all the plans and calculations of politicians, if that seems to him worth while. Some think that he will not believe he will run the risk of being responsible, toward the end of his career, of making a Democratic President. That was Roosevelt's farewell accomplishment.

Dr. Chiera, professor of Assyriology at the University of Pennsylvania, discovers a Babylonian writing giving the age of Noah as 64,800 years. This makes of Methuselah a poor second. Exaggeration of time and other things, on the big and the little side, was common everywhere in the old days.

Periods were twisted out of shape, made shorter or longer. Palaces were built in a second, the World was created in six days. Wise men lived thousands of years. All this does not invalidate the fundamental value of historical records.

Whatever else happens in the Democratic convention, Smith and McAdoo combined could control it if they could get together; it would be their convention. Possibly they will get together. McAdoo wants to be President; nothing else would do. Al Smith might be satisfied to be Vice-President to start with. That would make a combination hard to beat—especially if La Follette decides to run and cut a large independent piece out of the Republican vote in several States.

Civilization has passed various milestones, one "slavery," one "religious persecution," one "torment of witnesses." This nation may pass another labelled "child labor," and throw off one more disgrace.

GASOLINE INQUIRY TO BE INSTITUTED

Washington, D. C., June 21.—The government's intention to go to the bottom of the whole gasoline price situation probably through the courts, was indicated by Attorney-General Stone.

Inquiries instituted by the federal trade commission and the department of justice are to form the basis of the proceedings which it is stated will be started by the federal government. Results of the commission's study of the price question, made at the request of President Coolidge, are in the hands of the department of justice and Mr. Stone announced that he had directed members of his staff to collate data gathered by department investigators with that obtained by the trade commission.

Damage Done by Fire—That \$100,000 damage was done by a fire which Thursday afternoon all but destroyed the town of Hill, California, is estimated by A. C. Stonehouse, general superintendent of the Fruit Growers' Supply Company at Hill. The Sun Kist hotel, two annexes and eleven dwellings were reduced to smoking embers before the fire was brought under control. The fire started in Annex 1 about one o'clock and is of undetermined origin. An east wind was blowing and swept the blaze full across the town, taking the board buildings before fire-fighting equipment could be mobilized. One house was dynamited to stop the spread of the fire, and appeals for aid were sent fire chief Baughman of Ashland and the Southern Pacific company at Hornbrook.—Ashland Tidings.

Poem by Uncle John

I reckon the picnic season is the finest time that there is—to get the red blood a-rippin' and to make our emotions whizz.—O, it's then we can slip the halter off—an' roll, to our heart's content—an' get up an' shake ourselves, an' feel like a hundred an' one per cent! As soon as the picnic season's on—an' the styles begin to advance,—it's proper to think of the custard pie, when selectin' yer sun-kist pants. . . . And, the hard-biled egg—an' the peanut-salve, which is staple as alfalfa hay!—The're items to be provided fer, on the eve of the picnic day. . . . Of course there's handicaps lurkin' around, as there allers will be, I guess. . . . The chigger deploys his sub-mareen bands, in the depths of the picnic dress. . . . An' I ain't complained, you understand, of the trysts in the coolin' shade—but, the thing that's quickest to call my hand, is—red ants in the lemonade!
